The Baptist Central Association will hold its pext session at Forestville, commencing on Thursday before the second Sabbath in October. The Messrs, McKimmon announce the arrival of a splendid stock of Fall and Winter Goods.

ACKNOWLEDGMENT.—We are requested by the Lady President of the Sewing Society, conexted with the Memorial Association, to express the thanks of the Society to the following Merchants, &c., of the City for liberal contributions of articles, viz: Messrs. W. H. & R. S. Tucker & Co., L. E. Heartt, Alex. Cresch, S. H. Young, (with Wheeler & Co.,) Isaac Octtinger. Rosenthal, Grausman, Simpson, and Williams & Haywood. GENEROUS DONATION. - The friends of the Ladies' Memorial Association for the County of Wake will be gratified to learn that a most beautiful lot, of two acres, located on the east ern extension of North St., between the residence of Hon. K. Rayner and the late residence of Col. Frank P. Haywood, has been presented to them by our liberal fellow-citizen, Henry Mardecai, Esq., and that, notwithstanding the increasing and exceedingly liberal contributions that the friends and members of the Assolation are making to the indigent poor of the city and neighborhood, a sufficient amount has been paid in, with promised contributions and the probable proceeds of the projected Pair, to insure the success of their enterprise.

A most beautiful design for the monument, and a diagram for the cemetery, have been presented. The lumber for the enclosure has been ordered, and ere the year shall close our community will be impressed with the energy and taste which the honored President, Mrs. L. O. B. Branch, and her board of managers, have exhibited, under obstacles of no ordinary char-

WE RESERVE to learn that Hon, S. H. Rogers, Attorney General, was prevented by sickness from attending Nash Court, the present week. The hazard to Judges and lawyers, who reside in the upper counties, in attending the Courts in the lower Counties, subject to bilious fevers, at this season, is so great, that it strikes us that this Circuit ought to be arranged so that the last Courts should come first and the first last. The Fall ridings in the Eastern Counties, as a general rule, ought to be committed to the Judges residing in the East, or the time for commencing the Fail ridings should be changed to the 1st of October in all cases.

JUSTICE TO NORTHERN MEN.-The Fayetteville News gives un account of a case tried at the late County Court of Cumberland, which affords a decisive refutation of the slanderous charge so often made by bad and malicious nen, that Northern or Union men cannot have ustice in the South. The parties were a Northern man and two citizens of Cumberland,

The Northern man indicted the North Caroans for assault and battery, and they replied with a cross shot indictment against him. They were, after a hearing of the case, fined one hundollars each and costs, and order three months imprisonment, and he was fined five dollars and

Arterior description THE WILKINGTON Disputch says that the Jail expenses of New Hanover county are \$45 per This heavy burden is entalled on the uniy by a worthless set of law breakers who really prefer to lie in jail than to make an honest living by work. From all directions we hear that the jails are crowded with criminals mostly freedmen-guilty of theft or violation

THINITY COLLEGE -- We are glad to learn that this popular institution has opened its present to see all the Colleges of the State soon filled

RICHMOND MEDICAL COLLEGE.-We observe that Dr. Samuel Logan, of Charleston, S. C., has recently been elected Professor of Anatomy in this well-known institution. Its friends may well congratulate themselves on the discrimination shown by the Board of Visitors in making this appointment. In the community where he has long resided, Dr. Logan is known as a gentleman of the highest professional and social position, and his abilities as a teacher have been fully tested during his eight years' connection with the Medical College in Charleston, as Demonstrator of Anatomy, and his more recent occupation of the post of Adjunct Professor of Surgery in the same institution. During the late war he held a high position in the Medical staff of the army, and became extensively and favorably known to the profession in North and South Carolina. His accession to the Richmond school can hardly fail to enhance the popularity of that institution in both these States, and promote the success which is insured by its superior advantages. To those young men who desire to receive their professional training in a Southern School, the Medical College at Richmond offers every facility which could be reasonably desired for thorough medical instruc-

North Carolina Conference. The next North Carolina Conference of the Methodist E. Church, South, will commence its session in Fayetteville, on Wednesday, November the 7th next. Bishop Pierce will preside. Some have desired a change in the time of meeting, but after consultation it has been deemed best that the original appointment of the Bishops should remain. The press of the State will please notice.

THE PRESIDENT of the Agricultural Society of Virginia has called a meeting of the Association to be held in Richmond on the 20th, of November. We hope that the President of our State Society will at once follow suit. Nothing more commends itself to our people at present than efforts to revive and re-establish the great cause of agriculture.

The Recent New England Elections. In view of the ridiculous hullabaloo which has been made by the Radicals over the result of the recent local contest in Maine and Vermont, we submit to our readers the following

very sensible comment on those elections from

the St. Louis Republican : "The elections in Vermont and Maine have resulted in favor of the Radicals. The Radicals throughout the country are jubilant and hopeful, accepting the result in these States as indication of the "way the cat will jump" in all the States in October and November.

These parties accept as indications and omens of triumph, that which is no prophetic sign at Nothing in the world, one way or the other. can be inferred from an election in Vermont or Maine, so far as the general result is concerned. Students of political statistics know this very well. In 1856, in the memorable contest between Buchanan and Fremont, Maine and Ver mont both gave increased Republican majori-ties in September, and the Fremont party yelled itself hourse with shouts of triumph over the result, just as the Radicals are doing now. the elections in October and November in 1856 upset all their calculations, and disappointed their hopes based on the Vermont and Maine vote, the great Central States rolling up their votes for Buchanan, and overwhelming Fremont

In 1862, we saw a similar spectacle. It was generally believed that a revolution in public sentiment had changed the relations of parties, and that the fall elections would bring the Democrats into the ascendant. The elec-tion came off in Vermont, and the result exhibited the tide of septiment still running in the old channel.

The Radicals carried the State, and their party, from Boston to San Francisco, was crazy with delight. But in October and November the Democracy achieved an overwhelming vic-tory from New York to Missouri. It will be so again in this year, 1886. The Radicals have really no foundation for hope, and the Conser-vatives none for discouragement, in the elections in the two New England States named, since they are no indications whatever of popular sen-

timent elsewhere.

No one is surprised by the result. It was fully expected, just as it is fully expected and conceded that Massachusetts will be carried by a large Radical majority. There has always been in the two States, Vermont and Maine, a singular isolation from the influences producing revolutions in opinion in other States. They steadily adhere to old creeds, uninfluenced by the strong tides sweeping away the foundations of parties elsewhere. Every Radical politician knows this, and when we see the Radicals elated to the skies by the victories in those States, reading in them a promise of general triumph, it is a proof of their willingness to catch at straws like a drowning man."

..... One of the coolest and most infamous in-stances of the sacrifice of the interests of a peo ple to those of a political clique may be read in the report of the proceedings of the City Council of Baltimore. Au ordinance appropriating very nearly one hundred thousand dollars to the building of a hall over the Lexington market was adopted, with the following provise: "No bids shall be received or entertained from any party or parties who are not known to be thoroughly and unconditionally loyal

Botts has been writing up "The Great Rebellion: Its Secret History, Rise, Progress," and from the tact that the title also includes "Its Disastrons Railure," we opine that the work, which is in press, refers to the recent attempt to get up a Radical revolution in Louisiana, and to the late and feebler fizzle in Philadelphia.

Ms. Davis' Retrease.—A well-known citizen (says the Petersburg Index of yesterday) was suddenly summoned to Washington, by a telegraph received on Sunday afternoon, and left the city yesterday morning, his errand, it is said, having some connection with the recently-reported policy of the Administration towards. Mr. Davis.

"Have you no mercy for the South?" asked a Georgian of one of the delegates to the Flesh-Pot Convention. "Nary a mercy," was the reply. "Come away from him," said a friend, "he's one of those radical mercy-narys. He'd go through you in a minute."

There are 30,000 idle negroes in the city of Washington, who have neither means nor disposition to obtain an honest living. The Tribera saks Northern farmers to give them employment. Mr. Webster once told a distinguished Senator that he "must skin his own skunks."

A New and Grand Epoch in Medicine!

Dz. Magggg, is the founder of a new Medical Sysm! The quantitarians, whose vast internal doses enfeeble the stomach and paralyze the bowels, must give precedence to the man who restores health and appetite, with from one to two of his extraordinary Pills, and cures the most virulent sores with a box or so of his wonderful and all healing Salvo. These two great specifies of the Doctor are fast superseding all the stereotyped nosirums of the day. Extraordinary cures by Maggiel's Pills and Salve have opened the eyes of the public to the inefficiency of the (so-called) emedies of others, and upon which people have so long blindly depended. Maggil's Pills are not of the class that are swallowed by the dozen, and of which every box full taken creates an absolute necessity for another. One or two of Maggiel's Pills suffices to place the bowels in perfect order, tone the stomach, price the govern in perfect order, one the stomach, create an appetite, and render the spirits light and buoyant! There is no griping, and no reaction in the form of constipation. If the liver is affected, its functions are restored; and if the nervous system is feeble, it is invigorated. This last quality makes the edicines very desirable for the wants of delicate females. Ulcerous and cruptive diseases are literally extinguished by the disinfectant power of Maggiel's Salve. In fact, it is announced that Maggiel's Billious, Dyspeptic and Diarrhoon Pitts cure where all others fail. While for Burns, Soalds, Chilblains, Cuts and all abrasions of the skin, Maggiet's Salve is infallible. Sold by J. Manoritt, 11 Pine St. New York, and all Druggists, at 25 cts. per box.
