THE SENTINEL.

WM. E. PELL, PROPRIETOR.

UNWISE DISCUSSION.

It is difficult for some men to write or speak with discretion. Partizan feeling or ambition will be sure to outcrop itself in times of political excitement .-Whereas, men who are guided by a pure, unselfish patriotism, will always show it self by its coolness and moderation.

Gov. Bragg's speech at the Conservative meeting in this Uity last Saturday, was of this latter character. It was free from passion-free from the arts of the demagogue. He appealed to the reason of men, and in dulged in no invective, no expletives or bitter railing, but eliminated in plain simple terms, that course of policy, which ha manity, kindness to both races among us, and a wise and considerate statemanship demand, for the safety and prosperity of the whole country and all classes.

The same spirit marks the able letter of Gov. Graham, published by us on Wednes. day last, which, although differing in some respects from the views of many of his friends, submits his thoughts in a manner so felicitous, and at the same time, so convincing of his own pure patriotism and hon est conviction, as to inspire all with the admiration and respect, which his entire public life has riveted upon the judgment and feel ings of his fellow citizens.

What a pity it is, that all of as cannot speak and write thus, whatever may be our speeches and talks of the speakers at the City, on Wednesday evening last, were in wide contrast, with the speech and letter above alinded to. We had no reporter at ridicule or to madden our political opponents. The solid differences of opinion between us, throw us wide enough spart, without our desiring to widen the breach, by showing the same fatter and retaliating some things we regret, and which we ought not to overlook

We are informed that Mr. Holden, Senter, Relitor of the Standard, who made the most elaborate speech, perhaps, made many characteristic assaults upon his political oppoall distinctions between the white and coltions ever existed, and that he should labor suppose the sentiment was fully endorsed by to it. all who participated in the meeting, whether white or black. It is fair to presume it the desires such a thing, and no Conservative will give any constenance to it. Gov. Bragg's allusion to a "war of races" was simply incidental and was alluded to only as a sequence which followed necessarily, a bostile course towards the whites no the part of the blacks. Such a result be deprecated in the extreme. But if Mr. Holden is correctly reported, his remarks seemed to court such a result-indicated that he would be and day in promoting Radical measures. glad to provoke it, and in a menacing man ner affirmed that, if it came, Gov. Bragg and his chadjuters would be the first to go

We appeal to reasonable men North and South, and especially to the military authorities among us if such language is a luissable from any one at this particular time espe-Is it not, at least, unprovoked and cially. imprudent ? Does it not violate that license to allow free speech and a free press only as-far, as not to promote public disorder and We allude to this subject with lawlessness. regret, not designing to depart from our purpose not to enter into any controversy with the Standard, but simply to allude to a matter, which our position of light us to do. as one anxious to preserve the peace and quiet of society. We further learn that the peakers disavowed the doctrine of confisca tion. It is too late in the day for Radicals to attempt thus to back out.

ELECTIONS YET TO BE HELD

Concerning the elections that are to be held during the coming month, the National al Intelligencer says, New York has to check a State ticket and Legislature. That it-Republican majority of last year will be reversed is as certain as anything can be that has not actually happened. The estimates of the Conservative majority are so large that we hardly care to annoy our opponent-Legislature to be chosen, which will, of in a low days, course, be Conservative, and a constitution be voted on. Its chances, after the late re sult in Ohio, may very readily be estimated. In Michigan and Kausas, negro suffrage is setts, there are State elections to be held early next month. In all of them we count on large gains for the disuservatives, and be at all surprised to see two or three of them give a Conservative majority.

WAY TRAVEL

Our correspondent "Progress" to-day touches a point which is of much importance to our merchants and our Rail Roads. There are two points, about which we may differ with our correspondent, yet we entirely approve of his design to stir up our Rail Roads and merchants to see if something caunot be effected, to afford facilities to our people along the routes of Rail Roads for their better accommodation.

lst. We advocate no plan which experi ence and calculation can demonstrate, will certainly damage the Railroads pecuniarily. We are sure our correspondent desires no such thing; because we know he is deeply interested in the success of our Roads.

2nd. We do not favor the idea, that our Railroads are to be indifferent to either through travel or through freight. Our North Carolina Railroads should be conducted on the same liberal principles that the Railroads of other States are conducted. to the extent of their ability. The citizens of other States are as deeply interested in the accommodation which our Railroads afford them, as the citizens of North, Carolina are in the accommo lation which the Railroads of other States afford to ours. We are a sister-hood of States and a brother-hood of people, and we are in favor of our Roads doing all they can to facilitate through mails through travel and through freight

What our correspondent desires is, that too much attention should not be paid to the accommodation of other people, to the opinions. We regret to learn that the neglect of our own. We believe that a wise discretion into which all our Railroads Radical meeting at the Court House, in this | should enter heartily and to co-operate with each other in effecting, would lead all our Roads to work together to facilitate the public made, through travel and through that meeting. STATE NEWS.

--- At a Conservative meeting held in Salisbury for Rowan County on the 15th. inst. Mesars, M. L. Holmes and Wm. M. Robbins were selected as candidates for the State Convention. This is a most capital selection and we presume will secure the the support of every Conservative man in the County. D. A. Davis, Esq., presided, and Messrs. Crossland and Stewart acted as Secretaries. The following resolution was adopted :

Resolved. That we agree to ignore all old party divisions, and unite as one body with the great conservative party in restoring our State to the Union.

-A young man, whose name we could not learn, met with a sudden death, night last week, while out possum hunting within three miles of Concord. Two of those he was with had crossed a small ravine, or gully; he remarked that he would go up higher and cross. He tried to do so by jumping; he missed the opposite stde, and fell back into a ravine, breaking his neck it is supposed. When taken up be was dead. He had been married but three weeks. - Wadesborn Argus.

MESSES EDITORS It is enough to rejoice the heart of every patriot in the land to hear of the mighty political reaction which is going on, and to think that our good and glorious country s not to be given up to faction, war and bloodshed and the train of heart-sickening evils consequent upon the rule of wirked and designing demagogues. Let us congratulate ourselves upon this long desired return to a proper sense of the eternal prin ciples of right and justice, and an apprecia on of the best interests of the whole com try. Madness and its disatrons consequences have ruled the hoar long enough. country in the meantime has passed through a terrible ordeal. When, after the unforte nate storm a four year's devastating war had ceased, and the sun of peace had appeared again, high hopes of quiet and prosperty were entertained; but those femil hopproved to be deceptive thusi-Wicked men attained to high places, the on of peace disappeared again, the politi cal between became dark and lowering and men's bearts failed them, in view of the pertending storm which was threaten ing to bury beneath its ruins the last hose of Constitutional government in America Our country may not inaptis be compared to the tempest-tossed ship which for many days and nights has been driven to and to by the lashing billows and angry storme of occan's warring elements. Preighted with ouls who were sinking in despair and about to co down beneath the waves of anarchy and misrule, when behold, to the Northward a ray of light gleams upon her torlora and weather beaten vision, soon the how of promise securely spans the political heavens, and from Maine to California the sun of hope is about to burst forth again to flood the country with light and glory. How opportune, then, Messis, Editors, is the or nization of the Constitutional Union movement that has been mangurated. Let every patriot of whatever color, who is a triend to law and order and a Constitution al Union unite with this great movement. Let moderation, discretion and wisdom characterize its platform and all its proceedings. Let the colored people be taught by conciliatory and reasonable persuasion that it is to their interest as well as to the intercet of the white man, to assist in making he country great and prosperous, and that then they can reasonably hope to buy lands and homes with the precreds of their successful labor, instead of trasting to the floody and impracticable plan of obtaining them by Contiscation, I verify believe that many olored men, who have been deceived and decoved into eath bound associations, will
