The Mulatto Convention.

We glean from our Northern exchanges the following items relative to the Black Convention now in session in Philadelphia. The latest intelligence from the concern will be found under our telegraphic head:

THE UNION LEAGUE SUPPLYING DELEGATES.

When all the delegations from the South had been registered at headquarters this morning, it was found to be so meagre a list that the managers at the League House resolved to distribute the badges they had supplied for the several States among Philadelphians, and tack them on to the delegations. It would scarcely have done to march the delegates through the streets with South Carolina and North Carolina each represented by two whites marching arm in arm, and other States in proportion. The parades to the quarters of the delegates were therefore made in the following form:—

Band and banners ahead.
Philadelphians labelled "Boys in Blue."
Philadelphians labelled "Delaware."
Philadelphians labelled "Virginia."
Philadelphians labelled "North Carolina."

And so on through the list. This, however, was for outside show alone, the list sent comprising all the actual delegates, real and bogus, who have claimed seats.

WHY THE NORTHERN DELEGATES ARE TO BE LEFT OUT.

This has been resolved upon because the South insists upon demanding negro suffrage, and the northern politicians are afraid to commit themselves to that policy so unequivocally. This spoils Fred. Douglass's chances for the presidency of the convention.

HONORS TO DOUGLASS.

Douglass has not, however, been without his honors. He was called out at several stations on the route, and was received enthusiastically when he arrived here. Butler and Inside were in his company.

A PROSPECTIVE MARTYR.

A North Carolina delegate alleges that he has received a threatening letter from his home, stating that if he returns there he will be treated to a bullet.

THE CONVENTION A FIZZLE.

The Convention, it is admitted, will be a fizzle. There are only a handful of pretended Southerners here, representing no person but themselves. Not a single delegate has any constituency at all behind him unless he succeeds in enfranchising the negroes. The meeting is therefore to be turned into a collection of stump speeches, to be delivered to Philadelphia roughs and admiring darkies from different points in the city wherever a crowd can be raised.

Fred. Douglas would easily get the vote of the Southern whites for President, but for the fact that the Northern delegates are to take no part in the Convention.

THIS PICTURE AND THAT.

The contrast between the convention held here in August and the present black and white gathering is marked and striking. That convention was composed of representative men of the South, and comprised some of the ablest men of the nation. They came earnestly seeking to support the Executive arm of the government—to secure the fruits of a successful war in a lasting peace—and to restore brotherly love and good-will among the people of a common nativity. This amalgamation, copper colored gathering is made up of Southern white trash, without character or means, and representing only negroes, and of Northern fanatics and agitators. They come together raving and ranting—cursing their fellow countrymen—and plotting to bring upon us a bloody and cruel war of races, with its adjuncts of burning and bloodshed.

BIRDS OF A FEATHER.

During the progress of the procession Theodore Tilton and Frederick walked arm-in-arm in brotherly and tender affection. The *Press* construes this into a sarcasm upon the delegations from South Carolina and Massachusetts entering the National Union Convention arm-in arm.

Strange to say there seems to be no prospect of close affiliation between the Southern and the Northern representatives. The latter gentlemen, after a prayer meeting, concluded to meet in separate convention, over which Governor Curtin presides. Why this is so the majority don't understand; but the fact that the mean whites of the South go in strong for negro suffrage in order to get the darkies to vote their ticket, while the mean whites of the North are afraid to go so far, for fear of influencing the coming elections against them, may have something to do with it.

It is generally conceded to-night that the Southern Convention will resolve that negro suffrage is an absolute necessity, and must be insisted upon. As a preliminary they will admit the black representatives from Tennessee. Minor Botts opposes this. He urges that if the negroes are allowed to vote, their late masters will do just as they please with them.

One Furness from this State is one of the Committee on Credentials, and Marshall Goodloe one of the Committee on Resolutions.

PROSPECTUS.

This company owns by warranty title nearly fourteen thousand acres of mineral lands, situated in the counties of Chatham, Moore, Rockingham and Stokes, on the waters of Deep and Dan Rivers, in North Carolinia, which abound in plentiful deposits of coal, copper, iron, salt, and there is every reason to believe from general and surface indications, petroleum or coal oil.

The services of two practical and efficient men, experienced in boring for oil, and stimulated by a long course of success in Venango county, Pennsylvania, were secured by the company several months since and they are now on the lands, with the requisite force, tools, steam engine and machinery, boring a well with very flattering prospects of success. The organization of this company effected some time since has now been perfected in legal form, by act of incorporation, with a capital of $500,000, divided into 100,000 shares of $5 each.

By reference to the valuable and laborious reports of Prof. Emmons, State Geologist, and Commodore Wilkes, U. S. Navy, every one interested will be enabled to judge of the value of the large area of territory secured by the North Carolina Petroleum and Mining Co.

It is well known that a superior article of bituminous coal is now being mined in the Deep river coal region, where a portion of the lands are situated, and this company owns property known to be equal if not superior to any on which shafts have been sunk. Copper, iron and salt also abound, and the attention of capitalists has already been directed to this section on account of its value for the above minerals.

Below are given a few extracts from the journals showing that there is no good reason why there should not be as large quantities of oil in the "Old North State" as in other States.

Oil has been struck in Overton county, Tennessee, on the north line of that State, about midway from its eastern border, eighteen miles from the Cumberland mountains.—*Christian (Richmond) Observer.*

OIL WELLS IN WEST VIRGINIA.—The Parkersburg *Times* gives an astonishing statement of the yield of wells in the region thereabout, consisting of Wood, Wirt, Ritchie and other counties, viz: Burning Springs, 2,500 barrels per day; White Oak, 1,500; Lick Run, 300; Horse Neck, 150; and of the several wells on Hughes river, 6,000 barrels per day. The quality is said to be remarkably fine. The *Times* considers the oil of West Virginia the best yet discovered.

THE OIL EXCITEMENT IN ILLINOIS.—The oil excitement in Clark county is still high. Some eight or ten derricks are up and at work. The deepest well is only 325 feet, with a fair yield of oil. Some of the other wells have struck oil and gas at from 70 to 100 feet. Much time and money will be spent this summer in the thorough development of the oil resources of Clark county. Men of capital and experience seem confident that oil will be found in large quantities, and are willing to test their faith by a free expenditure in developing the lands. The first company who bored on the land of Hon. T. B. Young, are now engaged in trying to raise the auger which was lost last fall. The Eastern Illinois Company will begin work in a few days twelve miles southwest of the first well. The prospect in that locality is good.—*Chicago Tribune.*

It is known that after a few months boring in the vicinity of Lynchburg, a large vein of oil was struck and a productive well is now in successful operation. This is on the same line with, and about 90 miles from, the company's first well on Dan River, where the indications both general and particular are similar.

In order to have sufficient means to develop this valuable property in such a manner as to insure success, the Directors have authorized 10,000 shares of the capital stock to be sold to raise a working capital, and subscriptions for that number or any part thereof will be received.

An uncommonly favorable opportunity for investment is thus afforded, as those who choose to buy stock under this offer will have the advantage of an equal footing with the original corporators in an enterprise which, after the example of the immense profits realized in those of a similar character in other States, though in many respects on less favorable conditions than this, (compare the extent, cheapness and fee simple title of the basis of operations here offered gives reasonable assurance of the most lucrative results. In many instances in sections of less favorable oil localities, shares have advanced in a few days from $2 or $5 to $20 and even $50, and poor men who made small investments realized fortunes.

Further information may be had at the office of the company, one door north of the Court House, Greensboro, N. C., where books of subscription are now open.

By order of the Directors.

A. G. BRENIZER, Secretary.

Greensboro, N. C., Aug. 3-3tawtf
