After Dunlap was granted a new trial in our Supreme Court on account of the inadvertence of Judge Logan, he justice in our State Courts, on account of his being a colored man and a Republican, and asked that his case be transferred to the United States Circuit Court, under the authority of the Civil Rights Bill, Judge Logan allowed this, but an appeal was taken to the Supreme Court which decided that, under the Civil Rights Bill, Dunlap had a right, for the causes set forth by him, to have the case removed to the Circuit Court-In coming to this determination the Court said such a result was deeply to be regretted, but so the law was written.

The Supreme Court, as we anticipated it would do, has dismissed the appeal, on the ground that the appeal was taken prematurely, as appeals to that Court in criminal cases only lie-from final judgments.

Dunlap will therefore be tried at the June term of the Circuit Court, and United States Supreme Court.

The reason of the rule is apparent. A man charged with a capital crime might be kept imprisoned for years if an appeal on every preliminary motion that could be made in the Circuit Court, was allowed. In this way an innocent man is liable to be held in close confinement ance and harmonious working. Such a of time.

He said this matter was for the Courts, but pending the decision the Administration would take no part other than a formal recognition of theState Government inaugurated by the Republicans-with Kellogg as Chief Executive.

From the tenor of our dispatches today, it seems that the President has determined to uphold the Kellogg faction at all hazards and to the last extremity.

It strikes us that the people of a State have a right to their option as to which of two conflicting Governments they ought to pay taxes, and if they think one is lawful and constitutional and the other revolutionary and usurpatory, they can elect to support and sustain the former or at least to withhold from the latter the means of sus-

WITCHCRAFT AMONG THE FREEDMEN. We publish elsewhere to-day from

the Lincoln Progress a case of conjuration among the colored people of Catawba, which is a good illustration of the supermade an affidavit that he could not get stition prevailing among that class of our population throughout this and the other Southern States.

Ilt cannot be said that superstition is confined exclusively to the colored race, or that it is the necessary concomitant of ignorance, for some of the most intelligent men in every age of the world have acknowledged the influence of its mysterious and supernatural power.

But the freedmen in the South since the close of the war have become the victims of impostors of their own color, who have taught them to believe as firmly in the doctrine of witchcraft as did our New England forefathers du ring the times of Cotton Mather. And tragedies, on secondine of ithe histances in which socery has been practiced among the colored population since 1865 were compiled and published, they would form a volume larger than Mather's "Wonders of the Invisible Word" and equally as startling in its disclosures.

Precious memories cluster thick about us in this floral season; and each year as it rolls by-bearing further and further back into the dead past the eventful period when those whose memory we now celebrate were bravely upholding "the stars and bars," -renders this consecrated day, the 10th of May, more and more hallowed. SOLUBLE SEA ISLAND GUANO!

State Fair Premium at Wilmington for the Largest Amount of Cotton to an Acre.

GOLDSBORO, Wayne County, N. C., November 23rd, 1872. JOHN H. POWELL, ESQ.: DEAR SIE-The Soluble Sea Island Guano purchased of you this season was used by the side of three others, and has given me more satisfaction than any of the others. ers. The Soluble Sea Island Guano was the one used upon the acre of land upon which my son raised the cotton upon which he took his State premium for the greatest amount of cotton to an acre; and I am informed by the Chairman of the Committee that had he entered for the largest amount of cotton to the acre, premiums open to all ages, he would have also taken that premium, beating all 150 lbs. I am better pleased with it than any other Guano I have ever used on cotton, and I shall use it in preference to others next season for my cotton crop.

Messrs, R. W. L. RAISIN & Co., Baltimore: I bought of Messrs, Branch, Herbert & Co., last Spring, one ton of your Soluble Sea Island Guano for myself and three tons for other parties, and I find them all well pleased with it, and say it is the best Guano, and paid them better than any they ever used. The ton I used myself was put in cotton by the side of two other guanos, and I am willing to say that I should buy the So.uble Sea Island Guano in preserence to any that I have used since the war. Very respectfully, J. R. GREEN.

Captain W. P. ROBINSON, DEAR SIR—In reply to your inquiry as to how I liked the Sea Island Guano I got of you, I wish to say that I applied it, 200 pounds to the acre, alongside of Peruvian, Pacific Guano and Gilham's Tobacco Fertilizer in equal quantities; it stands the drouth better than either of the above fertilizers. It matured better on the hill and cured better and more yellow than either of the other fertilizers used. I think it is a splendid fertilizer Yours, respectfully, MARCELLUS MIMMS. and I expect to use it next season.
