of the trip, premising that it was one of the most agreeable of its kind, that it has been my good fortune to participate in for lot these many years.

At half past 5 o'clock, on Friday morning, the ringing of the kell gave notice that the time had arrived for the children to get themselves in readiness for assembling at the Church, and, not withintending the weather was a little threatening, six a check found about three bussired happy, smiling little ones ready to join in the procession that was then formed under the auspices of Mr. P. F. Pescud, as Chief Marshall and marched to the Depot of the N. C. R. R. (the dray-loads of goodies and substantials having been and in advance to the cars.) The procession, with its appropriate benhaving been sent in advance to the cars.) The procession, with its appropriate himsen, presented quite an imposing appear
ance, illuminated as it was by the beaming
faces of the girls and boys, all radiant with
the auticipation of the loys of the day.

Arriving at the Depot, we found a train
of some six or eight commodious cars, to
which was attached that noble engine,
"Thomas Webb," with Mr. Joe Green as
Engineer and Mr. E. R. Williams us Conductor. Permit me to say that the care and

Engineer and Mr. E. R. Williams us Conductor. Permit me to say that the care and politic attention of these gentlemen, during the day, was highly appreciated and duly acknowledged. For all these favors many were the expressions of thanks to the President, Superintendent, and others of this Road. We know the removements of this Road. We know the removements of the term, yet we hope the amount given at least defrayed the cost of the trip to the Company. The liberal managers of that Road seem to understand that Railroads, like other inspitutions, sometimes require a portion of the good will of the public, as seell as all of its dollars, alther to desire or schieve success.

well as all of its dollars, either to deserve or achieve success.

The children being all seated and proper care being taken to prevent accidents, at a velock the whistle sounded, and we want, with a merry shout from the children. Getting well under way, the case ware made to resound with the happy voices of the little ones, assisted by the older, in aleging many beautiful hynns. Arriving at Mortisville, we halted about twenty minutes to allow the mail train to pass, and with some addition to our bumber, we proceeded, stopping at Durham's to permit the freight train to take the track; after which we started again for Hillsbore, and you can better imagine, than I can describe the entitusiasm of the little ones, as the time approached for us to reach the point of slexuproached for us to reach the point of desti
