Advertisers will always find it to their advantage to enclose the cash when they send advertisements, to the extent they wish to pay for them.

THE SENTINEL.

LOCAL DEPARTMENT.

WEDNESDAY, AUGUST 14, 1867.

To ADVERTISERS — The public will find the *Sentinel* one of the best mediums of advertising in the State. Its circulation covers a larger area, perhaps, than any other paper.

CAPT. R. A. SHOTWELL, of Newbern, is our authorized agent to receive subscriptions and advertising for the *Sentinel* in Craven, Carteret, Jones and Onslow. He will spend the summer at Morehead City and Beaufort, and will give us the news from that section.

NEW ADVERTISEMENTS — Samuel D Wait, General Agent in N. C for the Connecticut Life Insurance Co., of Hartford, Conn., makes another flattering presentation of the affairs of that institution.

Labor Saving Pumps, Farmers' Implements, &c — Mitchell, Allen & Co.

Cheap Cotton Press — J. H. Godwin, Scotland Neck, N. C. The references are a sufficient guarantee of the excellence and utility of this invention, which bids fair to fill an important desideratum. The enterprising patentee deserves the thanks of the farming public.

Situations wanted as Teachers by two young ladies. Address P. O. Box 9, Goldsboro.

Newspaper types and material for sale — Hearne, Dunham & McDaniel, Wilson, N. C.

Notice of Dissolution of Co-Partnership — J. D. C. & J. M. Pool, Kittrell's.

MAYOR'S COURT — Abram Hale, Co. I 40th Infantry, U. S. T., and Edward Willis, Co. H 40th Infantry, arrested for being in the city without passes, were lodged in the Guard House, and turned over to the military authorities.

Wm. Harper, 8th Infantry, arrested for disorderly conduct on Winters row, in the City, was lodged in the Guard House, and released by order of Lt. Aiken, U. S. A.

Henry Dunn, colored, and John Williams, colored, arrested for sleeping in the cars at the R. & G. Depot at a late hour of the night, were lodged in the Guard House.

MILITARY COMMISSION — Our Reporter was unavoidably prevented from giving his attendance at the trial before the Military Commission, on yesterday. Our report, to-morrow, will embrace yesterday's and to-day's proceedings, however.

THE BOARD, designated by Gen Sickles to confer upon the subject of a Penitentiary, meets in the Executive Office to-day. We observe Mr Speaker McAden in the City.

REGISTRATION will commence in this City to-morrow. We presume that the Board will meet at the Court House, though we have not been advised of the fact. It will remain in session, for the present, only three days. We hope to be able, each morning, to announce the result of the previous day's registration.

TUCKERS' HALL — Some time in the course of the next week, (the precise time to be hereafter designated,) the splendid Tuckers' Hall will be thrown open to the general public. We are pleased to learn that the occasion will be signalized by an address by the Hon. D. L. Swain, who has consented thus to gratify the enterprising proprietors and the community. We presume that the address will be devoted to our local history. We are sure that it will be in Governor Swain's best style and will abound in interest. We predict a highly pleasant and interesting occasion.

A CURIOSITY. We understand that there is growing on the premises of a prominent citizen of this city, a scion of the tree known as the *Pollonia Imperialis*, which from the time it made its appearance above ground five weeks last Saturday has attained the height of six feet ten inches, and the leaves of which are six feet in circumference. Considering that the growth of the tree from which the offshoot came is only ordinary, this offshoot is quite a curiosity. *Norfolk Virginian.*

There are several specimens of the same remarkable tree in this City. A scion from one of them, growing in full luxuriance on the premises of a citizen, recently transplanted to the Post Office Square, by Mr. Miller, has attained the proportions mentioned above. It is one of the most wonderful trees we have.

REWARD OFFERED.—His Excellency, Gov. Worth, has offered a reward of $300 for the apprehension of Thos. Pratt, (white,) who killed James Norcum, (colored,) in Chowan Co., some time since, and who is now a fugitive from justice.

For the Sentinel.

MESSRS. EDITORS:—I took a turn around our market, this morning, merely as a looker-on. The stress of the times appears to drive a good many of our country people in to our market, with their produce. The market is pretty well attended.

Among other things offered for sale, I observed a cart body partly filled with uncommonly fine looking *peaches*. I took up *three* of the lot, without selecting them, and weighed them: the weight of the three was *one pound and two ounces*.

Every body knows that little or no attention is or ever was paid to cultivating peaches for the Raleigh market. And those peaches were retailed by a man, who evidently pays but little attention to highly improved fruit. Now if this fruit grows to this size and weight, *without culture*, would it not be reasonable to guess, that, with proper culture it could be made to weigh double the above, and be double the size? It is unnecessary to go outside of Wake County to find a soil and climate suited to making as good a peach "as the world ever saw."

The writer of this spent two years of his life in an Institution in the State of New Jersey, proverbially the finest peach growing State in the Union. a State that keeps two peach trains running by the New Jersey Rail Road, one train to New York, and the other to Philadelphia. The town I stayed in lies in the heart of the peach district, and yet, during the two seasons spent there, I never saw a lot of as fine looking fruit as that described here.

Shall we stand by such a climate and country, and endeavor to revive it, and make it a great State for ourselves and for our children, or abandon it to strangers? They are coming. The world's eye is upon us. Every acre of this State is in demand. And when the clouds clear, there will be a great influx of population here from the frozen regions. Let us get into position in advance.

I do not believe there is what may be termed a *market man* in Wake county. I have put the question to one of the oldest provision dealers in the city, at least twenty years in the business, if he knew a solitary man in Wake county who makes it his business to attend the Raleigh market, regularly and predominantly, he replied that he did not.

There are men in the county who come in occasionally with produce. When they get out of sugar and coffee at home they load up with a few pieces of bacon, a few chickens and eggs, etc., and drive in and sell or exchange for such articles as they want, a little calico, a pair of shoes, etc. And they do this every few weeks or months, and there is enough of this sort of thing to keep us supplied with family articles of living. But there are no professional market men in the county. A population of five or six thousand people, and no *marketmen*, to lay hold of the opportunity to make it a business! This will not last always. Some one will seize the opportunity one of these days. Q

STEAMERS.

The Charleston *Courier* says that, on Friday last, three or four citizens of that place found, in the South-western suburbs of the city, a lot of massive silver ware, buried in a branch. The search was undertaken in consequence of a letter received by Mr. Wm. A. Williams from a man in Connecticut who is presented that he had been a soldier in the Federal army, and had buried this silver ware near Charlotte in the Spring of 1865, (probably after the surrender and when troops were first sent to garrison Charlotte.) The soldier sent a diagram of the locality with particular directions how to find the treasure. Of course, it was stolen from some one by the soldier, who has since been troubled in conscience.

Dried Fruit — commands the following prices in Stokes and Forsythe: Dried peaches, peeled, per lb. 10 @ 15 cents, unpeeled, 5@6; cherries, 5 cents, blackberries, 6 @ 7.

The Wilmington *Journal* says that the rice crop along the line of the Cape Fear, or rather that portion which escaped total destruction by the flood, is somewhat recovering from the effects of the recent rains. These plantations on the river above Wilmington seem the least affected, though the damage exceeded one-half. There are some plantations below where the crop presents something of a cheering aspect, but these are few.

The Wadesboro *Intelligencer* has suspended publication. Cause: Difficulty in making collections. We part with our cotemporary with regret.

A correspondent of the Norfolk *Day Book* gives a distressing account of affairs in Hyde. He says:

"The corn crops are *no more*. The floods of July completely devastated them, and now, beyond roasting years, there is no prospect at all. Hyde County lies upon the Lake Mattamuskeet, which is fed by rains altogether, and consequently fresh water. The lands are all alluvial soil, the richest in the world, and are drained into the Lake on one side, and Pamlico Sound on the other. But all is nearly level, the depression being barely appreciable; and of course the lands are always subject to overflow. This has happened this season; and the rich and magnificent producing County of Hyde, which usually overflows with cereals, will have nothing now to send to market."

Some doubts have arisen as to whether the law of 1865 prohibits the importation of coolies into this country. It appears, however, from the wording of the act, that it was invented to prevent the trade in coolies in American bottoms and punishes those thus engaged, when such persons are transported from their native land without their consent, with forfeiture of the vessel, and fine and imprisonment.

Crop reports from South in Georgia and Florida say the prospect is improving daily. Some planters report that they expect to make the largest crop known, for the acres planted. The caterpillar appear in small numbers on a few plantations.

Alex. H. Stephens does not hold himself responsible for the opinions attributed to him by correspondents of the papers, who have recently visited him. He is trying to get well enough to express his views on the political situation in a public speech.

The tailors of London have been on a strike. They believe that as they sew, so should they reap.

Why shouldn't the navy have a President? Farragut, for instance. He knows the ropes better that Grant.

A City of Mexico paper says that 968 persons were shot during the empire without having been legally tried.

The Boston *Post* thinks the new fifteen cent note has a singular adaptation to the price of "straight drinks."

WASHINGTON NEWS.

WASHINGTON, Aug. 13, P. M.

There is no authority for using Gen. Steedman's name in connection with the War Department.

The Court of Claims decides that there is no appeal from its decisions in the cotton claims.

Gen. Grant's letter concludes as follows: "In notifying you of my acceptance, I cannot let the opportunity pass without expressing to you my appreciation of the zeal, patriotism, firmness and ability with which you have ever discharged the duties of Secretary of War."

Stanton replying concludes: "You will please accept my acknowledgements of the kind terms in which you have notified me of your acceptance of the President's appointment, and my cordial reciprocation of the sentiments expressed."

REGISTRATION IN GEORGIA, ORDER BY POPE.

AUGUSTA, Aug. 13, P. M.

The registration returns from forty-seven counties give about 60,000 voters, and a majority for the Blacks of 6,673. In the districts where the whites are largely in the ascendancy no returns have yet been handed in. Though a large number of whites have not registered, it is believed that when the returns come in from all the districts of the State, that the white voters will have a majority of nearly 12,000.

Gen. Pope issued the following order to-day:

First. The Commanding General has become satisfied that the civil officers in this Military District are only observing his orders prohibiting them from using any influence to deter or dissuade people from reconstructing State Governments under the reconstruction acts of Congress, so far as their own personal conversation is concerned, and are, at the same time, by their official patronage, supporting and encouraging newspapers which are, almost without exception, opposing reconstruction, and obstructing and embarrassing the civil officers appointed by the Military Commander in the performance of their duties, by denunciation and threats of future penalties for their official acts.

Second—Such use of the patronage of their offices is simply an evasion, perhaps unintentional of the provisions of the General Order above referred to, and is, in fact, an supplement of the machinery of the Provisional State Governments to defeat an execution of the reconstruction acts.

Third. It is therefore ordered that all advertisements or other official publications, heretofore or to be hereafter provided for by State or municipal laws or ordinances, be given by the proper official whose duty it is to have such publication made, to such newspapers, and such only, as have not opposed, and do not oppose, reconstruction under the acts of Congress, nor attempt to obstruct in any manner the Civil officers appointed by the military authorities in this District in the discharge of their duties by threats of violence or prosecution or other penalty as soon as military protection is withdrawn, for acts performed in their official capacity.

The fourth section makes it the duty of all the military officers to report to the District Headquarters all violations of the order.

THE REPORTED TREASURY MISMANAGEMENT

NEW YORK, Aug. 13, P. M.

The reported robbery of the Treasury emanates from a new paper published by Ed. E. Dunbar, long intimate with, and a confidential Clerk in, the Treasury Department, and President of the Continental Bank note company.

The paper contains a long article on the subject, embracing three points. Criminal and reckless mismanagement, enormous deficiencies, and fraudulent duplicate issues.

Hundreds of millions are involved in the redemption of duplicate coupons. He insists, finally, that the government is ignorant of the amount of paper afloat.

NEWS BY LAST NIGHT'S MAIL.

——The New York *Herald*, of the 12th, keeps up its fire. The following are the concluding sentences of its leading article of that date:

"But the people are awakening to the true perception of this great matter, and it needs no extreme prevision to know that the nation will eventually trample under its feet every vestige of the party that holds such ideas and has led it into this false position. The plain question of Mr. Johnson is whether he has the courage to take the current of this national tendency and make a bold fight with Congress and the radicals, now that they are in the wrong—to fight when he may have the people on his side, with the same spirit with which he assailed Congress when its acts were in harmony with the national will. If he has, the case is plain before him. He must make a clean sweep of all the present *personnel* of reconstruction. He must brush away all the commanders, and if there are no generals to take their places, make some. He must not stop with Stanton even in his Cabinet.—Taking thus a new departure, pursuing an honest policy of reconstruction, never losing sight of the real objects of the war, but breaking up utterly this mischievous attempt to secure nigger supremacy, he will merely go before the wishes of the people, and though an attempt at impeachment would come as sure as sunrise with the assembling of Congress, the attitude of the nation would awe it into silence."

WASHINGTON, Aug. 12. A ridiculous rumor that Mr. Johnson has been advised by his friends to resign, and that he has seriously considered the proposition, has been circulated and discussed here for the last twenty four hours by curbstone gossips. We have excellent authority for saying that no one has made such a suggestion to Mr. Johnson, and if it had not been made a subject for grave inquiry it would scarcely be necessary to add that the President has never had the matter under consideration.

There are rumors of the resignation of two or three members of the Cabinet, but there appears to be no foundation for them, except the statement that the Postmaster General informed one of his friends on Friday last that he was determined to resign, not, however, upon political considerations, but on account of personal interests. We give you this for what it is worth.

The President has not had any intimation of a purpose to resign on the part of any member of his Cabinet.

The jurors in the Surratt case report that if, under the charge of the court, they would have been permitted to find the prisoner guilty as an accessory to the plot to abduct Mr. Lincoln, they could have found a verdict of guilty in thirty minutes.

Lawyers here say the dismissal of Mr Bradley from practicing at the bar will not hold good, that the rules and practice require that specifications should be regularly filed and Mr Bradley should have had an opportunity to file his answer and be heard by himself or counsel.—*Wash. Cor. Balt. Sun.*

——A letter has been addressed to General Sickles by a committee appointed at a republican meeting held in Charleston S. C., protesting against the appointment of Governor Aiken as a registrar of voters, or to any office of trust or honor, on the ground that he aided the rebellion by the contribution of arms and ammunition, and that during the war he entertained Mr. Davis at his residence.

——A correspondent of the Wilmington *Journal*, writing from Richmond County, says:

"The late rains in this section have improved the crops very much, and a friend told me a few days ago, that his cotton crop was the best he had had in ten years. Corn has also improved very much, yet the crop is small."

——Gen Sickles has appointed Richard Granger, Clerk of the County Court of Beaufort, vice Gordon, deceased.

MISCELLANEOUS.

DOTY'S CLOTHES WASHER.

THE BEST AND MOST POPULAR

WASHING

MACHINE EVER INVENTED.

IT is easy to operate sitting or standing; takes but little room; injures no garments; finishes its work in from two to four Minutes; is durable and convenient, and the only Washing Machine known that is

FIRED THE PUTTER THE LONGER IT IS USED

No rubbing is required for. The clothes are placed in the tubs, and closed in. While thus inclosed and the steam [illegible], the machine is operated as described above. Thus, all the benefit of pressure, and all the solvent power of soap are obtained at one and the same time. The whole clothes are [illegible] cleansed, and they require only to be rinsed in cold water strong and hung out to dry.

With a Universal Clothes Wringer to press out the water, as heat is getting, the whole [illegible] Washday, does not [illegible] compared with [illegible] and we [illegible]

FREE CLOTHES ARE NOT INJURED.

The [illegible] to the next [illegible] that [illegible] necessary to expel it. [illegible] the most harmless manner. By decreasing the handle, the mass of [illegible] is [illegible] and the sides of the machine, thus forcing the [illegible] through the texture, carrying the dirt with it. Working in this way from two to four minutes is sufficient for four or five shirts, [illegible] of the ordinary size.

Universal Clothes Wringer!

SELF ADJUSTING AND ADJUSTABLE.

Patent Cog-Wheel Regulator.

The Clothes, by the use of this WRINGER, are mangled. They merely pass between two Rubber Rollers and the water is pressed out.—Not the slightest strain is exerted upon the texture. No matter how frail, or how much worn, of even linen, not a thread is stretched nor a rent enlarged. A child can readily wring out a tubful of Clothes in a few minutes. It is in reality,

THE CLOTHES SAVER,

A TIME SAVER and a STRENGTH SAVER. It much more than pays for itself every year in the saving of garments. It saves labor, expedites work, does not tear off buttons and is indispensable in every well regulated family.

I have made arrangements to keep a supply of these machines always on hand. Please call and examine them at COOKE'S STORE.

LIFE INSURANCE.

THE NORTH AMERICA

LIFE

INSURANCE COMPANY.

New Features and Advantages Which are Known as Belonging to no Other Company in the United States.

THE MANAGEMENT OF THIS COMPANY IS upon the Mutual Benefit System—the accumulated profits going to the assured.

This company makes a special deposit with the Insurance Department of the State, for which Registered policies are issued if desired, countersigned by the Superintendent of the Insurance Department of the State of New York, certifying that such policies are secured by pledge of public stocks.

No other Company gives the assured a guarantee of this character or anything equivalent.

Thirty days' of grace are allowed on all renewed premiums, and the policy remains valid and in full force during that time.

No restrictions as to travel or residence abroad at any season of the year, outside the tropics, which gives a nearly world-wide and unconditional policy.

No higher rate of premium charged for stationary Engineers, Conductors, Baggage Masters, Mail Agents, nor in consequence of change of employment after the policy is issued.

Notes are not required by this Company, but a loan may be obtained on the policy for one third of the annual premium, which is cancelled by the profits applied as dividends.

Joint policies, including man and wife, are issued by this Company, and the amount insured is payable to the survivor on the death of either.

Our dividend, January 1st, 1866, was 45 per cent.

Dividends are declared annually, and paid on settlement of 4th. Annual Premium, on all our plans upon the full amount of premiums received.

Premiums may be paid annually, semi-annually or quarterly.

All policies issued by this Company are non-forfeiting, after two, in some instances, and three annual payments in others.

The per centage of premium receipts in 1865, over 1864, was 251 per cent; which is nearly double that of any other New York company.

Policies incontestable from any cause except on account of fraud.
