From Washington.

The Postofice Appropriation—Radical Alarm About the Bill—Position of the President—The Presidential Question—Congress Floundering—The Pardon Docket to be Cleared—The Colorado Bill—The New Orleans Report.

The Washington correspondent of the Baltimore Sun writes as follows:

THE POST-OFFICE BILL.

The Senate is somewhat alarmed at the prospect of losing the postofice appropriation bill for the next fiscal year, by the adoption of the amendment to the bill making it a condition precedent to the payment of any money to any civil officer that his appointment shall be confirmed by the Senate. If this condition be insisted upon, the President will veto the bill, for he cannot, of course, sign a bill that deprives him of all his constitutional power. The bill could not be carried over the President's head in either House. The consequence will be that the Postofice Department will be closed and the postal service suspended. This would be revolutionary. Congress could, by pursuing the same course of usurpation, destroy the Government.

The post-office appropriation bill was once defeated by the obstinacy of a Senator. But as Congress was ready to pass the bill as soon as it met again, the Department was enabled to get along by issuing certificates of indebtedness—no one would trust this Congress to do any better at the next session than at this.

ALARM OF THE RADICALS.

The motion to reconsider the amendment was before the Senate to-day, and Mr. Polard objected to it. He could not stand before the people, he said, upon the stand to refuse payment to a public officer. But Mr. Trumbull could, and the people, he said, would support Congress in the refusal to pay money to aid in the defeat of measures which Congress deems necessary to maintain the Government and perpetuate the Union. Mr. Sherman took a very practical and reasonable view of the question. As to some officers, the President, as he urged, must of necessity have absolute power of removal—such as the cabinet ministers and diplomatic agents. The President, for these and other officers, must have around him his personal friends.

If the Republican majority are alarmed at the removal of half-a-dozen officers in Pennsylvania and Illinois, what will be the effect of a general sweep of all the Radical officeholders?

CONGRESSIONAL MUDDE.

Congress is blundering and floundering, and don't know from day to day what their own policy is. They agree in opposition to the President's policy, no matter what that may be. If his policy should be better than theirs, if indeed they should ever have any policy, he will have a better chance to be elected President without a nomination than any one else with the nomination of Congress. It is the Presidential question that Congress is looking to, and not to the promotion of any policy for the restoration of the Union.

IMPORTANT ORDER.

An order is understood to have been received at the office of the Attorney General from the President yesterday, directing that the dockets of applicants for pardon be cleared entirely, which is almost equivalent to the issue of a general amnesty; the leaders and prominent individuals being alone excepted. Certain it is, the issue of a general order cannot now be much longer delayed.

COLORADO DOOMED.

Some of those who voted for the Colorado bill are industriously circulating a report that the President will sign it; but I am assured that he will do nothing of the kind. What is more, the bill cannot be passed over the veto, so the question may be considered as settled against the young territory.

THE NEW ORLEANS INVESTIGATION.

I have seen a sketch of the report of Hon. Everett Johnson and James T. Brady, Esq., which the Secretary of War has informed me, that it would be incompatible with the public interests to transmit to Congress, and I violate no confidence when I say it is one of the raciest documents that the war has produced. The field of exploration in New Orleans was large and rich in the extreme, and there were very little respect of persons in the report which the gentleman appointed made. The year is, will it ever be published?

THAD. STEVENS proposes in Congress to express his deep sympathy, as a people, with the Emperor of Russia—Ago.

Why shouldn't he? The Muscovite system appears to be Thad's peculiar admiration. He could not but have a fellow-feeling for any ruler who oppresses his people as Alexander does the Peas.

MILITARY LAW IN VIRGINIA.—The United States District Court convened at Norfolk, Virginia, to-morrow. Judge Underwood presiding. Chief Justice Chase declines to preside until he can be assured that martial law is abrogated in Virginia. As there have been conflicting decisions in the War Department and by the commandants of military departments as to the effect of the peace proclamation with regard to the restoration of civil law in the States lately in rebellion, the Chief Justice doesn't feel that it would be seemly for a Judge of the Supreme Court to attempt to hold court whilst a doubt exists as to whether martial law is abrogated or not.

I can say upon good authority that the President does interpret the peace proclamation as abrogating martial law in the districts where the rebellion is declared to have ceased, in all matters in which the civil courts have jurisdiction. It is understood that a declaratory proclamation to that effect will be issued by the President in a day or two.—*West. Co.* *New York Times.*

TAX ON COTTON.—We learn from a telegraphic dispatch in the *Progress* of yesterday evening, that the House of Representatives had adopted the provision in the revenue bill taxing cotton five cents per pound. We regret this. The present tax was high enough. The tax will operate very heavily on cotton-growers, and the colored man, for whom so much sympathy is expressed in Congress, will have to bear his share of the burthen.—*Standard.*
