CRIME IN THIS STATE.

The shocking and alarming murder perpetrated a few days ago in Mecklenburg County is well calculated to excite at this time serious apprehension that many like crimes will be perpetrated, and demands the most serious consideration of every good man. A peaceful, industrious old gentleman and his wife, who had been in the country for many years, were found dead in their bed-chamber, the door and window were fastened, and the bodies were found in a state of decomposition. The crime is a most heinous one, and demands the most serious consideration of every good man.

We learn that three or four of the guilty men have been arrested and put in jail. It is not enough that the guilty parties in this case shall be tried and punished—a reputation of such officers must be preserved, if possible. How can this be done? It is the remedy. We say remedy, because it is the only way to prevent such a repetition of such offenses.

But it is not enough that the guilty parties in this case shall be tried and punished—a reputation of such officers must be preserved, if possible. How can this be done? It is the remedy. We say remedy, because it is the only way to prevent such a repetition of such offenses.

Why is this? It is because the negro race is predisposed to crime. We know that it is attributable mainly to the criminal teachings of bad, interested white men, who have uniformly, since the liberation of the black race, taught them to believe that the great body of the white people have been and are hostile to them, and wily deacons intend to re-enslave or exterminate them. The radical party in this state has taught this notion persistently for four years—they have sought to stir up and excite the negro against the white people. They have done this in public speeches, in lectures in their party organization, and especially in a secret organization called "The Union League."

They have not only been taught to believe that the white people were hostile to them, but they have, by the most insidious means and ways, been taught to perpetrate crime and injure the white people. Indeed, the impression has been made that the white people and their property have been fair game. Men, calling themselves politicians, have done this—the "capital" race among us, aided by a band of grasping native scamps, who deserve and enjoy the extension of all good people, have done this. Take the Legislature, whose address published in the year 1869, as an illustration. It was signed by every Radical in the Legislature, including Gov. Caldwell, and it was written mainly by John Pool and Judge Beale, as has often been charged and never denied. That address, in the most insidious and devilish manner, gave the negro of the State to understand that the white people were their enemies and would do them all the harm they could do, and that the negro could, would, and ought to retaliate by shooting the hogs, cattle and other property of the white people, killing them and burning their houses, barns, &c. Any disinterested person reading this address, which was circulated among the negro and read to them by tens of thousands of copies, will see at once that what we have said of it is not too true.

Well, what was the natural result of such teachings? Why that such crimes should be committed, and such crimes have been committed—larcenies without number, hogs, cattle, sheep, grain, all kinds of personal property have been stolen; scores of houses and barns have been burned, and many fearful murders have been perpetrated by the negroes. While it is not all that we have in mind, yet it is a fact that the crime in this case is a direct result of the teachings of the radical party.

One of the most great things done in this State, from the time of the late war, is not only a painful, but a dangerous act. This is a man's month because from several times the Department of Justice has been called upon to issue warrants for the arrest of the radical party. The State is a newspaper published at Raleigh, and it is a fact that the radical party is a direct result of the teachings of the radical party.
