Mr. Galloway introduced a set of resolutions authorising the Governor to confer with the other States relative to the holding of a convention of all the States, to be held in New York city some time in February; said convention to be composed of three delegates

It has been the opinion of some, that a vote of two-thirds of both houses was necesessary to call any Convention of the people. But a different conclusion is reported as coming from Judge Ruffin, whose ability entitles any intimation of his to the weight almest of a formal adjudication. This doubt led Mr. Donnel, of Beaufort, to introduce a resolution proposing to both Houses to refer to the Supreme Court the question as to whether a vote of two-thirds or a bare majority of the Legislature was required to call a Convention in the present condition of Batchelor, Wright and others, upon the ground, that the Judiciary, Legislative and Executive Branches were distinct and should not be set, or if set would, from obvious adopted by the same vote:

THE AMALGAMATION OF LANGUAGES.—There is a growing tendency in this age to appropriate the most expressive words of other languages, and after a while to incorporate them into our own; thus the word Cophalic, which is from the Greek, signifying "for the head," is now becoming popularized in connection with Mr. Spalding's great Headache remedy but i will soon be used in a more general way, and the word Cephalic will become as common as Electrotype and many others whose distinction as foreign words has been worn away by common usage until they seem been worn away by common usage

'ardly Realized. Hi 'ad 'n 'orribic 'eadache this hafternoon, hand I stepped into the hapothecaries hand says hi to the man. "Can you hease me of an 'eadache?" "Does it hacne 'ard," says 'c. "Hexceedingly," says hi, hand upon that 'egave me a Cephalic Pill, hand 'pon me 'onor it cured me so quick that I 'ardly realized I 'ad 'ad an

HEADACHE is the favorite sign by which nature makes known any deviation whatever from the natural state of the brain, and viewed in this light it may be looked on as a safeguard intended to give notice of disease which might otherwise escape attention, till too late to be remedied; and its indications should never be neglected. Headaches may be classified under two names, viz: Symptomatic and Idiopathic. Symptomatic Headache is exceedingly common and is the precursor of a great variety of disease. mon and is the precursor of a great variety of disease-es, among which are Apoplexy, Gont, Rheumatism and all febrile diseases. In its nervous form it is sympathetic of disease of the stomach constituting sick headache, of hepatic disease constituting bilious headache, of worms, constipation and other disorders of the bowels, as well as venal and uterine affections. Diseases of the heart are very frequently attende with Headaches; Anamia and plethora are also affective tions which frequently occasion headache. Idiopathic Headache is also very common, being usually distinguished by the name of NERVOUS HEADACHE distinguished by the name of NERVOUS HEADACHE, sometimes coming on suddenly in a state of apparently sound health and prostrating at once the mental and physical energies, and in other instances it comes on slowly, heralded by depression of spirits or acerbity of temper. In most instances the pain is in the front of the head, over one or both eves, and sometimes provoking vomiting; under this class may also be named Neuralets.

For the treatment of either class of Headache the Cephalic Pilis have been found, a sure and safe reme. cephalic Pills have been found a sure and safe remedy, relieving the most neute pains in a few minutes. and by its subtle power erulicating the disasses of which Headache is the unerring index.

BRIDGET.-Missus wants you to send her a box of ephalic Gine, no, a bottle of Prepared Pilis, -but I'm thinking that's not just it naither; but perhaps ye'll be afther knowing what it is. Ye see she's nigh dead and gone with the Sick Headache, and wants some more of that same as relaived her before. Daugerst,—You must mean Spalding's Cephalic BRIDGET.-Och! sure now and you've sed here's the quarther and giv me the Pills and dont all day about it aither.

Constipation or Costiveness.

disorder of too little consequence to excite anxiety, while in reality it is the precursor and companion of many of the most fatal and dangerous discuses, and unless early eradicated it will bring the sufferer to an untimely grave. Among the lighter evils of which ostiveness is the usual attendant are Headache, Colic, Rheumatism, Foul Breath, Piles and others of like nature, while a long train of frightful diseases such as Malignant Fevers, Abcesses, Dysentary, Diarrhom, Dyspepsia, Apoplexy. Epilepsy, Paralysis, Hysteria, Hypochondriasis, Melancholy and Insunity, first indi-cate their presence in the system by this alarming symptom. Not unfrequently the diseases named riginate in Constipation, but take on an indepenat existence unless the cause is eradicated in an early stage. From all these considerations it follows that the disorder should receive immediate attention whenever it occars, and no person should neglect to get a box of Cephalic Pills on the first appearance of the complaint, as their timely use will expel the insiduous approaches of disease and destroy this dangerous foe to human life.

A Real Blessing.

PHYSICIAN.-Well, Mrs. Jones, how is that head-MRs. Jones,-Gone, Doctor! all gone! the pill you sent cured me in just twenty minutes, and I wish you would send more so that I can have them handy. Physician. - You can get them at any Druggists. -Call for Cophalic Pills, I find they never fail, and I re-commend them in all cases of Headacho. Mrs Jones .- I shall send for a box directly, and shall tell all my suffering friends, for they are a REAL

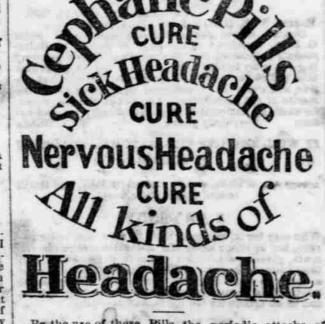

TWENTY MILLIONS OF DOLLARS SAVED .- Mr. Spaldng has sold two millions of buttles of his celebrated Propared Give and at is estimated that each hottle save at least ten dollars worth of broken furniture, thus making an aggregate of twenty inillions of dolars reclaimed from total loss, by this valuable invention. Having made his Gine a household word, he now proposes to do the world still greater service by curing all the aching heads with his Cephalic Pills, and if they are as good as his Glue, Headaches will soon vanish away like snow in July.

Over excitement, and the mental care and anxiety incident to close attention to business or study, are among the numerous causes of Nervous cadache. The disordered state of mind and body incident to this distressing complaint is a fatal blow to all energy and ambition. Sufferers by this disorder can always obtain speedy relief from these dis-tressing attacks by using one of the Cephalic Pills whenever the symptoms appear. It quiets the over tasked brain, and soothes the strained and jarring nerves, and relaxes the tension of the stomach which always accompanies and appravates the disordered condition of the brain.

FACT WORTH KNOWING .- Spalding's Cephalic Pills are a certain cure for Sick Headache, Billious Headache, Nervous Headache, Costiveness and General De-

GREAT DISCOVERY .- Among the most important of all the great medical discoveries of this age may be considered the system of vaccination for protection from Small Pox, the Cephalic Pill forrelief of Head sche, and the use of Quinine for the prevention of Fevers, either of which is a sure specific, whose benefits will be experienced by suffering humanity long after their discoveries are forgotten.

Did you ever have the Sick Headache? Do ou remember the throbbing temples, the fevere row, the lor hing and disgust at the sight of food-How totally unfit you were for pleasure, conversation or study. One of the Cephalic Pills would have relieved you from all the suffering which you then experienced. For this and other purposes you should always have a box of them on hand to use as occa-

taken at the commencement of an attack immediate relief from paid and sickness will be obtained. They seldom fall in removing the Nausea and Headencement of an attack immediate P. S. Grand and Square Pisus Fortes. THE Insulated Iron frame preserves the original tone of the instrument in all its parity, securing it for all time against that most disagreeable tinny quality of tone invariably found in all other Iron frame Piano-Fortes. It greatly strengthens the case and thus keeps the Piano-Forte much longer in tune. It gives the strength and the limites and to all climates and to all climates and to all climates and to all climates of atmosphere, and in all respects it is pronounced by our best "artistes" the greatest improvement of the age in Piano-Forte construction; producing an instrument acknowledged to be superior to all others made in this country or Europe.
