THE SENTINEL.

THE SWEET-TOURGER AFFAIR. We have no disposit on to do injustice to any one, and hence, when the extract apthe constitution in order to mislead and there Joe's mill is located. impose upon the penyle of the State, we refrained from copying the article or alluding to the matter, for over two weeks, to give Senator Sweet full opportunity to set bimself right to regard to the charge against him.

We admit that we are not usually as forbearing in such cases, but we had conceived a favorable opinion of the character of Mr. Sweet, both from his course during former sessions of the present Legislature, and his remarks in the Senate during the present session on this subject of the tenure of the Legislature, and we were anxious to see him set himself right in this matter.

Over two weeks having elapsed and the gentleman remaining entirely silent, we republished the article, for the purpose of showing the people the method pursued by their so-called representatives to hondwink and defraud them of their civil rights.

Ou the appearance of the article alluded to, in the SENTINE, Mr. Sweet arose in his place in the Senate to a question of privilege, and denied, in toto, the truth of the statements reported, and stated that he did not believe Judge Tourgee had ever made the statement attributed to him.

Now, this is a very grave matter; not a more newspaper rumor, but a declaration of a fact, with the time, place, and dreumstances, as well as the name of the party making it, all given, except the names of the gentlemen to whom the statement was made. This omission we are prepared to supply. The statement was made on the train of the North Carolina Railroad, going trem Raleigh to Greenshore', on Thursday November the \$5th; and onsof the two gentlemen to whom the statement was made was VICTOR C. BARRINGER one of the Code Commissioners. Judge Tourges, at another time, we are in ormed, made substantially the same statement in the presence of Mr. Ball, Doorkeeper of the Senate, mail agent on the R. & G. Railroad

We have not approached Mr. Barringer on this subject, nor has be in any way authorized us to use his name in the matter, but he has said to different gentlemen that the report of the conversation alluded to by the Winston Sentinel, and copied by us, is true.

There the matter restant present. Judge Tourgee, on the train from Raleigh to Greenshore, on the 25th of November last. said, publicly to several gentlemen, of Sweet, in saying he thought the Convention committee in framing the article in the death by accidently falling into the fire. Constitution used as an excuse for holding over only meant to hold over from April to August 1868, bad "knowingly misrepresented the whole affair before the Legislature." That he (Tourger) "had a section drawn up expressly stating that the Legislature should hold over four years and four months and that he showed it to Heaton and Sweet, who were sitting one on each side of him, and that Heaton who was a timid man, objected, saying that if it was put in that way it would defeat the Constitution, and that Sweet agreed with him, and that they was behind the Speaker's desk and consulted, and that he drew up the present acction, to worded as to mislead the people as to its meaning and ment, He said that Sweet and Heaton were both delighted at the manner in which he had succeeded in their object, and that Sweet was not only knowing to it, but a party

We repeat, there the matter rests for the present. Mr. Sweet says the statement, as reported is untrue, and that he does not be lieve Judge Tourges made it. Mr. Barringer says Judge Turgee did maxe it, and we Mr. Sweet and Judge Tourgee can settle

the matter between them. STAND TO YOUR LICK LOG.

Jimmy Long, colleague of chicken Gunter, from l'ullet station in the county of Chatham, while enjoying the dinner at his boarding house, on Thursday last, said he was opposed to adjourning "sine dist," so long at Harries ted us well as he did and the Treasury held out. Speaking of John and the mill he expects to finish, in case he can get the per diese of two more sessions, reminds us that we have not yet learned the location. Is it on Polecat Creek, or Stinkin, Quarter !

If we laws, in many instances, favor monopolies which are abundantly able to stand alone. Between affording legislative protection to amanufacturing interest, or an industry or bustness of any kind, in such a manner as to permit it to meet competition and make a fair pofit, and throwing around it such guards as give it as absolute monopoly, and place the people at its command in the disposal of its products, there is a wide difference, and the latter policy is the pre-

vailing one in our tariff laws. The policy of the ruling party in relation to all questions affecting the currency and the redemption of avetweaty boards in wicked, and is intended to meet the delenders, and of bondholders, at the expens of all other clames. Many of the most prominent and influential republican newspapers denounced our tariff laws as an iniquity, in as severe terms as can be employd but these laws are not so plainly at was with justice and common sense as the policy which makes the government pay a premium on its bonds when it is under no

moral or legal obligation to do so. All of the projects brought forward by the ruling party for funding the public debt and establishing new national banks are nearly as bad as they can be. There is nothing which can be considered as an appeople will submit, because they think the nation is strong enough to bear any burden which may be laid upon it .- Uhicago Times

THE NESTO EX-DUS FROM VIRGINIA. The negroes appear to be leaving Virginis in shouls for the cotton plantations o Georgia, Alabama an 1 Minsusippi, where they are sure of better wages and climate than they have in the "Old Domin 10n." In Hichmond, for instance, a L-bor agent advertises for negroes by thousands to go South at from filteen dollars to twenty-two dollars and fifty cents per month. Before the war the sales of "Virgiony niggers" for the co-ton States amounted in Richmond to shout twenty millions of dellars a yest. Two present demand from the cotton planters for these Virginian field hands is but the revival of the old one in a new shape. Under the old slavery de-mand the Virginia master, sold to the tradet "a few niggers" itom year to year to make both ends meet. Under the new voluntary freedman and tree labor system whole families and colonies of these Virginia plantation blacks are moving South. the end will probably be the disappearance of the black recouls for from the state and of the black population from the state and its replacement by white labor. This will involve the cutting up of the large plants-tions into small large for German, Danish, Norwegian, English, Weish, Itish, and Yankee settlers, a transformation which will double the value of every acre of land in the State within the next ten or ditteen years.

FAILURE OF MISS BURDETY-COUTTS'S BARTARLE PROJECT -- Miss Burdett-Courts's Columbia market, opened some time since in Bethnal Green, London, at great cost, and under the happines suspices, has proved an almost hopeless failure, Miss Courts's unfortunate venture (says the London Telegraph) is certainly not the first of the kind. Many a market with spacious accommodation has been planned and built, first stones have been inid, and silver trowels wielded by lily hands; soleme grand banquets and inaugural processions have proclaimed to the world that the great der the lappels of their costs in public places in Paris.
