MR. SEYMOUR'S LETTER OF ACCEPTANCE—COMMENTS OF THE PRESS.

This letter of acceptance is a brief but cogent explanation of the condition of our political affairs. The present position of the people, the awakening of the democrats to the necessity for their active exertions, and the disgust of the better class of republicans with the outrageous excesses of their leaders, the Governor declares, in brief and plain language, the necessity for the arrest of the onward course of the radical despotism, and its strong and faithful depiction. The "other side" from the common sense and common honesty of the man of the people, the awakening of the democrats to the necessity for their active exertions, and the disgust of the better class of republicans with the outrageous excesses of their leaders, the Governor declares, in brief and plain language, the necessity for the arrest of the onward course of the radical despotism, and its strong and faithful depiction.
