There have been some 30 couverts at this church

We call attention to the sale to-day at the court house door of the value person so offending against the pro-ble lot in this city at the corner of visions of this Act, shall be deemed Davie and Person streets. This loty guilty of a misdemeanor, and upon is sold under decree of Wake Superior Court, and will be divided into several lots. Any person desiring a fine building lot will find it to his

advantage to attend this sale. Len. H. Adams, Esq., has broken ground for the erection of a doublestore building on the corner of Martin and Wilmington streets. The many improvements now going up in our midst cannot fail to strike the eye of those visiting the city and tend to nerve our citizens to push the general business of the city with even more vigor than heretofore,

Subscribers finding this notice marked are apprised that their term of subscription will expire within two weeks. All renewals must be prompt. "

AN IMPORTANT LAW CONCERNING BANKS, RAILROADS AND ALL TRANSPORTATION COMPANIES.-The following important law, forming a part of the Machinery Act, adopted by the late Generalal Assembly, has been furnished us officially by the State Treasurer for publication. It effects bank stocks, railroads, turnpikes, plank roads, and all transportation companies, and it will be seen that returns have to be made to the Treasurer by the 3rd Monday of the present month. Section 11 of the Machine act reads:

The cashier of each bank or banking association (whether State or Nationalal) in this State shall give in to the board of assessors for the township in which such bank or banking association is situated, all shares of stock composing their corporation, as agent for and in the name of the owners of said shares of stock, who may be non-residents of this State, and the deposits of all non-residents. The value of the franchise of every railroad, canal, turnpike, plank road and transportation company, whether lying wholly or partly in this State, unless exempt by law from taxation, shall be given in by the president or other chief officer of the said several corporations on the day fixed by this act for the giving in of the taxable property to the Treasurer of the State, and shall be assessed by the Treasurer, the Auditor and the Governor of the State on the third Monday in April each year, and their valuation shall be returned to the county commissioners of any county in which any portion of said road, canal, or navigation work shall be, and the tax upon such franchise so valued shall be the same as upon property of equal value, and the tax collected in each county and township shall be in proportion to the length of such road, canal or works lying in such county or township respectively; and such taxes shall be collected as and when other taxes are required by law to be colleeted. The president or other chief officer of every railroad shall, in his returns, state the whole length of said road, with what kind of iron laid

and weight of same per yard, and Ed. Thomason, auctioneer, will estimated valuation of shall include road-bed, whether on wood. Judge Watts overruled the land or artificial foundation, rails, spikes, frogs, switches, bridges, &c.

Buildings owned by or in possession of such company, including sta-The Auditor during the next week | tion, section and warehouses, giving Shops, including all machinery,

materials, supplies or other species

of property connected therewith. Engines, stating number. Passenger, box, dump, tlat and other cars, stating number of each

All other property of such railroad company, except real estate given in in the county where situated.

The president or chief officer of every canal or navigation company shall return the length of such canal or work, with a statement of its cost and estimated value of Canal or other work.

All boats and dredges belonging to the company. All other property, stating kind and value. The president or other chief officer of every plank road and turnpike company shall give in the length of work and estimated value of the

same, including all houses, bridges and other property of the company, not otherwise returned. In fixing the valuation on any property, the assessors shall regard the list returned as pruna facie evidence of the value thereof, but such assessors may, selves of other additional evidence, under oath, as to the completeness of the list and the affixed valuations, but in no care shall it be reduced below the sum stated in the list, nor shall any railroad be valued at less than eight thousand dollars per mile, and any county dissatisfied with a valuation of the board of assessors may demand through their commissioners a re-hearing, whereupon the matter shall be re-examined and all parties interested shall be cited and heard by the board with their witnesses, except the franchise of the Albemarle and Chesapeake Canal Company, which shall be assessed by a board of five persons to be appointed by the County Commissioners of Currituck county, at their meeting in April, one thousand eight handred and seventy-five, and annually thereafter. In case any officer fails to return the property as provided in this section, the board of assessors shall ascertain the length of such property in this State, and shall assess the

same in proportion to length' at the highest rate at which property of that kind is assessed by them. THE BIRD LAW CONCERNING CER-TAIN COUNTIES. - The following is

the law adopted at the recent session of the General Assembly concerning certain counties: Section 1. That it shall be unlawful to kill or shoot, trap or net any partridges, qualls, doves, robins, larks, mocking birds or wild turkeys in the counties named between the first day of April and the first day of October in each and every year, and any person so offending shall be guilty of a misdemeanor, and on conviction thereof shall be

fined not exceeding ten dollars for each and every offense. Sec. 2. That it shall be unlawful for any person to take by net, traps or kill with gun any birds mentioned in section one of this act on the lands of any person living within the boundaries of the following named coun-Rowan, Anson, Warren, Guilford Rockingham, Orange, Caswell, Mecklenburg and Edgecombe counties, without permission from the owner or his agent of said lands, and any conviction thereof, shall be fined ten dollars for each and every offense.

DELEGATES TO THE DIOCESAN Convention.—The Vestry of Christ Church, in this city, have elected the following gentlemen as delegates to the Diocesan Convention which will assemble in Newbern on the third Monday in May: Messrs. Wm. H. Battle, S. A. Ashe, J. C. Winder and K. P. Battle; with the following alternates : Dr. T. D. Martin, Messrs. C. E. Johnston, Jr., R. S. Tucker and R. H. Jones.

MR. F. H. BUSBEE'S LECTURE AT MEBANEVILLE .- A valued correspondent at Mebaneville sends us the following:

Busbee, Esq., of Raleigh, delivered dance is earnestly desired. his lecture on the "Immortality of Joseph A. Engeld Force," before the Cadets of the Bingham School. It was, of course, a strictly scientific lecture, leurned, profound and obstruse; and yet the lecturer's style was so perspicuous, his illustrations so appropriate and striking, his delivery so pleasing and his acquaintance with his subject so full, that the maturer minds in the audience grasped the ideas, grand and vast as they were, and even the youngest cadet present had many new.ideas presented to and indelibly impressed upon his mind. No synopsis of the lecture is possible here;

suffice it to say that the impression

made was great. Besides the actual facts presented and the information given, the lecturer here and there very happily and appropriately introduced paragraphs of chaste beauty and eloquence, which pleased the audience no less than information given. It is a hopeful sign for the future of our State that a cultured young man like Mr. Busbee should take time in the midst of his professional labors to devote some of his laisure moments to the scientific questions of the day, in which the public, and especially our North Carolina public, is too little interested; and it is a good sign too that the young men at our schools have opportunities given them to acquire information on these important issues, and it is due to the Bingham School to say that it has taken the lead in the matter of using the public lecture as a means of culture.

WAKE SUPERIOR COURT-A FIELD DAY .- Judge Watts yesterday heard the case of the State vs. Sirree Haywood, indicted for playing at the wheel of fortune, the defendant having made a motion to duash the indictment upon the ground that the Grand Jury of the last term of the Court was improperly drawn because of some Townships being left out. The defence was represented by Messrs. T. C. Fuller, R. H. Battle and others, and the State by Messrs. E. G. Haywood, A. W. Tourgee and Solicitor Harriss. This was considered a test case for a large number of others, and it was ably argued by Messrs. Road-bed superstructure, which Fuller, Battle, Tourgee and Haymotion to quash the indictment. holding that the Grand Jury was a valid oue. The defendant will ap-

peal from this decision. To-day a case somewhat similar. but involving a different point, will be considered. It will be upon a motion to quash the poll-tax indictments, some 2,600 in number, upon the ground that the witnesses before the Grand Jury were not sworn according to law, two witnesses giving evidence in more than 2,000 cases when they had only been sworn once in open court; and also upon the ground that the recent act of the General Assembly divests the Superior Court of its jurisdiction in the

MISS DICKINSON .- We regret that Miss Dickinson was physically unable to deliver her promised second lecture last night. A large number of perple gathered about Tucker Hall eager to gain admission, but Miss Dickinson had unfortunately contracted a cold, and was considerably fatigued from her long journey comprising, as it has, constant daily travel for the past few weeks. Her agent arranged for this second lecture without consulting her, and did so at the earnest solicitation of many citizens. Miss Dickinson would have been pleased to gratify the full house that would surely have greeted her save for the unavoidable reasons al-

ready stated. We are pleased to learn, however, that she will give another lecture here upon her return from her South-

ern tour. We are glad to learn that Miss Dickinson has formed a most favorable opinion of the South and of our people, and we feel certain that she will return to her Northern home entertaining different views of the Southern people than those which she finds so prevalent in the North.

THE PETERSBURG AND RICH-MOND TOBACCO MARKETS.-The Petersburg tobacco market has improved during the present week and offerings have been more liberal. Shipping leaf and lugs have brought full prices and been eagerly sought after. The Daily News of Friday

quotes: Primines. New leaf, good to prime......12 00@16 50 Shipping leaf "fine" Shipping leaf "medium"

. 0 00mm 14 00 The Richmond tobacco market has been steady but dull during the week. The Enquirer of Friday makes the following quotations: Black lugs, common to extra, \$6a9]; black leaf common to fine stemming, \$9,17 bright lugs, common to good, \$9a20 fine and extra smoking, \$221a40 bright leaf, common to fine, \$10a16 extra fillers, \$17a20; bright wrappers, common, \$18a25; medium to good, \$27\a40, fine, \$45a75, extra, \$80a100.

FOR CROUP. - Spirits of turpentine is said to be a sovereign remedy for croup. Saturate a piece of Hannel with it and place it on the throat and chest, and send for your family physician. If the case be very urgent, and the child in great distress, and the distance to the doctor's residence be very great, drop three drops of turpentine on a lump of sugar and give internally. Or a good emetic of tincture of blood root or lobelia, or both combined, should be given Every family should keep a bettle of spirits turpentine in the house.

PERSONAL.-Miss Anna E. Dickinson is the guest of the Yarborough House. She gives her beautiful historical representation of "Joan of Arc" at Charlotte, next Monday

We can safely say to the people of the South that no lady has visited this section more entitled to a liberal and respectful hearing than Miss Anna E. Dickinson. Mape's fertilizers, sold by A. C.

ated Soluable Phosphate has been

To THE PRESS .- The Third Annual Session of the North Carolina Press Association will assemble in the City of Wilmington, on Tuesday, the On Friday night, April 2nd, F. H. 11th day of May, 1875. A full atten-JOSEPH A. ENGELHARD,

> Secretary. will please notice.

> TER.—In consequence of the change of the Wards of the city by the new charter, an entirely new registration is required. Let every Conservative in the city be certain that he is registered by the 23rd inst.

Judge Watts contends that he did not, in his speech at Metropolitan Hall, argue against the restrictions imposed upon the Convention, but that he wanted to be convinced of the power of the Legislature to restrict that body. What matters it, Judge? The Convention will be composed of honest men who will respect the wishes of the people of the State, not of such riff-raff as inaugurated the miserable Canby Constitution with which we are cursed.

Whann's Raw Bone Superphosphate has been used successfully by many of the best farmers in all 'sections of the country. Read the advertisement in another column.

missioner for New York State, delivered a lecture at the Cooper Institute, recently, on "Pisciculture,"

which he concluded as follows: "Not only can fish be raised as easily as vegetables are raised, but with productiveness ten-fold greater. The waters will yet teem with them, and our rivers and lakes will be cultivated precisely as the land is cultivated, till they shall support, acre for acie, as many human beings Nor is this all, but the acclimatization has done much for the tillage of the earth : it is destined to do much for the tillage of the sea. New breeds of animals have been introduced into countries to whose climate they were specially adapted; care in breeding has raised others to higher development while vegetables and grasses have been cultivated scientifically and brought into new areas where they flourish with increased luxuriance. The same will be done with fish. Shad will be taken to the Pacific, salmon will be brought to our own doors, the great trout of Maine, weighing ten pounds apiece, will replace the fingerlings of our brooks, and bass will abound in every bay, lagoon or inlet of our salt water. The entire science has been left for our day and generation when the thorough exploration of the world and the rapid increase of population make it necessary. We have only to do our duty in order to secure for

"Among the benefactors of the human race is classed one who makes two blades of grass grow where only one grew before. Much more praise is due to him who teaches us to cultivate what has heretofore been left waste and barren, and converts it into fields of fruitfulness and abundance. But fish culture is not wholly a question of benefaction or benevolence, it is a business interest, largely public perhaps, and teaching man a more brotherly feeling of mutual dependence and a wiser use of the common heritage, but also private as far as the proceeds of the art can be kept as individual property. As a public possession, owned by the entire community, and yielding more or less of benefit to every member of society, it deserves the most liberal consideration. 'The poor ye have always with you.' That poor may be fed and rendered comfortable and happy by simply turning to best account what has been heretofore neglected. All that is needed to bring this about is a general knowledge among the peo-

ture. weeks carlier than the old kinks.
