Now, if Republicanism at this day only meant this, our charity for these men would oblige us to acknowledge their consistency. But the word "Republican " does not mean any of these. Noah Webster's authority on this point cannot be called in question. Webster says that the adjective republican means, "pertaining to a republic, consist ing of a commonweath, as, a republican constitution or government," and so on The noun republican Webster defines, " on who favors or prefers a republican form o government." But it is to his definition of the meaning of Republic, to which we must go, to get at the root of the meaning of the word "Republican." This word Republican is upon the tongue of whites and blacks on imposite tongue of whites and blacks of the South, specific to the strained and address the report of the South, specific to the same and address the report of the South, specific to the same and address the report of the same and address the report of the same and address the report of the same and address the registration is completed, but means, "a commonwealth, a State in which the exercise of the registration is completed, but means, "a commonwealth, a State in which all the people had white and before the registration is completed, but white and closers, in ord pure Democracy in the same and address the registration is completed, but white and closers, in ord pure Democracy and so the same and address the registration is completed, but white and closers in representatives elected by the people."
