

The Order.

A letter from Olin, in Fredon county, says: "Our Division is doing well. We have occasional accessions. In the spring we contemplate exerting ourselves to advance the cause in the surrounding neighborhood."

Bro. Abernathy, of Burke county, writes us: "A Division at Jones's Grove was never in a more prosperous condition than at present. We have removed ourselves to an upper room in our large new Academy, and we scarcely have a meeting without initiating some new members."

The last meeting we had, brought in four young men of standing and influence; one of whom is a young minister of the gospel. We are bound to triumph here."

A brother writing from Newton, says: "We are progressing slowly but steadily. What do you think of the idea of every Division meeting once in every month, or night in prayer for the cause; to ask God's blessings upon the cause and our efforts? I think that it will do a great deal of good, and it can certainly do us no harm to meet in prayer. Say we will meet, every Division, on the first Friday night in every month. I think we will do it, at any rate, if I can get our members into it."

We have great faith in the power and efficacy of prayer, and have often remarked that we pray too little for the success of our cause and the reformation of the unfortunate drunkard. And where the arrangement proposed by our Correspondent can be entered into harmoniously, unitedly and earnestly, we have no doubt as to the good results that would follow. Let the matter be considered in the Divisions, and may God's blessing attend and direct the deliberations of each.

FOAM OF APPLICATION FOR CHARTER. The undersigned, inhabitants of... be- lieving the Order of the M. W. T. M. to be the wisest, and the most beneficial to the human race, and desiring to have the same established in this county, town, township or municipal election days, where the same may be held; prohibiting the selling to persons in the habit of being intoxicated, or to minors, under heavy penalties, with other stringent features.

SUMMARY OF NEWS.

NEW YORK, Feb. 25.—The steamship Africa, with Liverpool dates to the 5th, has arrived.

Baron Ven Garroto comes a passenger. Funds at London, on the day previous to the Africa's sailing opened at a decline and closed at two-eighths pence lower than Thursday's quotations. Nearly all other classes of securities showed a decided decline.

The Daily News argues from the remarks of the Premier and Chancellor of the Exchequer, that the position of Foreign Affairs is most critical.

The Ministers are unable to furnish so authoritative explanations respecting the intentions of the French Emperor. It says that it felt more clearly than ever that the preservation of peace depends on the will of one individual.

The Times' article says, the conviction is, that war is intended to be provoked. The discussions in Parliament have had a discouraging effect which has been greatly aggravated by the announcement of an attempt on the part of Sardinia to effect a loan.

The telegraph has stated that fighting has commenced at Montenegro. The Russians had been repulsed in an attempt to take the town of Yehindjik on the Circassian coast. Commercial matters, quiet. Cotton, naval stores and rice unchanged.

HALIFAX, Feb. 25.—The Cunard Steamship Canada, has arrived, with Liverpool dates to the 12th. Continental affairs had somewhat changed. Pacific rumors had predominated, but the latest advices were more warlike.

Notwithstanding the peaceful sentiments uttered by the Emperor and the Count de Morny, warlike preparations continued on a large scale.

The Paris Bourse fluctuated very much—closing at Three.

The Sardinian Chamber of Deputies had voted for a new loan of fifty millions of francs, which Cavour explained was designed for defence against Austria. Military movements continued in Austria.

LONDON, Saturday, Feb. 12.—Sales of Cotton for the week of 6000 bales, closing at an advance of one-eighth, owing to an improvement of continental politics and favorable advices from India and China. The market closed active.

Broadsheets generally dull. Coffee with a declining tendency. Sugar dull and declined 6d. Closed dull. Rice quiet. Carolina scarce. Rosin slightly lower. Spets, turpentine firm.

SLAVERY ABOLISHED IN KANSAS. We find the following, under the date of the 8th, in the Lawrence correspondence of the Leavenworth Times:

"Council bill to abolish and prohibit slavery was taken up, with only two hours to insure the Governor's signature or compel him to return it. The bill was passed. None like it has occurred this session. The friends of the house bill admitted that Council bill was not what they wanted in all respects, but that Dr. Root should not be allowed to carry their bill in his pocket for four weeks as the confidential agent of the government. The bill was passed by a large majority, but the matter was passed through and a final vote was taken at 11 P. M., when by a large majority, slavery was abolished and forever prohibited in the territory of Kansas."

A VETO EXPECTED.—Members of Congress in the confidence of the President expect the belief that he will veto the bill granting aid to the States, in behalf of Agricultural Colleges.

THE PRESIDENCY.—A Washington letter, speaking of the President, says: "Again and again, on every possible occasion, he disavows with contempt and ridicule his supposed aspiration for a second term of office. 'Two old men,' he says, 'myself and Lewis Cass, if we live so long, will quit this City on the 6th of March, 1861, with much lighter and less anxious hearts than we bore with us on coming here.'"

GOOD LAW.—A bill has passed the House of Representatives of Ohio, making seduction a penal offense. As the law now is, the only penalty on conviction of this crime is the payment of such pecuniary recompense as may be awarded by the jury.

CIVILIZATION.—The Minnesota papers say that the Indians in that part of the country are being rapidly civilized; all those in the neighborhood of the settlements drinking whiskey, chewing tobacco, lying, stealing and swearing equal to white men; and the other day a young squaw committed suicide by hanging herself on a tree, on account of disappointment in love.

IT IS RUMORED at Washington that Mr. Buchanan is thinking of making D. S. Dickinson judge of the Supreme Court, in place of Judge Taney, who talks of resigning.

THE CHIEF JUSTICE of the Supreme Court has recently denied an interview with him, in consequence of age and infirmities.

REVENUES OF RAILROADS.—A late writer in the Selma Ala. papers, says that the taxable real estate in that city has risen in value, from the assessment of about 100,000 at the commencement of the year 1849, prior to the commencement of the Railroads, up to twelve hundred thousand dollars in 1858—an increase of the collection of two railroads—the Alabama and the Tennessee Roads, and the Alabama and Mississippi river Roads, which Selma had invested to the amount of \$100,000.

A SAD MESSAGE BY THE WAVES.—On the 24th ult., a bottle was picked up from the sea shore at Albany, by the coast-guard station there, containing a paper, upon which were inscribed the following: "O! the Sicilian blowing a whole gale; masts gone by the board; water six feet in the hold; making fast in spite of all hands to the pumps; master and three of the crew overboard."

God help us. James Harris, mat. American ship Jane, of Boston, December 23th, 1858. When she was wrecked, the Captain, to reach land telegraph to Lloyd's, in London, immediately. Cargo thrown overboard. No hopes for the ship.—Clarke's Examiner.

TOO TRUE FOR A JOKE.—The story is—"Tommy, my son," said a fond mother, "do you say your prayers night and morning?" "Yes, that is night; but any smart boy can take care of himself in the day time." "Alas! how many of us are prone to forget God in prosperity, and to think of him in adversity. When the sun shines we walk thoughtless of His Providence; but in the dark night, how glad we are to take hold of his guiding hand."—New Bedford (Mass.) Times.

257—Lincoln, of Illinois, got off a good one, on the day of the Senatorial election. As soon as the ballot was announced, a prominent Republican approached him in the law library, and asked, "how do you feel?" "Well," said Abe, "I feel a good deal like the boy did when he stubbed his toe against a root. Grabbing his foot in both hands he exclaimed: 'I'm too much of a man to cry, and I'm too badly hurt to laugh!'"

FOUR MEN TO BE HUNG.—The Governor of Maryland has fixed the 18th of March for the execution of Peter Corrie, who will be hung at the same time, and on the same gallows, with Gambrell, Cropps and Stephens. The death warrant was read to Corrie on Monday. The Sun says:

After the sheriff had concluded, the prisoner remarked—"Well, I know my doom.—The Governor has given us a very short day; he ought to have given us a longer time. He would require a long time to get in the right way. It was like taking up young mules, which require a long time to break."

The sheriff replied that as the time was short there was the greater necessity for making the best spiritual use of it. Corrie again said:—"The Governor ought to have given us longer time." After a few more words, in which the sheriff told him he would be made comfortable while he had to live, the officers led the condemned man farewell and retired.

While speaking, Corrie's voice betrayed great emotion, and he was evidently agitated and has a fearful dread of his approaching fate. The hanging of four men at the same time, and on the same gallows, never before occurred in this city.

BATHING IN THE DEAD SEA.—A pleasant correspondent of the Boston Post, writing from Jerusalem, thus humorously describes his Sea bath:

The Dead Sea has nothing of the desolation which it has been the pleasure of travelers to describe, and it seemed to smile at the secret dread with which it inspires the pilgrim. I of course took my bath, and as a swimmer who has a fancy to keep his legs as well as his head out of the water, I can imagine that it must have been a little pleasant. My French friend, who is not a little inclined to corpulence, complained that he could not get down into the water; floated about on one side and another, like a cork on the world like an inflated bladder. On emerging from the water it was rapidly evaporated by the sun; and the salt crystallizing on our bodies, gave us the appearance of animated sticks of rock candy, or a family resemblance to Lot's wife.

With a sensation upon our skin, as if we had been pickled for family use, and with a taste in our mouth compounded of slaughter, salts and assafetida, we concluded that one bath in the dead sea was enough for a lifetime.
