THE SENTINEL.

SATURDAY EVENING, APRIL 13, 1867.

LOCAL DEPARTMENT.

NEW ADVERTISEMENTS. Jenkins and Perry, Family Grocers, Fayetteville Street, call attention to their large and choice stock. This firm is a new and enterprising one. We hope that it will receive the encouragement which it deserves.

Willard Bros., Wilmington, announce a new importation of new crop Molasses. Our up-country dealers will please take notice.

J. D. Pullen, List Taker, will attend at the Court House, on the 2nd inst., for the purpose of taking the tax lists for Raleigh Districts, Nos. 1 and 2.

B. P. Williamson & Co. advertising, Daugh's Raw Bone Phosphate.

Edward Wood, of Edenton, announces that he has made arrangements with Messrs. C. W. Grandy & Sons of Norfolk, for the sale of his celebrated Family Roe and Cut Herrings and Family Shad.

MAYOR'S COURT.—Jane Ferrell, colored, was arrested, last evening, for disorderly conduct, and fined \$2. Failing to pay the fine, she was kept in limbo for twenty-four hours.

With this exception, "all was quiet along the lines."

WHO WOULDN'T BE AN EDITOR!—Just about reasonable lunch time, this morning, appeared in our edition a well-filled water from our friend, W. Robert Andrews, Family Grocer, Fayetteville Street. Its laudable contents make us forget politics for a while; and as we feasted on the nicely-flavored pickled oysters, and other delicacies, we felt "malice towards none and charity to all." And who knows how to "do the thing up brown," and has in store the wherewithal to go about it.

THIS DAY, two years ago, Raleigh was occupied by the Federal forces.

Dr. Joseph B. Hixson, lately a venerable citizen of Raleigh, died in Washington, on the 8th, last, at the residence of his son-in-law, Isaias Rossop, Esq.

LADIES' SOUTHERN RELIEF ASSOCIATION.—We publish, in another column, from the Brooklyn *Eagle*, a statement showing the organization of this charitable and benevolent Association in that city. The Card from Dr. Skinner, which appeared in our columns a few days since, exhibited the amount of relief that has been extended in this particular section, while the good that has been effected in the aggregate, throughout the South, through the agency of this and similar Societies, is much greater, probably, than most persons imagine. Such practical evidences of Christian sympathy do much to knit together, the bonds of unity and kindness, the two sections of the country. These ladies can enjoy the consciousness of having not only ministered to the necessities of the suffering, and thereby fulfilled the Divine injunction, but of having attributed, in a higher degree than all the politicians combined, to the restoration of international friendship and good will.

A COLORED COMMISSIONER IN PLYMOUTH.—A correspondent of the *Norfolk Journal*, writing from Plymouth, Washington County, under a recent date, has the following:

"There was an election for town officers here on Saturday. The negroes had found out that they would be allowed to vote, and being Saturday, which to them's a weekly holiday, they came into town from five miles round the country, to take advantage of the opportunity. A separate account will be kept of those negroes, and a full report made on the first day of each month of all expenditures and issues during the month previous."

Assistant commissioners will appoint additional local agents, whenever absolutely necessary, for the special purpose of issuing these supplies, to whom the salt of locality, present on Tuesday, the session will probably be prolonged. If not, the chairman will adjourn the session under yesterday's action.

Several Radical Senators announced that were they the President, they would persist, like Mr. Johnson, in nominating friends and supporters. There is no sign of a compromise.

MEDICAL BOARD.—A correspondent of the *Wilmington Journal* calls attention to the fact, that no practitioner of medicine or surgery in North Carolina can collect his bills by law, unless he has a license to practice from the State Medical Board, provided he has commenced the practice in the State since April, 1859. This law applies to all who have commenced the practice since that time in this State.

The following medical gentlemen now constitute the Board, and were elected by ballot at the meeting, in June last, of the State Medical Society, viz:

Dr. E. Burke Haywood, Raleigh.
S. S. Satchwell, New Hanover co.
N. J. Pittman, Edgecombe co.
R. B. Haywood, Raleigh.
J. J. Summers, Salisbury.
R. H. Winborne, Chowan co.
M. Whitehead, Salisbury.

The Board are required to meet alternately in Raleigh and Morganton, on the first Monday in May of each year, and to remain in session from day to day for ten days, in order to examine applicants who may present themselves for examination. But to prevent delay and inconvenience, members of the Board may grant a temporary license to practice, to remain in force till the next regular meeting of the Board, for confirmation or rejection as the Board may determine.

Saturday Morning Dispatches.

FROM WASHINGTON.

Washington, April 13, P. M.
The President's health is greatly improved. He attended the Cabinet meeting to-day.

The Maryland returning the majority of men

thousand in favor of a Convention.

After a session of two hours, the Senate adjourned to-morrow.

THE MISSISSIPPI AND GEORGIA COMMISSIONERS IN THE SUPREME COURT.—THE MATTER UNDER ADJOURNMENT.

Washington, April 13, P. M.

In the Supreme Court, on the motion to dismiss the Mississippi bill, the Chief Justice said:

"A motion to file a bill was usually granted as a matter of course, but to be suggested that the bill contains matter which is scandalous, or tends to become before the Court, the Court examines it or refers it to a Master. In this case, the Attorney General objects to the bill, as containing matter unfit to be brought before the Court, and that is the only point which can now be considered. Upon that point, the Court will first hear the Attorney General."

Mr. Sharkey announced himself, and also his associates, in attendance, should it be decided to argue both bills.

The Attorney General said that the Georgia bill lacked the point on which he proposed to oppose the filing of the Mississippi bill. The Mississippi bill was in a legal sense, scandalous, as proposed making the President a defendant before the Court.

Gov. R. J. Walker said that he had amended the bill, so as to proceed against the President as a citizen of Tennessee.

Mr. Stanley read portions of the bill, claiming that it was manifestly against the President, as President. He alluded to a process somewhat similar, used against Mr. Jefferson in the Burr trial. Mr. Johnson did not obey or even notice the process.

As an officer, he should advise the President to disregard the subpoena, and tried the result, should the Court persist and the President remain firm.

The Court, to maintain its dignity, will have to imprison the President for contempt of Court.

He maintained that, equally with the King of England, the President was exempt from proceedings of this kind. He could only be brought before the body of the Senate. After his impeachment, the Court could punish him for acts committed while President. But he was beyond their jurisdiction, while occupying the Presidential chair.

He also maintained that the action was against the United States government, as much as though the government were named. He maintained that he appeared there at the request of the President, for whom, when the bills passed over his veto, there was but one duty to faithfully carry out and execute these laws.

Hon. R. J. Walker followed, and the Court then took the matter under advisement.

The relief given by this fund will consist of one bushel of corn and eight pounds of meat per month, for each adult person, and meat for each child between one and fourteen years of age; and this issue of food will be discontinued as soon as early vegetables and fruits shall be grown.

Brevet Brigadier General E. Whittlesey, A. A. Inspector General, will assume the general charge and direction of the distribution of these supplies. He will be governed by the orders of the Commissioner from time to time, will keep a careful record of his proceedings, and make reports of the same to this office.

Assistant Commissioners of this bureau will at once enter upon the work of distributing these supplies, and will use the utmost care that none but the very destitute receive them. They will direct the local agents in districts where by reason of the failure of the crops, or other causes, great destitution exists, to consult with civil officers and ascertain the number of persons destitute. They will make all necessary contracts for the transportation of supplies within their respective jurisdictions, and will establish depots at convenient places.

Each assistant commissioner will assign an efficient and faithful officer as a commissary of subsistence, whose duty it shall be to receipt for the supplies furnished in bulk, and to distribute the same to local agents. And all local agents to whom any portion of such supplies are transferred shall receive receipts and account for the same on the forms furnished; in the same manner as commissary stores are accounted for in the subsistence department.

All expenses incurred in purchasing, transporting, and fanning these supplies will be paid out of the special fund set apart for this purpose. A separate account will be kept of these supplies, and a full report made on the first day of each month of all expenditures and issues during the month previous.

Assistant commissioners will appoint additional local agents, whenever absolutely necessary, for the special purpose of issuing these supplies, to whom the salt of locality, present on Tuesday, the session will probably be prolonged. If not, the chairman will adjourn the session under yesterday's action.

Several Radical Senators announced that were they the President, they would persist, like Mr. Johnson, in nominating friends and supporters. There is no sign of a compromise.
