> SAW MILLS. CAREY, N. C., June 16th, 1873. W. C. Morgan, General Agent, Raleigh N. C :

DEAR SIR:—The machinery purchased from you gives entire satisfaction. The Shingle Machine will cut from 10,000 to 12,000 per day. The work is well and accurately done. The Saw Mill is cutting lumber finely; the largest day's work I have done with it was 17,375 feet. I have been in the lumber onsiness for twenty years. The Blandy Engine of 25 horse power will do about double the work that I have ever had one to do of same estimated horse power.

If machinery is needed in this neighborhood you will have no difficulity in selling. My mill is very much admired.
