THIS IS THE LINE FOR SHIP-REALTH OF BELIEF. For near six weeks we have had northerly and resterly winds, with abundance of rain, in the colony. Our nights are guits cold while the middle of the day is exceedingly hot. This ought to bring chills and fevers, but our town is Through connections close, no delay, time and expense less than by any other route, Insurance trifling compared with other routes. SUGAR PLANTING AND LOUISIANA PROSPECTORS. The rainy weather is bringing forward the cane crop, which is said to be the most premising that has been raised in this colony. There has been a number of sugar planters from the State of Louisiana down here, prospecting for sugar lands. They all admit that our lands and our sugar cane are the best they ever saw; even St. Mary's Parish, they say, is not to be com-pared with British Honduras.

COST OF LAND GREAT. The only drawback to this colony is the high price of lands. In former times nearly all the lands in the colony were given away by grants from the crown, as mahogany or logwood works. It then was not pretended that the grants included the lands, but only the wood growing thereon; and with that understanding a grant included the lands. for three miles frontage, on a river or creek ex-tending eight miles back, was sold by the owners of such grants, as any other piece of per-sonal property, by a simple bill of parcela. In this way, and for sums ranging from one bun-dred to a thousand dollars, these grants have been bought up by two mahogany cutting esbeen bought up by two managemy cutting thablishments, who, with a shrewdness and love-sight seldom exceeded by the most acute, got a law passed by the local Legislature, called the "Lands Title act," by which law all grants, on being duly registered under this act, were to have the force of a "fee simple" title to the soil, Miss Little Mariner, and Miss Willielmina Miss Mollie E. You can buy any kind of Silk at Smith's at a saving give them all the assistance and encouragement of from \$5 to \$10 per dress. we can, not the least of which are very light taxes, a good, stable, free government—as free and as liberal as was that of the United States in its most palmy days.

The late rains have swollen all our rivers, and vast quantities of mahogany, which (in some cases) have been waiting two and three years for floods, have come out and are now waiting shipment. We have all the elements of a very flourishing colony, and as soon as our land holders see their own interest, and begin to give the land away to setual settlers. British flooduras will become one of the richest and most prosperous colonies in the world. Our colony includes a part of the mountainous lands in the interior. These mountains abound in marble, granite, alate, iron, silver, gold and other minerals; these will also, on the increase of our population, pour wealth into our colony. MINERAL AND OTHER BUSOURCES. Having been appointed agent for the above Company, I respectfully call the attention of the citizene of this section of North Carolina, to the fact that this is a Southern Company with an authorized Capital of \$300.000. It's business is ably conducted, by influential, reliable and wealthy citizens of Tennessee. It has the dinest references, and has always been accessedingly prompt in its payments, as can be shown by itr records, being sustained by wealthy gentlemen. It takes both Life and Fire risks on terms as low as any Kastern Company.

SUBSTITUTE FOR AMERICAN FLOUR AND PORE The late war in your country has made provisions so dear that we have in a measure been thrown on our own resources. The consequence is that we have raised great quantities of plantains, which are used in the place of flour, and It takes both Life and Pire risks on terms as low as any Eastern Company.

This Company is just being introduced into its aister State and I hope it will be well patronized.

Let us support and uncourage each other and keep all our money at home.

tains, which are used in the place of flour, and we have four or five persons engaged in curing pork. These satisfies take the place of the pork and flour which we formerly imported from the United States.

The brig Grace Worthington, which left New York on the 20th of September, has not yet arrived here. We fear she is lost, as also was a little Methusaleish, and we have had rough weather on the Atlantic for the past Iwo months.

The Governor has called the Legislative Assembly together in special session. It is supposed this session will make some more favorable mail arrangements; and it is hoped this will secure transport via New Orieans,—which would bring us within six days of Lemdon,—by the Atlantic cable and the other telegraphs. Our mail arrangements have been very irregular for the past fifther months. The Royal Mail Company charged so much for their work that our Assembly made a contract with the Liverpool, West India and Pacific Steamship Company; but she work was not done at all. So much for economy. NEW HAIL ARRANGEMENT.

Honace Haynand.—The measest looking man in the Congressional party was the nead-gate Horace Maynard. We saw no citizen speak to him or show him any attention shifts here, notwithstending he has a number of acquaintances in this city, and many Presbytesian brethren. He had a hang-siog slock, and over seemed to be ashamed of himself. While Foster and Wade, and Howard and others, were treated respectfully, no man had a word for the apostate Maynard. If we can respect the sumy, who, from location, education, and even prejustices, opposed us during the war, we can only despite the man who was of us and you against us. Intamona forever be his nume.
