Notwithstanding the strong competition in our market for the past few years in the fertilizer trade, the success and popularity of the Star | that place, which, when completed are unprecedent, and the sales quite

THE REMOVAL OF STUMPS .- A single fact given by General Colquitt, of Georgia, in his speech Saturday last, will be of practical benefit to the farmers of any section. He said that. to remove stumps from a field, all that is necessary is to have one or more sheet-iron chimneys, some four or five feet high. Set fire to the stump and place the chimney over it, so as to give the requisite draft at the bottom It will draw like a stove. The stump will soon be consumed. With several such chimneys, of different sizes, the removal of stumps may be accomplished at merely nominal labor and expense.

THE PIEDMONT SECTION,-The news from this section of the State is of the most cheering characters our friends have the strongest hopes of making gains in several counties, We take the following extracts from a private letter dated Winston the

"We are still in the State and are still making it lively for the Rads, with the fairest prospect in the world to elect our candidate in Fersythe. Col. Joseph Masten. Wheeler took the position at three or four precincts in the county to abolish pell tax, but now that he finds that the Republiposition. A large number of affidavits however, from some of the most respectable men in the county, have been obtained and pub-

lished convicting him of falsehood. "Judge Russell passed through here on Sunday on his return from Yadkin county. He says W. B. Glenn is one of the most impudent fellows he ever met on the stump. They say that Glenn completely demolished him over there and made him retire from the county before he had filled all of his appointments.

" What John Page, of Chowan, said about "giving the white men h-I" should the Radicals get control of the Convention is disgusting the honest white men of this section, as it shows what would really be done if the white people of the State let this elec-

tion go by default. "We think, with present prospects, we can rely on defeating Wheeler for once since the war."

An Editor Attacked by a Radical Convention Candidate-He Shoots Him in the Head.

[SPECIAL DISPATCH TO NEWS.]

TARBORO, N. C., July 30. A. McCabe, Esq., an ex Federal fficial, member of the State Senate in 1872 '73, and at present Radical candidate for Convention from Edgecombe, took offense at some strictures in the Southerner of this place of to-day, and attacked Walter P. Williamson, Editor of the Southerner, to-night about 8 o'clock when the latter fired upon him, the ball taking effect in the head below the right eye.

THE WORK OF OUR STREET COM MISSIONERS. - Commissioner Audrews, under the supervision of the Street Committee from the Board of Aldermen, Messrs, J. C. R. Little, R. H. Jones and Jack Hamill and Stewart Ellison and Jones, col., has been busily at work since his induction into office on the 5th of May last. Within the three months that the thoroughfares of this city have been under the management of this Street Committee much decided improvement has been effected, and we are glad to see it is of that character which guarantees a permanency. The city has effected an arrangement by which as much rock as may be needed for any purpose can be obtained from the State quarry, just east of the city, and severat carts are kept busy hauling this rock, which in many cases is broken up and strewn upon our streets with a view of making a permanent rock bed. Cabarrus street, from the Central Depot to Fayetteville street, is being thus bedded, as this is one of the principal thoroughfares and in the winter time often becomes quite bad, and it is intended to continue this work up Fayetteville from Cabarrus and the streets in and around the Cotton Exchange, and wherever else it may be immediately needed. This will be found of great service during the winter season, and we hope the day is not distant when every inch of the 68 miles of streets in Raleigh will be thus partially ma-

At numberless intersections of streets and other places stone gutters have been substituted for wooden ones, and a ride through the city developed but few places where work had not been done.

But the principal work, and what

s at present costing the city heavily. is the fixing of the ugly place at the intersection of Lenoir and Blount streets, which had been commenced by Commissioner Backalan, and which was absolutely necessary to make those streets at all passable; the culverting of the branch at the intersections of West and Johnston streets and the filling up of these streets at will be of great advantage to that doubled those of any other during | portion of the city; the completion of the heavy culvert at the intersection of Martin and Harrington streets, and the building of culverts and lams on North street immediately at the entrance to Oakwood Cemetery This latter work is greatly needed, and rock has been placed on the ground ready for the workmen when the work on the corner of Blount and Lenoir streets shall have been completed. It is the intention of the Committee in every case to use rock instead of wood, which will make their work permanent, and they are determined that during their term of office the streets of Raleigh shall be placed in much better condition and at much less cost than under Radical rule, and we can safely say that under the present management this substantial work will be done (and well done) at a great saving to the taxpayers of Raleigh over what it would

have cost under the old rule. Commissioner Andrews understands his business, but to Aldermen Little, R. F. Jones and Hamill will our people be greatly indebted for the close personal attention they are paying to this work.

LET OUR FRIEN DS WORK CHEER-FULLY .- The friends of Convention throughout the State have every cause to bend manfully to the work of next week. There is everything to cheer them. We have information from every section of the State, and with but one or two exceptions the Democrats will hold their own and unite in the honest effort to overthrow that | the gallant General remarked: "I am abominable constitution which was forced upon us at the point of the bayonet in 1868.

Our friends are everywhere at work. "Particularly is this so in Wake county; not only are our candidates doing their duty nobly and manfully, but they have the hearty co operation of the County Executive Committee, and hundreds of our young men have thrown their coats off and gone into the fight to

A NORTH CAROLINIAN COMMITS SUICIDE.-A Petersburg (Va) dispatch, under date of the 28th, thus records the unfortunate death of a young man from this State who was at the time living in that city:

B. W. Avent, a promising young man, committed suicide this morning while in delirium from fever, by umping into the Appoinatox river. He left his room without clothing, wrapping a sheet over his body, and ran like mad to the wharf, unmolested by the passers by, although it was broad daylight.

The body was recovered and sent to his relatives in Battleboro, N. C. SENATOR RANSOM.—The Wilmington Star of yesterday has this

to say of this gentleman: Senator Ransom arrived in the city last evening at 11 o'clock from Lumberton, where he spoke yesterday This distinguished and beloved citi zen was met at the Purcell House by some of his personal and political friends. His arrival was noted by the shooting of rockets. Gen. Ransom is looking well, not-

withstanding the arduous labors of daily campaigning he has undertaken. He will address the people of Brunswick to-day at Smithville, gong down the river to Smithville this morning with a number of friends and admirers in the snug little steamer William Nyce. He will return to the city this evening, and will go hence to Rocky Mount to-morrow, where he will speak on Saturday. From there, we understand, he will go to Washington, Beaufort county.

Hydropkobia in Fruit .- Poisonous

Peaches in India-A Wonderful Ccurrence at Lucknow. Two native gardeners and a little oy having been suddenly seized with alarming spasms, accompanied by foaming at the mouth, after eata quantity peaches, the Englishman to whom the peach orchard belonged forthwith proceeded to analyze the fruit. To his horror, the juice was found to contain a considerable proportion of poisonous virus, a discovery which naturally led to a close examination of the tree from which the fruit had been gathered. After inspecting the leaves, the branches, even the bark, with no scientific results, one of the examining party suggested that the roots should be uncovered. This being done, the origin of the poison at once came to light. Being anxious to enrich the soil of the orchard, the gardeners had buried dead dogs under many of the trees including the one on which the deadly peaches had grown. Under Its roots lay the careass; of a defunct pariah, proved by appearances to have died of hydrophobia. After this discovery there could be no doubt about the source from which the fruit derived its poisonous qualities. The virus of hpdrophobia had first impregnated the soil, next the sap of the tree, and subsequently transmitted itself to the fruit. Yet the poison appears to have lost some of its power in transit, since it is related that the three patients "were successfully treated and all recovered."-Luck-

now Correspondent London News. The London gossips are telling this story, apropos of Queen Victoria's continued seclusion: At the Princess of Wales' garden party, at which she was present the other day, the Queen accosted a distinguished officer and conversed affably with him for some minutes. At last really very sorry, madam for being so stupid. I am sure I have seen your face, and remember it perfectly well but I cannot remember your name."

A drop of perspiration has caused a terrible explosion in the Pyrotechnic School at Toulon. A naval lieutenant was filling bottles with dynamite, gun cotton and phosphate of calcium, and the story is that a drop of perspiration' from his forehead falling under certain condition, on matter not explosive without contract with water, produced the catastrophe. At any rate, three persons were killed on the spot.

An Appeal from an Old Voter.

An old Voter of Wake has sent us the following appeal to the Democrats of Wake and of the State. Unable to take an active personal part in the campaign, he believes that every man ought to contribute in some way to the success of the cause. We give his communication, hoping that its zealous spirit will communicate itself to every reader:

[For the Daily News. Democrats! Wake up! Turn out! Work hard! Go to the polls on the 5th of August like true men. Vote the Democratic ticket and save yourselves and families from the despotism of Carpet-baggers, the few deprayed natures white and their army of \$0,000 obedient and ignorant blacks. If you stay away from the polls, if you refuse to vote at the most important of all elections ever held in the State, you help the enemy to ruin yourselves, and you oppose your friends who are striving hard to avert the dreadful calamity of radical rule,-the black cloud that is hanging over the white people of the State.

Give one day to your country. Dont think that there will be enough at the polls without you. Go there yourself. Others may act as you might be disposed to act. Let none stay away. Remember that Thomas Jefferson said that eternal vigilance is the price of liberty. Every man must be its guardian. Our sister States of the South are groaning under the load of Civil Rights, and negro equality. They are looking anxiously at our old State, always true when duty calls. Don't disappoint them. Come out, and overthrow this army of tories and jacobins. The Pretorian Guards were never more hostile to liberty. Come to your Country's call! Save

your State! From Sloux City (Iowa) Journal July 16. Struck dead in a Twinkling .- De-

plorable Effects of a Flash of Lightning from a Clear Sky. While the thunder-storm of yesterlay afternoon was ragingat a distance of apparently a couple of miles from this place, a singular freak of nature took place in the striking by lightning of the depot, and the striking and killing subsequently of J. H. Boyer, the postmaster and blacksmith of this place. At about 5 o'clock in the afternoon, at which time not a cloud obscured the sky overhead or stood between the sun and the town, a terrible flash of lightning, followed by a deafening peal of thunder, struck the wires of the telegraph office and set it on fire. than in the advertising columns of The damage done to the telegraphic widely circulated newspaper. Such is apparatus was most complete, the wires being torn to pieces and the different instruments being almost without exception distorted and broken and completely wrecked. Immediately after the stroke John H. Boyer, who was in his shop at the time, ran out in the street toward the depot, where some boys had CARRIE S. BLACKNALL, both of Kit-trell's Springs, N. He evidently had it in his mind that the terrible shock might have frightened his family, as he started towards his home immediatev. When within about fifty yards of the house, from the front window of which his wife was anxiously watching his approach, another vivid flash of lightning dazzled the eyes of all, and ere the thunder had ceased rolling, the naked body of the unfortunate man was seen to be lying prone upon the ground. A number of people, among them his wife, rushed to the spot, and so horrible was the situation that it was not until he

hair had been burned off for the space of the size of a silver dollar. Thence the fluid had run down the side of the face, as was shown by a clearly cut track, to the shoulder, and thence to the heart, where it apparently spread all over the whole body. The terrible power of the fluid was shown by the presence in the ground on the spot where the unfortunate man's body had been picked up, of a hole eight feet deep by actual measurement. The clothing of the deceased was found to have been shredded, and when first discovered was on fire, while the silver watch he carried had been driven into the ground, and when lifted up it was found that the works had been fused into a lump of shapeless metal. The scene at the house of the deceased who leaves a wife and three children to mourn his loss, was painful beyond power of words to describe; and those who had been led to the spot through curiosity could not remain. The affair has created the profoundest sensation in the town, where the deceased was both loved and respected by all who knew him in either public or

On Wednesday last, while fifteen men were engaged in running a thrashing machine, near Alpharetta, Ga., a heavy cloud and rain came up, and a bolt of lightning struck in the midst of the crowd killing three men outright, and injuring some extent the entire party. Two of the men were brothers, and were standing on each side of their father when killed. the father miraculously escaping, unhurt.

TO BUSINESS MEN.

A good advertisement in a widely circu-lated newspaper is the best of all possible salesmen. It is a salesman who never sleeps and is never weary; who goes after business early and late; who accosts the merchant in his store, the scholar in his study; the lawver in his office, the lady in her home, the traveler in the car or boat; a salesman who no purchaser can avoid. who can be in a thousand places at once and speak to thousands of people daily, saying to each one the best thing in the best manner.
