WASHINGTON ITEM.

MOVEMENT FOR A NEW PARTY.

A pretty extensive movement is on foot here, which includes both Senators and members of the Republican stripe, in favor of a new party. It is said that Ohio is leading off in the matter, and that several meetings have already been held, and the matter fully discussed. The President has been consulted in regard to the matter, and it is said, approves of the idea. The principles of their faith is the President's policy.—*Correspondence of New York World.*

THE PRESIDENT'S SPEECH.

The Raymond branch of the National Executive Republican Committee have ordered one hundred thousand copies of the President's speech, made on the 22d of February, for general distribution over the country.

ARREST OF QUARNELL.

A man was arrested in New York and brought to this city yesterday, who is said to be Quarnell, the guerrilla chief. Papers were found upon him which, it is said, are sufficient to identify him. He is confined in the Fourth Artillery guard-house.—*Star, 14th.*

ADMISSION OF SOUTHERN REPRESENTATIVES.

That Tennessee will be admitted, so far as Congress is concerned, at an early day, does not seem to be doubted. The Democrats themselves find it is useless to raise antagonism to the report of the Reconstruction Committee, accompanied as it is by such a formidable array of evidence. Then will come the admission of the ten other States, and the basis of their restoration will be, I think, something like the following: That the rebel debt be repudiated; that all black codes and class legislation be repealed; that all colored men who fought for the Union and were honorably discharged, and all who read and write, shall vote at all elections for President, Congress, Governors, and Legislatures.—*Cor. Phila. Press.*

QUAKERS MOVING.

The boat from Aquia Creek this morning brought up seventy-five Quakers from Randolph County, North Carolina, who are on their way to settle in Indiana. One hundred and fifty more from the same county will soon follow.

BORE FUN IN CONGRESS.

During the discussion, Wednesday, of the bill concerning the Paris Exposition, Mr. L. Blood suggested that among other great American curiosities, the Freedmen's Bureau be sent to this exhibition. He had no doubt but the emigrants would admire a country that could produce such a thing. (Great laughter.)

Mr. Washburne, of Illinois, offered an amendment that none of the appropriation should be expended until the French troops were withdrawn from Mexico. (Applause, and hisses in the crowded galleries and on the floor.) The amendment was rejected.

PRESIDENT JOHNSON'S VIEWS.

The Washington correspondent of the New York Advertiser says:

"The President evidently feels that he is master of the situation, and is terribly in earnest in his opposition to Congress, especially when he finds himself attacked as he was on Saturday by Mr. Stevens. He told a New England Congressman, on Monday, that Louisiana is now more loyal than she ever was, her large foreign population never having transferred the allegiance which they bore to France before the treaty of transfer; and that South Carolina is more loyal than she has been since the nullification fever began to break out. But he intimated that other sections of the Union are not displaying much loyalty, and that the next rebellion may be commenced in Massachusetts.

Special Dispatch to the Baltimore Sun.

THE COMPTROLLER OF CURRENCY WORKING FOR THE RADICALS—NEW HAMPSHIRE AND CONNECTICUT ELECTIONS.

WASHINGTON, March 14.—The Comptroller of Currency has been at the Senate all day to prevent the passage of the loan bill. He is acting in the interests of the radical cabal, who are elated by the success of their double-dealing game to carry New Hampshire. Upon this they predicate victory in Connecticut; but the President has directed the removal of some postmasters in that State who are hostile to him. This creates a tremor in republican circles. The New Hampshire fraud will hardly be allowed to succeed in Connecticut.—ALPHA.

Proceedings of Congress.

WASHINGTON, March 15.—SENATE.—Mr. Riddle, from the Printing Committee, reported a resolution to print ten thousand copies of the report of the Joint Committee on Reconstruction, with the accompanying testimony, for the use of the Senate.

Mr. Davis said: "I would like to know upon what principle of justice and impartiality the evidence is taken. One gentleman of North Carolina, one of the most trust and most honorable patriots in the land, gave me this information in relation to the State of North Carolina. He informed me that the evidence of some men connected with the Freedmen's Bureau had been taken. He addressed a letter to a member of the committee, requesting that the witnesses whose names had been suggested by those who claimed seats in the Senate and House should be allowed to give their evidence before the committee. When I last convened with him, he had received no such privilege. If a just and intelligent and impartial committee would seek for the truth, in relation to this matter, the inquiry would be a subject of deep interest to the country, but if that committee proceeds upon the principles of suppressing evidence, suppressing the truth and silencing, or, at least, refusing to hear evidence in behalf of the gentlemen who claim seats in the two Houses from the eleven excluded States, I, for one, am opposed to publishing, at the public expense, the results of their labora. I do not believe, at least I have very little faith, in the various letters and information read to the Senate by the Honorable Senator from Massachusetts, presented to this body. I have no confidence whatever, or very little, in the testimony which the men in the employment of the Freedmen's Bureau give in relation to the state of public sentiment in the Southern States." Mr. Davis said that as a sample of the kind of evidence furnished by those employed by the Freedmen's Bureau, he would read from a speech made a few weeks ago by Gen. Clinton R. Fiske, in Cincinnati, and published in the Cincinnati

B. F. COE'S SUPER-PHOSPHATE OF LIME, OR BONE MANURE.

WARRANTED GENUINE.

BEING MADE OF THE BEST MATERIAL AND the most approved manner, it is recommended to the public as superior to any other in the market. All who have used it speak of it in the highest terms of praise, and those engaged in its manufacture will consider it their honor to advance the high estimation which it has acquired.

We guarantee the Phosphate to be well manufactured, and recommend it in preference to any other artificial manure in the market. We consider it nearly equal to the best Parusian Guano, although unruined at half the price.

Messrs. D. H. Allen & Co., the well known manufacturers of agricultural implements, say of it:

"We take pleasure in stating that we have sold B. F. Coe's Super-Phosphate of Lime for four years. It has given entire satisfaction to our customers. We most chearfully endorse it as an article worthy of the attention of the public, and the purchaser may rely upon securing an article honestly and carefully manufactured."

"We would state that, after careful examination, we believe this Phosphate has been improved each year since its introduction in this market, and that it will continue to maintain its present high standard."

"Very respectfully,

"D. H. ALLEN & CO.

E. FRANK CO., Esq.

Annexed please find result of my analysis of sample of your Super Phosphate of Lime left with me.

This being such a superior article in every respect, I cannot refrain from congratulating you upon such manufacture, which undoubtedly will meet with great success.

Wishing you every success, I am,

"Respectfully yours,

"G. A. LEIBIG.

PROSPECTUS

OF THE

COSMOPOLITE.

ON THE FIRST OF JANUARY WE WILL

commence the publication, in the City of Baltimore, of a monthly

Literary Magazine.

There is no publication of this character now in existence South of New York City, and the closing of the war has left a large portion of the people of the country with no literary representative.

The Contributors will be devoted to

Literature, Art-Reviews, Scientific Papers,

and General Reading.

and we shall number among its contributors some of the first literary men of the South, with others from the North and from London and Paris.

All matter not original will be carefully selected from the newest and best of the English, French and German publications; and its Editors will spare no effort or expense to make it rank with the very first magazines of the country.

At its name imports, we have established the Cosmopolite upon sectional basis. We hope to make it the organ of general literature alone, and will be uninterested by any party or clique whatever.

It will be mailed to subscribers in any part of the country upon receipt of the following subscription:

Single Copy, for one year, \$1.00

Five Copies for one year, 5.00

Twenty-five for one year, 25.00

The Contributors will be generally distributed among the Merchants and Traders of the South, and we will hold, for their information, a few advertising space at moderate rates.

Liberal deductions will be made to booksellers and periodicals.

Newspapers publishing this prospectus and sending a marked copy to the undersigned, will receive a copy of the magazine. Address,
