EXEMPTIONS IN BANKRUPTCY.

Our able cotemporary, the Wilmington Journal, usually so accurate in its information, contains a material error in its issue of Tuesday, which is calculated to mislead persons contemplating bankruptcy.

Speaking of the bankrupt's exemptions under the late Act of Congress, the Journal says: "And all of his property is converted into money by his assignee in bankruptcy, except two thousand dollars worth of real estate at gold value, and one thousand dollars worth of personal property at same value, and five hundred dollars worth of household and kitchen furniture, &c."

The above is doubtless taken from one of the Journal's Georgia exchanges, as the exemptions specified are allowed in that State, but not in North Carolina.

Among the exemptions allowed by the last bankrupt Act of Congress are the homestead exemptions in the several States, and consequently in this State the exemptions allowed by article tenth of our State Constitution are set apart by the assignee for the bankrupt's benefit, namely, one thousand dollars worth of real estate, and five hundred dollars worth of personal property.

Congress has power to pass a uniform bankrupt law; but we cannot undertake to say whether that authority has been abused or transcended in the late Act, allowing to each State its respective homestead exemptions. Certainly these exemptions are not uniform.

It will be curious to examine the different exemptions of the several States. If we add the five hundred dollar exemption allowed by the general bankrupt law to the value of the homestead exemptions, real and personal, in each State, we find the total exemptions as follows: Maine, \$2,000; New Hampshire, \$1,900; Vermont, \$1,500; Massachusetts, \$2,000; Rhode Island, \$750; Connecticut, \$1,400; New York, \$2,500; New Jersey, \$1,900; Pennsylvania, \$900; Delaware, \$600; Maryland, \$600; Virginia, \$3,500; North Carolina, \$2,000; South Carolina, \$2,000; Florida, \$7,500; Georgia, \$2,500; Alabama, \$3,500; Mississippi, \$5,500; Arkansas, \$7,500; Texas, \$4,000; Tennessee, \$2,500; Kentucky, \$2,100; Missouri, \$1,500; Indiana, \$800; Illinois, \$2,000; Michigan, \$2,000; California, \$7,500; Colorado, \$4,500.

A bankrupt's discharge in the absence of fraud, is good against all debts contracted before the first day of January, 1869. The discharge is also good against debts contracted since January 1, 1869, by the bankrupt as principal, provided his estate pays fifty per cent on the claims proved against him.

JOHN POOL'S PARTY. We referred yesterday to the fact that Ex-Senator Pool of this State had joined a new political organization called the United Working Men of America.

The object of this movement as explained by Mr. Pool to a correspondent of the New York Tribune, is to control legislation in the interest of the laboring classes. To carry out that purpose, an effort will be made to hold the balance of power in each Congressional District, in order to control the next Congress of the United States.

The leaders of the new party claim that it is not strictly a political organization, but that the United Working Men will not support the nominees of any party unless he favors the objects of the order.

It is not a secret political society, and has not yet laid down any platform. Its general principle is opposition to the monied classes and corporate wealth. It seeks to unite all the advocates of labor reform and blend them in one organization.

No doubt there are just causes for complaint on the part of the honest masses against hostile and oppressive legislation, but the workingmen of the country put their cause in bad hands when they selected John Pool, a disappointed and unpopular political aspirant, to champion their interests.

DEATH OF CHIEF JUSTICE CHASE.

SALMON PORTLAND CHASE, Chief Justice of the Supreme Court of the United States, died in the city of New York yesterday morning. Several members of his family were at his bedside at the time of his death.

Judge Chase had been in feeble health for many months, but the public had no recent information of his last illness.

A brief biographical sketch of a man who occupied the highest judicial position in America may not be uninteresting to our readers.

Judge Chase was born in the town of Cornish, New Hampshire, on the 18th day of January, 1808, and therefore, at the time of his death was a few months over 65 years of age. He graduated at Dartmouth College in the year 1826. From 1826 to 1829, he taught school in the City of Washington, and while teaching, read law under the distinguished Virginia, William Wirt, Attorney General of the United States under President Jefferson.

Mr. Chase taught the sons of Henry Clay, William Wirt and other distinguished men. In 1830, he located in Cincinnati to practice his chosen profession. In 1834 he prepared an edition of the statutes of Ohio, which soon superseded all similar publications and is now regarded as authority in the Courts of that State. He soon acquired a high standing as a lawyer.

As a politician Mr. Chase took no active part in politics until 1841, when he made himself conspicuous as an anti-slavery leader. He belonged to what was known as the Free-soil party. In 1849, by a fusion of the Democrats and Free-soilers, he was elected United States Senator. In 1852, he withdrew from the National Democratic Convention at Baltimore which nominated Franklin Pierce, because it approved of the compromise of 1850.

In 1854, he was elected Governor of Ohio, and he afterwards re-elected. In 1861, he was appointed by President Lincoln Secretary of the Treasury, which he resigned to take the position of Chief Justice of the Supreme Court.

ST. MARTINSVILLE. The citizens in the town of St. Martinville, Louisiana, are meeting with armed opposition in their efforts to desist from participation in the Kellogg Government.

The Metropolitan police of New Orleans, who were sent down to coerce them into paying taxes to the Kellogg collectors, have encountered some unexpected difficulties.

The citizens of St. Martinville recognize the McEbery Government only, and will not pay tribute to the Kellogg Government.

Dispatches to-day represent the condition of affairs there as threatening, and intense excitement prevails.

There is deep feeling among all classes throughout the State. Gun stores in New Orleans are being robbed, and more bloodshed in Louisiana seems imminent.

THE CARLISTS-ALPHONSO REPORTED SURROUNDED. The Carlist movement does not consist of great numerical strength, if we are to judge from to-day's dispatches. Alphonso's command of thirty-five hundred followers and the twenty-two Carlists bands, scattered in various sections and numbering some twenty-two hundred men in all, do not make an aggregate of very formidable proportions, and if this force is all that the Republic is called upon to suppress, the task ought not to be a very difficult one.

Our Madrid dispatches to-day state that Alphonso is surrounded at a little town near Barcelona—with a prospect of the Republicans capturing him and his entire command.

SPIRIT OF THE PRESS. The Wilmington Journal has an editorial on "The North Carolina Injunction." The Courts will settle the matter.

Orleans had become involved with the citizens of St. Martinville, Louisiana, in which two of the policemen were fatally wounded.

We do not think the Louisiana troubles are over yet. Let us have peace! Speaking of the death of James Brooks, the Hillsboro Recorder says that but for his complicity in the Credit Mobilier infamy, "he would have gone down to the grave honored as the able Editor of the New York Express, a good Whig of the olden times, and since the war an active and uncompromising Conservative."

Mr. Brooks married a lady in Norfolk, Virginia—the widow of a Mr. Randolph. The Hillsboro Recorder, referring editorially to the case in Orange Superior Court, of the State vs. W. W. Holden, says:

"It were to be wished in many points of view that this case had been dismissed from the docket and the defendant discharged. A conviction could accomplish nothing to add to the already disabled and helpless position of the accused. Politically he is dead. The last faint effort has been made to revive him and it strikes us as impolitic to surround him with those incidents which must ensure to the character of martyrdom. The leniency of the Government in the withdrawal or mitigation of its judgments or penalties, as it merits a recognition, and it can be more pointedly shown than in the release of one, who has been prominently connected with the acts of the administration, and who, is now the sufferer for excessive zeal in its behalf, from all pains and penalties far that the offended law of his State has already affixed."

The Charlotte Observer comments at length on the disgrace of America at the Vienna Exposition. The Observer thinks the position of our country there must make the cheek of every honest American burn with shame and indignation. "Dishonest Yankees" come in for a full share of the Observer's denunciation. That paper concludes its article as follows:

"And so it will ever be while New England's hand shapes the destinies of this Republic. It is New England men who have made Congress a den of thieves; plundered a conquered people; robbed their own government; cheated the Indians; cheated the English; filled this land with the stench of corruption, and now disgraced the whole nation at a World's Fair! In the eyes of the whole world the American has been branded with the brand of dishonesty."

The people of New England are not all thieves and rascals. There are some honest and patriotic men there, and those that are true are "trusted of the true."

The West-Carolina Record, speaking of the Editorial Convention which meets in this city on the 9th of July, thinks the idea a good one, and will do much to revive the cause of education.

The Record suggests that the county Board of Examiners select one or more suitable persons to attend this Convention, to represent the counties in the Convention. If every county could be represented much might be accomplished for the promotion of the cause of education.

The suggestion is an excellent one, and we would like to see it adopted throughout the State.

The Evening Post of Wilmington, pitches into some of its Republican friends for the tricks practiced by them in regard to the election tickets, in the recent municipal contest in that town—North Carolina's Metropolis: Vide Star.

Ladies will find relief from their Headache, Costiveness, Swelling in the Head, Colic, Sour Stomach, Restlessness, etc., etc., by taking Simmons' Liver Regulator.

Persons living in unhealthy localities may avoid all bilious attacks by taking a dose of Simmons' Liver Regulator occasionally to keep the Liver in healthy action. It should be used by all persons, old and young. It is not unpleasant, is a purely vegetable compound, is not injurious to the most delicate constitution, and will keep the Liver in healthy action.

GUANO! GUANO!! GUANO!!! BUY THE BEST SOLUBLE SEA ISLAND GUANO!

State Fair Premium at Wilmington for the Largest Amount of Cotton to an Acre. GOLDSBORO, Wayne County, N. C., November 23rd, 1872.

JOHN H. POWELL, Esq.: DEAR SIR—The Soluble Sea Island Guano purchased of you this season was used by the side of three others, and has given me more satisfaction than any of the others. The Soluble Sea Island Guano was the one used upon the acre of land upon which my son raised the cotton upon which he took his State premium for the greatest amount of cotton in an acre; and I am informed by the Chairman of the Committee that had he entered for the largest amount of cotton to the acre, premiums open to all ages, he would have also taken that premium, beating all 150 lbs. I am better pleased with it than any other Guano I have ever used on cotton, and I shall use it in preference to all others next season for my cotton crop. T. A. GRANIER.

ALSO EIGHT PREMIUMS AT WAYNE COUNTY FAIR. The Amount of Seed Cotton made on an Acre of Upland by Mr. Granger was Three Thousand Six Hundred and Thirty-three Pounds. EDGECOMBE COUNTY, N. C., December 12th, 1872.

Messrs. R. W. L. RAISIN & Co., Baltimore: I bought of Messrs. Branch, Herbert & Co., last Spring, one ton of your Soluble Sea Island Guano for myself and three tons for other parties, and I find them all well pleased with it, and say it is the best Guano, and paid them better than any they ever used. The ton I used myself was put in cotton by the side of two other guanos, and I am willing to say that I should buy the Soluble Sea Island Guano in preference to any that I have used since the war. Very respectfully, J. R. GREEN.

W. H. AVERA, Esq.: DEAR SIR—In reply to your Guano this year, and the result is, I will use it only for my cotton crop next year. Yours, &c., ELLIS MALONE.

Messrs. HARRISS & BLACKWELL: GENTS—I used this season, on my cotton crops about 15 tons of your Soluble Sea Island Guano, testing it by the side of Guano and Vegetator, and up to the time of the heavy washing rains last of June, I was equally pleased with the confidence of the Guano and better pleased than with the Vegetator. Circular of eight pages of Certificates at G. W. BAREFOOT, by J. J. B.

Captain W. P. ROBINSON: DEAR SIR—In reply to your inquiry as to how I liked the Sea Island Guano I got of you, I wish to say that I applied it, 20 pounds to the acre, alongside of Peruvian, Pacific Guano and Gilham's Tobacco Fertilizer in equal quantities; it stands the drought better than either of the above fertilizers. It matured better on the hill and cured better and more yellow than either of the other fertilizers used. I think it is a splendid fertilizer, and I expect to use it next season. Yours, respectfully, MARCELLUS MIMMS.

To S. J. PARHAM: DEAR SIR—The ten bags Soluble Sea Island Guano purchased of you this season on tobacco and cotton by me by the side of Peruvian Guano, Stone-wall & \* \* \* \* I like it much better than either, and I observed a marked difference in favor of the Sea Island. Shall use it in the future. S. S. ROYSTER.

HENRY BURRELL, Esq., has stated to us that he made a test this present year's tobacco crop, using two other higher-priced guanos, but is convinced that the Soluble Sea Island Guano is the cheapest guano he has ever purchased, and shall use it again.

YANCEYVILLE, Caswell County, N. C. December 6th, 1872. WILSON, N. C., January 11th, 1873.

Messrs. HARRISS & BLACKWELL: GENTS—I used this season, on my cotton crops about 15 tons of your Soluble Sea Island Guano, testing it by the side of Guano and Vegetator, and up to the time of the heavy washing rains last of June, I was equally pleased with the confidence of the Guano and better pleased than with the Vegetator. SPECIAL NOTICES.

A WARNING—There is no case of Cough that did not commence with a cold. Therefore the slightest Cold or Cough should receive attention, take at once the great remedy of the age, DR. TUTT'S EXPECTORANT, and thereby save years of suffering; perhaps life itself. AUGUSTA, GA., Dec. 15, 1872. Dr. W. H. TUTT: Dear Sir—My little son, aged about three years, was attacked with pneumonia last winter with a violent cough, that threatened all within about a month since, for the cough to abate, and I had tried every valuable Expectorant. I had tried every kind of medicine recommended for coughs, but none did any good until I had your Expectorant, one bottle of which removed the cough entirely. With many thanks for your valuable preparation. I am, yours truly, JOHN M. WEIGER.

THE PEOPLE'S STAMP OF VALUE—The Government Incentive, which legalizes the sale of PLANTATION BITTERS, has only stamped affixed to that famous Vegetable Tonic. It bears, in addition to that official sanction, the still more valuable stamp of public approbation. This valuable voucher of its rare properties as a Tonic, Corrective, Alterative, is of much earlier date than the Government certificate, for millions of sick persons had profited by the full particulars of its virtues, long before Congress thought of taxing proprietary medicines. It is unnecessary to stress, in detail, the properties of this wonderful Vegetable Invariant. The best reference that can be made to those who desire the full particulars of its virtues, is the General Public. Ask those who have known it as a remedy for dyspepsia, constipation, biliousness, indigestion, nervous debility, rheumatism, sea sickness, low vitality, or loss of vital power, what they think of PLANTATION BITTERS, and you will be governed by the response they make to your inquiries.

The following statement, from one of the oldest and most respectable merchants of the city of Petersburg, speaks for itself and needs no comment:

I have for many years used "BECK'S" ANTI-DYSPEPTIC PILLS" as a family medicine, and also my own case, and I have no hesitation in pronouncing them the most safe, efficient and pleasant medicine with which I am acquainted. They promptly relieve Dyspepsia, flatulence, Costiveness, Headache, Indigestion, Loss of Appetite, Colic, &c. I have used them in recommending them to the public. They ward off disease and preserve health. I will always keep a full supply on hand and would not say a word to disparage them. JOHN HOWARD. BECK'S PILLS, successor to Dr. H. C.
