For intance, a negro in the South, who has been trained by "rebels," and who has been civilized by the "slave driver's whip," is far more lately in the "slave driver's whip," is far more lately in the "slave driver's whip," is far more lately in the Convention discovered the game svilme to enable them and their white skin aumpathisers to defeat that particular project. The filling the Sinte with working emigrants from Europe or the North, is a favo or even in Connecticut. "Ken ye," said a shrewd scotch Lord, who was asked his opinion of James I.

North will admit that the nagro is equal to him i. What methanic or tradesman will suffer nearo competition in business? And yet the hated Southern slave holders must admit the equality of their former slaves or be ostracised, while Holded, a native scalawag, publishes daily an appeal to the Working men of North Carolian" to make hate to admit, the negro to full equality with themselves, and to esteem it an honor to stand side by side with the negro, as a true working man, as the readlest means of alreading the dignity of labor!! The small number in the Northern States seems to be no excuse or apology for ganting thum any additional privileges. Insteed, it is the purpose of the Radicals to force them upon the South, by giving the negro large advantages here, as an excuse to espice and thus to rough the surface.

Facts are multiplying of the anxiety of the Northern people to get rid of the negro to the negro and equal being and there is a nature so low that it might be doubted whether he could properly be an object of the hostility of reseauable beings. He had not been an enemy; he was not now a friend. But he had been an anneyance, and would now be a help.

Facts are multipleing of the anxiety of the Northern people to get rid of the negro altogether. Thousands of the negroes of the entire country are becoming discontented, both North and South, and are imploring Congress to send them to Liberia. There is a growing feeling among the Northern whites to encourage the movement. Only the other day, the following resolutions were intraduced in the Peonsylvania Legislature:

Whereas, A vast majority of the people of the United States believe that the white and black races cannot live together in this country on terms of political equality, and it is the duty of states ment and phitanthrepists to recognize the existence of this sentiment; and,
