

THE SENTINEL.

JOSIAN TURNER, JR., EDITOR. WEDNESDAY, APRIL 14, 1869.

OUR WANTS.

A few days ago we directed your attention to four things greatly needed in the South. Without delay attempting any...

About last September we were in Columbia, Miss., county, Tenn. the richest in that State. At 12 o'clock at night, the company with the gallant and courteous Gen. Pillow, we took a seat in the cars for Memphis.

There is a general contempt in Europe of General Grant. As a military man he is despised. He is considered and spoken of as "the great master of war." Grant's conduct since his election, his stupid silence about his cabinet (instead of submitting their names for the action of public opinion), his contempt for law and the...

In North Carolina we can present the greatest inducements both to the capitalist and laborer. Have we not here the most bounteous bounties of nature? What do we lack in that regard? Do we want a soil that is fruitful and generous? We have known in early autumn days \$5000 to be made to the hand in raising tobacco.

Do we lack a climate that is propitious to health? Read the census of 1860, and learn that the greatest average of human life was in our once favored State. Do we lack variety of soil? Examine the statistics and see how we produce almost everything, and in abundance, that can be grown on the Continent. Corn, wheat, oats, rice, potatoes, and barley, tobacco, cotton and fruit, clover, grasses, and vegetable products are only some of the things that can be raised almost in any county. Besides these, we have our magnificent rivers with a water power sufficient to turn the wheels of a nation's factories, and our immense fisheries, and our forest haunts filled with all kinds of the richest and our tremendous forests, and our easy access to market. What more is lacking to render us a great, happy, free and prosperous people, but the necessary industry, some assistance in the way of capital and harmony among ourselves? We "loaf" nothing. Looking to Jehovah for favoring seasons, and to our own hands for the means of development, and our future will be fortunate and magnificent. Let us all be up and doing.

A MODEL AGRICULTURE.—We remarked briefly yesterday on the nepotism of President Grant's administration. One of his recent appointments is James Westcott as U. S. Marshal for the State of New York. We are not advised as to whether he is a cousin of Grant's, or if he married into the Grant or Dix family. But this month he appeared, and the New York Sun (it is said) is responsible for it. He is a bankrupt to the amount of \$380,000. He owns one man \$2500.

REV. DR. BULL.—This reverend gentleman has been preaching with great effect in the Presbyterian Church in this city during the week just passed. He is acknowledged to be one of the most able and effective preachers in the country, and his sermons abound with great force of thought and expression. Large congregations have attended the services, all of whom have expressed great pleasure from the sermons. His labors here will no doubt be productive of great good.—W. J. W.

GEN. GRANT IN EUROPE.

Perhaps no President since our great Washington (whose influence over the American people has greatly waned within the last few years) has commenced his career with more claims, real or reputed, upon the people of the North than the hero of Vicksburg. He has succeeded in making the unreasoning fanatics and the dense multitudes of the North believe that he, indeed, was the great leader—the grand genius of war since the three millions of soldiers brought against the handful of the South. It mattered not how sharply the military journals of Europe might criticize his campaigns and exhibit him as a mere sturdy fighter without great abilities as a commander, our Northern brethren only the more stoutly persisted in lauding his performance and in rendering him the more important by reason of the very comparisons they instituted. A quiet reversion to this judgment has been going on, and today, there are thousands of intelligent people in the Northern States who not only do not regard Grant as a really superior Captain, but who recognize in Gen. Lee the great warrior of America. We doubt not the time will come, when the relative merits of the two leaders will be fully understood by every ordinarily intelligent reader, and the judgment of the generations of America will stand as the judgment of the world.

It is not surprising that the appearance of this paper in the natural stripping of a spirit of modesty of the great and long term president in this country, that every good citizen here, who is not from the Ohio of Grant's election, has been looking for the paper. We have returned to the weekly since that time, and the paper is a constant welcome sight, and only of the fact that it is a constant welcome sight of the near spirit of its accomplishment.

We hope the white man of North Carolina will not permit his own selfish carpet-bagger to strip the honor and glory of his country. He is not a man of his own country, but a man of the world. He is not a man of his own country, but a man of the world. He is not a man of his own country, but a man of the world.

When the bill came up I offered the following motion: That the resolutions (the bill) be referred to the Committee on Finance, and said Committee be instructed to report a resolution, as a substitute for the report, authorizing for such purposes only as are used in the funeral of the late Hon. L. D. Hall, and such further sum as they may deem would have been necessary to carry the remains to the town of Pitt, the last resting place of the late Hon. D. J. Rice.

I offered this motion because I observed that the bill was a well intended bill, but that it was not intended to be a bill to be introduced in the House, but a bill to be introduced in the Senate. It was a bill to be introduced in the Senate, and it was a bill to be introduced in the Senate.

At a late ball in Paris one of the Chinese ladies lost his glove, demonstrating the fact that the Chinese have long been acquainted with the civilized practice of cringing deep down.

The noble and sonorous name of Harriet Tubman which has long appeared prominently in the minds of the people of the North, is now being used in the South. It is now being used in the South, and it is now being used in the South.

Mr. Motley, who has been appointed Minister to England, is an exceedingly fine scholar, speaking German and other modern languages with the precision and accent of a native. He has had some diplomatic experience, having been Mr. Lincoln's Minister to Austria. We had supposed him qualified because of his unquestioned learning and ability, for any foreign service, but that would seem somewhat doubtful, if we were to base our opinion upon sundry passages in the New York World, extracted from his dispatches when at the Court of Vienna to be found in the Diplomatic Correspondence. These exhibit him as an exceedingly vain and inflated personage, and would dispense his claims to being sufficiently well polished in judgment and mental operations for any service abroad requiring strategical and diplomatic skill. He sounds his own fame largely, but discards all purpose to be egotistical. Our relations with England are of a delicate character, and it is to be regretted that so serious complications will arise from ministerial blundering or vainglory.

GOVERNOR HOLLIS has made four appointments of Magistrates in this county, all of which give universal satisfaction to our people. The appointments are: C. E. Parsh, T. H. Hughes, Hugo Woods and W. B. Lynch. His Honor's Recorder.

THE LATE GEN. GRANT has been a member in Raleigh, N. C., and a man of the appropriate name of Barsum edits it.—N. Y. Express.

IMPERIALISM.

At last, the project referred to some days ago of starting a paper in New York to advocate the institution of a Monarchy, in form of Government for our Republic, which is regarded as a measure to give a desired solution to various questions. We may have something better than this in connection at some future time. At present we content ourselves with a sketch which shows, that in the judgment of others, there is a decided tendency to Imperialism and Imperialistic ideas. The New York Atlas says:

Imperialism needs no a devotee here. Its ends are soon. They are not taking root. This is proved by the increasing and lawless spirit which characterizes our present legislation in all parts of the country. If all this is not speedily corrected, our country will be a mere territory of the United States, and our people will be a mere subject class. By the time we have reached the end of the century, we will have a million of our people, who will have been educated in the ways of the United States, and who will have been educated in the ways of the United States.

We are not surprised at the appearance of this paper. It is the natural stripping of a spirit of modesty of the great and long term president in this country, that every good citizen here, who is not from the Ohio of Grant's election, has been looking for the paper. We have returned to the weekly since that time, and the paper is a constant welcome sight, and only of the fact that it is a constant welcome sight of the near spirit of its accomplishment.
