THE SENTINEL.

WM E. PELL, PROPRIETOR.

GENERAL SICKLES' ORDER FOR REGISTRATION.

HEADQUARTERS 2D MILITARY DISTRICT, CHARLESTON, S. C., May 8.

General Orders, No. 18.

1. On the 1st Monday of July next, in obedience to the requirements of the act of Congress, passed March 23, 1867, the Commanding General will proceed and cause to be made a registration of the male citizens of the United States, 21 years of age and upwards, residents of North and South Carolina, not disfranchised for participation in the rebellion.

2. One or more Boards of Registration, consisting of three discreet and qualified persons, to be appointed by the Commanding General, will be organized in each county or city to make and complete the registration, superintend the election to be held thereafter for delegates to a convention to frame a constitution, and make returns to him of the votes, list of voters, and of the persons elected as delegates by a plurality of the votes cast at such election.

3. The counties in North Carolina and the geographical districts in South Carolina will, for the purpose of registration, be divided into convenient registration precincts, and in each precinct a Board of Registers will, if practicable, be organized. Several places will be designated in each registration precinct where the Board will meet, and citizens, eligible to registration, may go and be registered. The Board of Registers will remain in session two days from sunrise to sunset at each place of meeting. On the adjournment of the Boards a copy of the list of persons registered will be deposited in a suitable place within the precinct, seven days for the public information, and thereafter the Board will again visit every precinct and revise the list of voters, hear objections from citizens as to any adjudication made, and register any person who may have been unable, by reason of illness or other good and sufficient cause, to attend the first session of the Board.

4. All persons appointed to make the said registration of voters, and to conduct said election, will be required, before entering on their duties, to take and subscribe to the oath prescribed by the act approved July 2d, 1862, entitled, "An act to prescribe the oath of office," and if any person shall falsely take such oath, he, if convicted, shall be subject to the penalties prescribed by law for wilful perjury. The form of the oath is hereinafter prescribed, as follows:

I, A. B., do solemnly swear or affirm that I have never voluntarily borne arms against the United States since I have been a citizen thereof; that I have voluntarily given no aid, countenance, counsel or encouragement to persons engaged in armed hostility thereto; I have neither sought nor accepted, nor attempted to exercise, the functions of any office whatever under any authority or pretended authority in hostility to the United States; that I have not yielded a voluntary support to any pretended government, authority, power or constitution within the United States hostile or inimical thereto; and I do further swear that to the best of my knowledge and ability I will support, aid and defend the Constitution of the United States against all enemies, foreign or domestic; that I will bear true faith and allegiance to the same; that I take this obligation freely, without any mental reservation or purpose of evasion, and that I will well and faithfully perform the duties of the office upon which I am about to enter. So help me God.

5. Members of the Boards of Registration will be allowed as compensation $4 per day for each day actually and necessarily employed in the performance of their duties, and ten cents a mile for each mile travelled on duty, and officers of the army detailed for such duty will be paid the per diem and mileage allowed for attendance on Courts martial.

6. Any citizen desiring to serve as a member of the Board may forward his application to these headquarters. No application will be considered unless accompanied by a written recommendation, signed by either the Provisional Governor of the State, a District or Circuit Judge of the United States Court, a Collector or other principal officer of Customs or of Internal Revenue, the Assistant Commissioner of the Freedmen's Bureau, or the commanding officer of a military post within which the applicant resides, certifying the applicant to be a fit person to receive the appointment.

7. It is essential that every Board should be composed of persons of recognized consideration and worth, fairly representing the population, and in whose impartiality and capacity the body of voters in the vicinage may have just reliance.

8. The boundaries of the precincts for registration, in the several places within each precinct where the Board will meet, the day or days on which the Board will meet in each precinct, and also such regulations as may be necessary for the government of registers and inspectors of elections in the discharge of their duties and to insure the accuracy and completeness of the registration, will be duly published for general information.

9. Post Commanders will report without delay upon the most expedient division of the territory within their commands into registration precincts, having reference, when practicable, to existing laws and customs establishing the usual voting places, and keeping in view the importance of affording ample facilities for registration with the least interruption of the ordinary avocations of the people.

By command of Major-General

D. E. SICKLES.

PEAT IN THE SOUTHERN STATES.—A new and important branch of Southern industry is developing in the swamps of North Carolina and Virginia: from which large quantities of peat are now extracted. In the Dismal Swamp peat can be manufactured at $1.50 per ton, which now costs $6 in New York. Hitherto the great difficulty in making peat serviceable was its great bulk, but this objection has been overcome by newly patented compressing machinery, which reduces a ton of peat to ninety-four cubic feet, or a third more than a ton of coal, which contains sixty cubic feet. Peat generates steam faster than coal, and is now extensively used in the manufacturing districts of the New England States, principally for smelting purposes. It is more economical than coal, as it leaves a residue of ashes which contain no clinkers, and these ashes are as available as those of wood for fertilizing purposes. In grate fires it gives a mellow glow, intense heat and but little smoke. The peat beds in some of the Southern States must be as inexhaustible as the coal fields of England, and are not nearly so expensive to work.—*New York Post.*
