NEWS BY THE PAPERS.

The papers last received are exceedingly barren.

FROM SOUTH CAROLINA.

Gov. Perry's Message. New York, Sept. 19.—The steamer Quaker City has arrived from Charleston on the 16th.

It is the reproach of South Carolina that it is less so than any other State in the Union. He is opposed to the extension of suffrage to the freedmen in their present ignorant and degraded condition.

Later From Europe. Farther Point, Sept. 19.—The steamer Damascus has arrived. Her arrival is to the 9th inst., but unimportant.

Important Trade Circular. The following important circular relative to Southern trade, was issued on Monday last by the Secretary of the Treasury.

In the circular issued by this department on June 11, 1865, reference was made to the Provision Act of June 30, 1864, conferring upon the Secretary of the Treasury discretionary power in regard to the assessment, levy, time and manner of collection of taxes in the States lately in rebellion.

Under the authority given by that section it was then stated that the Department, without waiving in any degree the rights of the Government in regard to taxes heretofore accruing, would not insist at present upon their payment, so far as they were payable prior to the establishment of a collection district embracing the territory in which the tax payer resided.

The Department, preferring to test the practical workings of the regulation before exercising its power of modification in this important particular, representations since made relative to the hardship of this discrimination between manufacturer and purchaser, have been corroborated by careful inquiry, and induce the conviction that a further exemption is justifiable and advisable.

It is found that considerable quantities of manufactured products have been retained by the manufacturer in his own hands as the safest mode of investing his property, until the return of peace; that this retention was determined on and carried out without the knowledge or opportunity of knowledge of the law subjecting this property to a heavy taxation on sale, and that a large part of the manufacturers so retained having been much deteriorated in value by the lapse of time and want of proper attention, would not now sell for a sum equal to the tax.

A state of things so destructive to the usefulness of property and to the prosperity of the manufacturing classes, is as adverse to the integrity of the Government as to those of the community. For these reasons it is hereby ordered that all articles, in whatever hands found, which can be shown to the satisfaction of the Assessor to have been manufactured before the establishment of the district, shall be held free from the present assessment or collection of tax, unless transported beyond the limits of the States lately in rebellion.

Manufacturers of articles liable to seizure for want of inspection marks will present to the Assessor evidence that such articles were manufactured prior to the establishment of the district, and the Assessor, if satisfied, will cause such articles to be so marked as to be identified and sold without liability to seizure.

All articles transported beyond the limits of the States lately in rebellion will be subject to the tax due under the law in force at the time they were manufactured.
