For all this waste, all this pillage the States have nothing to show. Is not such an outrage upon a depressed and ruined people well calculated to make true South ern people love mightily the Grant Administration ? Does not such wholesale robbery and theiving excite profound admiration and gratitude in the breast of every genuine Southron and make him overweeningly anxious to vote for Grant ? Surely a people who have been thus August, wronged, thus pillaged and despoiled and unpoverished will rise up and put the scal of their eternal condomnation upon the scoundrels and villains. The Public Debt, according to the report of the Treasurer of the State, on the 1st October, 1869, amounted to the stupendons sum of \$29,900,045. The interest accrulag since up to October 1st, 1879, will amount to \$3,352,008.10. The total back interest due amounts to more than group MILLANS. What

will you do with it ? How can you pay iff How much real and personal property is there in the State? Official statements say \$125,000,000. To pay then the interest due now will require a tax of siz Jollars and eighty-fies cents Bu every hundred dollars worth of property. Can you stand that ? Answer tax payers ! What then will you do ? The present Constitution requires the interest to be

paid promptly by adequate taxation. Will you relain that feature or have it changed. Be careful then how you vote on next Thursday. You cannot possibly my the interest on the debt. We repeat, then, be careful how you vote.
