

STONE & UZZELL, PROPRIETORS. FAYETTEVILLE STREET. OVER W. C. STRONAUGH & CO.'S STORE. CASES—INVARIABLELY IN ADVANCE.

The Raleigh Daily News. SUNDAY, JUNE 15, 1873.

LOCAL MATTER. E. C. WOODSON, City Editor.

U. S. CIRCUIT COURT.—Court met yesterday morning at the usual hour. The case of A. H. Swasey vs. the N. C. R. R., was resumed. The plaintiff's counsel made application for an order of the Court, to be directed to the proper officer of the Railroad, to issue certificates of stock (30,000 shares) of the States' interest and that said certificates be placed in the hands of S. F. Phillips, Esq., Receiver, to abide the further order of the Court.

AFTERNOON SESSION. The Court convened at half past three o'clock. The entire session was consumed in the trial of Whitley vs. Bradley and Pettit. Battle & Son for plaintiffs and Busbee & Busbee for the defendants. Upon the conclusion of the testimony the Court adjourned until Monday at 10 a. m., when the case will be argued. The case is of considerable interest involving the proceeds of sale of a vessel attached at Washington, N. C.

THE NEW GAS COMPANY.—A visit yesterday to the new gas manufacturing establishment of Messrs. Brewster, Thiem & Co., satisfied us that the right men are at the helm of this important enterprise, and success must necessarily follow.

Fourteen hands are now employed in the manufacture of gas, and yet orders are on file in the office for seventy-two over the number now ready. The light and works are on exhibition at the stores of Messrs. Brewster, on Hargett street, and Thiem on Fayetteville, and at either place its operation, cost, &c., will be explained to all who may wish to see it. Towns, villages, schools, churches, factories, or even private country residences, can, in our opinion, save money by the use of this gas, which is equal to the coal or rosin gas made in any city. The proprietors claim for it a superiority over any other gas made, as there is no smoke from it. We shall take occasion to refer to this enterprise at another time.

SUPREME COURT.—Yesterday the Court met at the usual hour. All the Judges present except Judge Boyden, detained by sickness.

The following cases were argued: State vs. John Divine, New Hanover. Attorney General Hargrove for the State. No counsel for the defendant. State vs. William Linkham, Robeson. Attorney General for the State. No counsel for the defendant.

W. B. Wright and wife vs. Duncan McCormick, Cumberland; J. C. McRae for plaintiffs and B. T. C. Fuller and J. A. Guthrie for defendant. John Holmes, executor vs. Isham Godwin, of Cumberland; B. T. C. Fuller for plaintiff and W. A. Guthrie for defendants.

State vs. Gilbert Evans, Cumberland; Attorney General Hargrove for the State and J. W. Hinsdale for the defendant. The Court adjourned to meet Monday morning at 9 o'clock.

DR. NORTROP.—This eminent divine and zealous laborer in the cause of popular education, arrived in this city on yesterday evening, and, as previous ly announced, will occupy the Presbyterian pulpit this morning. We hope our citizens will bear in mind that he lectures at night in the Baptist Church, before a union of the various religious denominations of the city, on the "Religious bearings of Education," and on Monday evening in Metropolitan Hall, on "The Schools of Europe." These lectures will be highly entertaining and instructive, and we bespeak for him a large attendance from all classes of our citizens. When it is remembered that he visits us to promote the establishment of a first class public school in this city, we doubt not he will have the hearty co-operation of every person in our midst who have the best interests of the rising generation at heart.

"PROF." BLAIR.—This ubiquitous individual had Scott Brown, barber, assigned before the Mayor yesterday morning on the charge of robbery and assault. The charge of robbery was not sustained, but in fact ridiculous, as Blair was known to be in a state of utter imbecility. That Brown had "gone for him" was apparent from a cut on the forehead. No direct evidence as to the assault was produced, though the Mayor felt himself compelled to fine Brown \$5 and costs. Hon. Sion H. Rogers appeared for Brown and W. H. Pace, Esq., represented the "Professor." Scott Brown has always borne a good character and no one believes him to have been in fault in this instance. Blair has been published in a number of papers in this State as a swindler.

RETURN.—Our friend Thomas H. Purnell, Esq., returned to this city yesterday morning from Trinity College Commencement. Mr. Purnell delivered the annual address to the Alumni on Wednesday night, and we have heard his effort spoken of in the very highest terms as a most creditable and finished production.

We had the pleasure of seeing in our sanctum today or two since Capt. Jas. Barron Hope, the distinguished editor of the Norfolk Virginian, who was en route to Norfolk from Trinity. Capt. Hope delivered the literary address before the two Societies and an account of his speech will found elsewhere in our columns. We are pleased to learn that it will be published by request of the two Societies.

TRINITY COMMENCEMENT.—Last Tuesday evening we left Raleigh to attend the commencement exercises at Trinity College, and after a very pleasant journey, arrived on the grounds Wednesday morning just in time to hear the excellent annual sermon, preached by Rev. F. M. Kennedy, editor of the Southern Christian Advocate, Macon, Ga., from Ephesians VI: 14, "Stand therefore, having your loins girt about with truth, and having on the breast plate of righteousness. The summons is spoken of by all in the most commendable terms, as the best and most appropriate to the occasion I ever heard. But to give a correct idea of the exercises, we must go back a little.

On Sunday the 18th at 11 o'clock, A. M., the sermon before the Theological Society was preached by Rev. M. L. Wood, Presiding elder of the Salisbury District.

Monday evening, declamations by the Freshman Class, and Tuesday evening declamations by numbers of the Sophomore Class. Of these we cannot speak except from hearsay, and what we know is flattering to the young men and to the institution, but we prefer not to particularize.

Wednesday, at 2 1/2 o'clock, P. M., the literary address was delivered before the two Societies by J. Barron Hope, Esq., of Norfolk, Va., and it was a rare literary treat, one that should be heard or read to be appreciated. Rich in thought, beautiful in fact elegant in diction and sound in principle. We must confess our inability to give any idea of the pleasure with which we listened to the gifted author and orator. It was a comparison of the cold, austere and calculating material progress of the North and the social school of the South, and we are happy to learn it will be published by the Society whose privilege it was to select the speaker this year.

At 8 o'clock, p. m., the two Societies were represented by speakers from the Junior Class, N. W. Young, of Olin, Hesperian, and B. F. Long, of Graham, Columbian. Both speakers acquitted themselves well, and after them the address to the Alumni was by T. R. Purnell, Esq., of this city and State Librarian.

Thursday was commencement day proper, and in a very few minutes after the doors were opened, the Chapel was full, many finding it impossible to find seats. The gentlemen and urbane marshals and managers were very attentive, and every foot of space was made available with a quiet system and order that would reflect credit upon much older men. There was an absence of the rush and push usual in large assemblies. Without confusion, the visitors were arranged sitting or standing to the best advantage, and at the appointed hour the exercises of the day began with vocal music by the choir. Author exalt him all "ye people," followed by prayer by Rev. Dr. Closs. Then the following programme:

Latin Oration—Salutatory, by George B. Everett, of Everettville. Science Interpret Nature—By Lawson J. Steed, Scientific Department, of Trinity. Act Interpret Ideas—By Charles F. Emery, Yazoo City, Miss.

Honorary Oration, Fame Lives in Truth—By Shadrach Simpson, of Rockingham county. Legal Reform—By George I. Watson, of Jones county. The Mythic Symbolizes the Real—By Fumfield M. Simmons, of Jones county. The Cup of Socrates—By Theodore Winningham, of Herndon, Miss. Eureka—By John D. Hodges, of Davie county.

Scholarship upon the Destiny of America—By James A. Lockhart, of Anson county. Report of the President and Degrees conferred. Literary Societies represented—By N. C. English, Columbia, and E. A. Merriman, Hesperian.

Medals Presented—By Hon. W. M. Robbins. Bibles presented. Valedictory Addresses—By William H. Pegram, of Harnett County. Benediction. The speeches were all good and where there is so much excellence we prefer not to make any distinction. But we must say that the State has reason to be proud of such young men, and Trinity of her new Alumni.

At night the college was thrown open and a large company of ladies and gentlemen thronged the halls, while the Salisbury Brass Band discoursed sweet music. We do not know it, but we thought there was a little love whispering going on, and we were forcibly reminded of the time when we were younger than we now are. Everything passed off satisfactorily, and we heard good but expressions of having had a "good time."

The new Chapel is being pushed forward and Dr. Craven thinks the next Commencement can be held in it, if no unforeseen difficulty arises to impede the work.

CAPT. BRAIN'S LECTURE.—The price of admission to hear this distinguished ex-Confederate Naval officer will be fifty cents. Twenty-five for gallery. No extra charge for reserved seats. Tickets can be had at Bransons Book store.

TRIP TO MONTREAL.—M. V.B. Gilbert, Esq., who represented the Typographical Union of this city at the recent session of the International Typographical Union at Montreal, furnishes us with the following sketch of his trip: "Leaving Raleigh on the 28th of May, a pleasant ride took the writer to Portsmouth, where he stepped aboard the steamer for Baltimore. The Louisiana is a fine steamer and the tables are supplied with food fit for the gods. The pleasant chat and the conversation of more depth is listened to until the time for retiring comes.

The Monumental City is reached, but the stay here is short, and soon the train is at Philadelphia. The old State-house was visited. The bell which was rung on a certain memorable occasion was closely inspected. Mr. Menamin and his gentlemanly salesmen were very kind, likewise others of the craft.

The steamer "City of New York" makes the run from the metropolis after which she was named to New London, Conn., during the night, and here the cars of the Vermont Central are taken. The scenery of Vermont is grand. Pretty towns sleep in valleys; backgrounds of mountains make tall spires appear low, and the good-sized building not much larger than the martin's home. Refreshments are taken at St. Albans, industrious New England girls the gany-me.

The border is reached, and the customs officer performs his delicate duty of "going through" your baggage. The lady's answer, that she has nothing subject to duty, will save her trunk from an overhauling.

Montreal is a beautiful city, of about 100,000 inhabitants, with 10,000 excess of females. There are church accommodations for 60,000, and more churches erecting. Cathedral Notre Dame is a fine edifice, while the beauty of some of the Jesuit churches cannot be told. All the Protestant denominations have their houses of worship as well. There is a monument, surmounted by a statue of Nelson, commemorative of the victories achieved by the great Admiral—the defeat of the Danish fleet moored for the defence of Copenhagen, and other triumphs of British arms, closing with that of Trafalgar, where Death demanded a victory, and took the gallant Lord. A statue of Victoria stands in a public square bearing the name of the Queen. There is considerable trade with the States, while the wharves are lined with foreign shipping. Manufacturing is carried on to a great extent, thereby giving employment to large numbers of girls. The stores and residences, like the churches, are handsome and costly. The ladies generally are good looking—some beautiful; all present a healthy appearance, owing to the cold and bracing climate, the winter lasting six months. Victoria Bridge, one and a quarter miles in length, is one of the attractions of the city. Large steamers pass under this great work, which makes an unbroken line of rail for many hundreds of miles.

The capital of the Dominion is Ottawa. The people have protection at but little cost; they are sovereign to a great extent, the Governor-General having but little to recommend to Parliament. The government is a mixture of forms, a little of the republic and a little of the monarchy. When one is appointed to office he must go before his people and stand the chances of an election. If not confirmed by the electors the appointment is void. There are qualifications for electors—to be assessed for \$200 to vote at some elections; \$300 at others.

The International Typographical Union held its Convention on the 2d of June. The craft of the city paid every attention to the delegates. Excursions and drives afforded all fine opportunity for viewing the beautiful scenery round.

Returning, the fine towns of Norwich and New London, in Connecticut, were visited, the printers of the former doing too much for their brethren. Of New York, nothing need be said—justice could not be done. The kindness of the printers, the visit to Central Park, the excursion, &c., will long be remembered.

OUR CHURCHES TO-DAY.—Divine services will be held at the following Churches to-day, (Sunday) Strangers and others in the city are earnestly and cordially invited to attend. Gentlemen ushers will be present to conduct visitors to pews which are always free.

Loc.—Special attention is directed to the advertisement of Capt. John C. Brain, in another column, in regard to the establishment in this city of an Ice Company, for the manufacture of the pure article. By the establishment of this Company, ice can be delivered in the city at 1 cent per pound at a splendid profit to the Company. Captain Brain can be seen for a few days at the Yarrowburgh House.

MIDNIGHT DISPATCHES.

Gen. Sherman Interviewed on the Modoc Question—He sayeth a Piece. NEW YORK, June 14.—General Sherman had a conversation with a reporter last evening and is made to say of Gen. Davis, concerning his indictment of Captain Jack, and his preparations for hanging him and some of his associates. If the statement is correct there is no doubt that General Davis would have exceeded his duty and he would have been responsible for his acts. He should be guided by military rules and the law. We all know they are murderers—the President himself says they are murderers; and had General Davis shot them while they were being pursued I do not think he would have exceeded his duty. But he did not do this, and could not afterwards shoot them in cold blood. Gen. Davis' report is said may differ from that published in the papers. Davis is too experienced an officer to do anything that would bring odium upon the army or lay himself open to military court-martial for exceeding his duty as an officer. The General thinks there will be no difficulty about disposing of the Modocs under arrest, those found guilty of murder will be hanged or shot, and it is proved there was an agreement for a general uprising among the tribes, others will receive some punishment as a warning to the Indians. He remarked, however, that it was a pity that the guilty Modocs were not shot at first, then this Commission business and expense would have been avoided. As to the killing already of the few prisoners, Gen. Sherman says, those who committed the deed are low blackguards and murderers, who had nothing whatever to do with the army.

Modoc News.

SAN FRANCISCO, June 15.—Photographs have been taken of Capt. Jack and the whole of his band of warriors. Gen. Davis has sent a party of men to hunt for and arrest persons guilty of the massacre of the Modoc prisoners.

Indian News.

SAN ANTONIO, June 14.—Messrs. Atkinson and Williams, Special Indian Commissioners to Mexico, arrived last night, accompanied by Senor Montino, the Mexican commissioner and Chignaw Koko, head chief of the Kickapoo. They report the Indian tribes in Mexico willing to go on the reservation in the United States, provided their women and children captured by General McKensie, now imprisoned, are returned to them in Mexico. The Mexican authorities have agreed to fulfill the promise, should they endeavor to not comply after the return of the captives; also all intelligent Mexicans think it will be the best way to rid the frontiers of their Indians. Messrs. Atkinson and Williams had several long conferences with the most influential Chiefs of the Kickapoo, Lepas and Mess Callars, resulting as above given. They visited Gov. Céspedes of Coahuila, who received them kindly, and appointed a commission to co-operate with them, affecting the removal. They also visited Gov. Gonzalez, of Nueva Leon, who warmly co-operated with them.

A Wholesale Murder Frustrated.

NASHUA, N. H., June 14.—At Hudson, N. H., Henry Jewett, 35 years of age, has been endeavoring to force his suit with Miss Ella Wood, a daughter of Charles Wood, Esq. Miss Wood rejected his offer of marriage and her parents also opposed it. This morning Jewett visited Miss Wood and pulled from his pocket a six-shooter, aimed at her head and fired, the ball entering her forehead just above the eye and lodged under the skin. Miss Wood fell upon the floor but not insensible, and it is hoped that the wound is not mortal. Jewett then passed from the house to the yard where he met Mr. Wood and endeavored to assassinate him. Mr. Wood caught the errand man by the throat and warded off the aim of the pistol, and so fortunately escaped. Jewett then put his pistol to his own ear and discharged it, the ball entering his head and causing a wound that must prove fatal. The indications are that it was Jewett's intention to murder the whole family.

The trades people and inhabitants generally are greatly discouraged at the absence of strangers, and the prices of living, which have hitherto attracted persons from visiting the city, have been reduced.
