**THE WEEKLY NEWS FURNISHED ONE YEAR, POSTAGE PAID, FOR \$1.00; SIX MONTHS, 75 CENTS.**

**Post-Office Directory.**

For the benefit of the Public, we publish the following Directory of the Post-office of this city:

Western Mail is closed at	7 P. M.
delivered at	8 1/2 A. M.
Kempers " "	delivered at 8 1/2 A. M.
Northern " "	delivered at 8 1/2 A. M.

Office hours for delivering of mails from 8 30 a. m. to 9 30 p. m.

Money orders are issued and paid from 8 15 a. m. to 6 30 p. m.

Letters may be registered from 7 15 a. m. to 6 30 p. m.

No mails sent or received on Sundays, except on the following occasions:

W. W. HOOD, Postmaster.

Corn was quoted in Newbern on Wednesday at 74 @ 75 cents.

A male has strayed from Moses Moore, near Whitakers mills, Nash county. See notice.

Persons attending the annual commencement of Trinity College will see the advertisement elsewhere of Will G. Burkhead, Esq.

We invite attention to the statement of the financial condition of the Dawson National Bank, of Wilmington, N. C.

We publish this morning the statement of the financial condition of the Queen (U. S. Branch) of the Fire Insurance Company of Liverpool, represented in this State by Jno. Wilder Atkinson, Esq.

**LET THE AUTHORITIES LOOK TO IT.**—Our authorities cannot exercise too much caution at this season of the year in having all rear lots thoroughly cleaned. The health of the city demands that this matter should receive every needed attention.

Thanks are tendered to Mr. Boshor of the Prairie saloon for the fragrant and freezing mint juleps which through his care diffused their grateful aroma through our sanctum yesterday afternoon. Neal Dow himself would have taken off his hat to them.

**TO OUR STATE EXCHANGES.**—Those of our State exchanges who propose publishing the address of the Central Democratic Executive Committee will use the address as published by us this morning, some few changes having been made in its verbiage since its publication yesterday.

**CROP PROSPECTS IN STANTLY.**—A gentleman writing us from Stantly County says: "The crops are looking very indifferent in this country. There is not a stand of cotton. Corn is looking very indifferent. The wheat crop has improved very much for the last few days, and, if nothing happens to it, will probably make an average crop."

**TO ARRIVE THIS MORNING.**—Mr. Jesse Bingham, one of the Raleigh Artillerymen recently wounded in Charlotte by the premature discharge of a gun, will arrive in this city this morning by the Charlotte train. Both the Artillery and Infantry companies will meet him at the depot in full uniform. His friends will greet his return with much pleasure.

**GRATIFYING.**—The increase to the subscription lists of both the Daily and the Weekly is a source of much satisfaction to us. We are daily receiving encouraging letters from every section of the State ordering the paper. We shall continue to strive to furnish the public with a newspaper in its every sense, while we shall keep our guide the great principles of the party to which we belong and the best interests of our State.

**MEETING OF THE GRAND CHAPTER.**—The Grand Chapter of the Royal Arch Masons of North Carolina will convene at Masonic Hall, in this city, on Monday evening next at 8 o'clock. A large attendance is expected. Delegates will be entertained by the Royal Arch Chapter of this city. They will report to His Honor Mayor Separk, Jno. Nichols and D. W. Bain, Committee on Hospitality.

**THANKS.**—The Fayetteville Gazette has this to say of Capt. E. C. Woodson and the NEWS: "Mr. E. C. Woodson, city editor of the Raleigh News, has been in our town during the past few days, enquiring in behalf of his paper. We hope he has met with abundant success for he represents an admirable journal which well deserves patronage. In point of fact, the Gazette is the best secular weekly paper in the State or in the South, and, as an able, valuable daily, we can heartily recommend the Raleigh News."

**THE CHANGE OF GAUGE.**—It is understood that President Buford will at once change the gauge of the N. C. R. R. to Company Shops and possibly to Goldsboro. The Greensboro Patriot says of it: "Preparation is being made to at once change the gauge from here to the Shops. A large number of hands are now in town for that purpose. This is done on the strength of the recent decision of Judge Schenck, which will probably end the litigation in the matter unless the Governor brings it before the Supreme Court, which is not likely."

We understand the Governor will carry the matter to the Supreme Court, which movement will fully test the constitutionality of the act of the last Legislature.

**GOV. VANCE TO LECTURE IN RALEIGH.**—We are pleased to learn that Gov. Vance has consented to deliver his famous Lecture, "The Scattered Nation," in this city some time during the sessions of the Federal Court to commence next week, for the benefit of Messrs. Williams and Bingham, the members of the Raleigh Artillery recently disabled in Charlotte. Aside from the object for which the Lecture is to be delivered, the Governor can rest assured that Raleigh will give him a rousing greeting. We have heard "The Scattered Nation" as rendered by him, and can promise a treat to all who may be so fortunate as to attend.

Turtle soup at Pepper's saloon today. Families wanting it should order it early in the day.

Business extremely quiet in the city at present. This is the best evidence that the farming community is busy at work.

Jos. Blount Cheshire, Jr., of Tarboro, has been appointed a Notary Public for Edgecombe county, by Gov. Brogden.

Dr. W. J. Palmer, Principal of the Ontario Institution for the Deaf and Dumb at Belleville, Ontario, Canada, arrived in this city yesterday afternoon. He was greeted by his friends here and will remain in the State for a week or two.

We learn that the crop prospects in this vicinity are extremely good. The cotton crop especially presents an extremely prosperous appearance for this season. Considering the unfavorable weather in the early portion of the Spring, this fact is peculiarly gratifying.

**THE BLUE AND THE GREY.**—The Norfolk Landmark, referring to our article of Tuesday morning describing and commemorating of the Blue and the Grey in the decoration of the Federal graves in this city on Monday, says:

"The temper of the remarks made by our contemporary is a fair reflection of the temper of the South, and no State among the members of the late Confederacy has a better right to speak on this subject than Carolina. Southern Independence as many troops, in proportion to population, any other member of the Southern Confederation. It is claimed, indeed, that since the war, her troops were in every great battle-field from Bethel to Bentonville—from first to last—the graves of her sons are in blood and in valor to the 'Lost Cause' are unsurpassed. With this record in our war between the States, this action of North Carolina, through the citizen-soldiers of her State capital, is not only of the highest importance, and it is in this latter aspect that we present it to the people of the whole country as worthy their sympathetic consideration."

**TRUSTEES OF THE UNIVERSITY.**—Under the approaching revival of the University many of our readers will be interested in knowing who compose a Board which has again become an important body. Below will be found a list certified to by the Clerk of the Board:

- D. M. Carter, Beaufort, since resigned.
- Mills E. Gair, Gates.
- W. F. Martin, Pasquotank.
- W. B. Shaw, Currituck.
- Louis Hilliard, Pitt.
- J. A. Moore, Washington.
- C. B. Hassell, Martin.
- Duncan C. Winston, Bertie.
- Wm H Johnston, Edgecombe.
- John E. Dugger, Warren.
- W. T. Faircloth, Wayne.
- deeds, Wake.
- Wm H Dale, Halifax.
- J. D. B. Hooper, Wilson.
- Robert B. Peebles, Northampton.
- R. N. Hardy, Greene.
- Edmund Moore, Columbus.
- W. L. Sanders, New Hanover.
- R. W. Nixon, Onslow.
- B. F. Grady, Sampson.
- Neill McKay, Harnett.
- John S. Kerr, Onslow.
- P. H. McDowell, Bladen.
- R. W. Millard, Duplin.
- J. H. Thorpe, Nash.
- J. S. Ains, Granville.
- Paul C. Cameron, Orange.
- J. F. Moore, Wayne, in place of C. B. Sanders, deceased.
- John Manning, Chatham.
- Kemp P. Battle, Wake.
- Joseph J. Davis, Franklin.
- Wm A. Graham, Orange.
- H. Clay Thomas, Davidson.
- Rufus Frazer, Randolph.
- M. S. Robbins, Randolph.
- J. A. Gilmer, Guilford.
- John Kerr, Caswell.
- D. L. Dufournoy, Davidson.
- David S. Reid, Rockingham.
- James A. Graham, Alamance.
- Archibald Parrish, Robeson.
- James R. Moore, Wayne.
- Wm H. Steele, Richmond.
- Sher H. Walkup, Union.
- Z. B. Vance, Mecklenburg.
- John F. Hoke, Lincoln.
- Paul B. Ewing, Montgomery.
- Wm W. H. Hoke, Edgecombe.
- R. L. Patterson, Forsythe.
- J. F. Graves, Surry.
- Joseph Williams, Yadkin.
- W. K. G. Gibbons, Rowan.
- George B. Wetmore, Rowan.
- E. Payne Davis, Iredell.
- C. Cook, Wilkes.
- G. H. Hamilton, Ashe.
- D. Coleman, Buncombe.
- H. M. Colman, Burke.
- S. Med Tea, Madison.
- W. L. Twitty, Rutherford.
- J. D. Hyman, Henderson.
- E. W. Jones, Caldwell.
- W. C. Rowman Mitchell.
- J. O. Hicks, Clay.

**Shooting Affair in Virginia.**

A letter from New Market, Va., under date of 27th instant, says: "Greenwood Moore was shot at a non-party meeting on a few days ago, following circumstances: Derrough has been for some time suspecting that an improper influence was being introduced into the Morris and his wife. To satisfy himself he has been on the spot for some time past. The day of the shooting he and his wife's brother started on their way to attend to the shooting at his house, and soon their watch was rewarded by the appearance of Morris, who by his actions, evidently was expecting to meet some one. As they were walking through the woods, and the shot-gun, which was loaded with a single bullet, and three balls, the lead shattered the victim's left arm very badly, and one of the balls passed through his bowels. Morris attempted to escape, when Derrough ran after him, shooting four times at him with a revolver. It is thought that Morris, who is a young man of respectable connections, cannot recover. He is now lying in bed, and the rough is yet at large. The authorities are using every effort to capture him."

**THE LYNCHBURG NEWS SAYS:** We regret to learn that in the counties of Campbell, Appomattox and Pittsylvania, and perhaps in other portions of the wheat and the oat crops are in very bad condition and cannot possibly make anything like an average crop, probably not more than half the average. We also learn that the chances for a tobacco crop is good, notwithstanding the fears in regard to a scarcity of plants, which have proved to be plentiful in most localities. The corn crop is also represented as being in good condition.

"My son," said a father to his little boy at the breakfast table, "if you had the choice to be married at any time, how would you like to have your head chopped off like King Charles the First, which would you choose?" "John Rogers," said the boy, "I should prefer a hot steak to a cold chop."

"When the Opposition press speaks of President Grant as an intriguer the majority of those who know anything of his character are inclined to smile. So says the Washington Republican, Grant's kitchen organ."

**CHANGE OF SCHEDULE.**—On and after Sunday, June 6th, the mail train going East will leave Raleigh at 9 a. m. and going West at 7:20 p. m.

**The Georgia Centennial Commissioners.**

A short time ago we published a letter written by Gov. Smith, of Georgia, to Secretary Fish, in reference to the requirement that the Centennial Commissioners should take the Iron Oath. In publishing the letter, we stated that Secretary Fish, perceiving the error in the commission and on a subsequent day, wrote him, correcting the same. As a number of our readers have expressed their desire to read the letter of the Secretary, we give it as follows:

**DEPARTMENT OF STATE,**  
WASHINGTON, D. C.,  
March 28, 1875.

To His Excellency James I. Smith, Governor of Georgia: Sir, I have the honor to acknowledge the receipt of your Excellency's letter of the 18th of March, informing me that, in consequence of a request contained in my letter of the 8th, transmitting the commission and on a subsequent day, wrote him, correcting the same. As a number of our readers have expressed their desire to read the letter of the Secretary, we give it as follows:

The following is given as the costume of a fashionable lady in 1709, very last ship from a port of Baltimore, England, to His Majesty's plantations in North America: "A black silk petticoat, with a red and white calico border; cherry-colored stays, trimmed with blue and silver; a red and dove-colored damask gown, flowered with large trees; a yellow satin apron, trimmed with white Persian; muslin head-cloths, with craw-foot edging; a black silk fur below scarf and spotted hood."

The ingenious French have contrived a novel way to impress the barbaric mind. M. de Brazza, who has charge of the expedition to Senegal, carries an electric battery in his pocket communicating with two wires on his hand and with other apparatus scattered about his person. When he shakes hands with a savage chief that chief will be very much astonished, for an electric spark will run up his arm and he will see lightning playing about the head of his superior. Naturally the savage, who is being interviewed by the devil, and will be ready to consent to anything in order to get away.

Several heads of mummies were shipped from Egypt to Halifax, England. They were packed in separate boxes, and one of them got soaked in salt water on the voyage. One of the heads had been taken out was found to have recovered its natural outline, the sea water having had an astonishing effect. M. D. Conroy, who was present, says: "For a few minutes, the face of the mummy looked like the face of a young Egyptian youth, with a pleasant composed expression—the face of a man who lived at least three thousand years ago. We could not conclude that it had been used and arrested the decay which the salt water had now rendered possible, and which speedily set in after the head was dried. The mummy, which was taken from the salt water, was found to be remarkably fresh, with a pleasant composed expression—the face of a man who lived at least three thousand years ago. We could not conclude that it had been used and arrested the decay which the salt water had now rendered possible, and which speedily set in after the head was dried.
