ENCOURAGING PROSPECTS OF THE PRESIDENTIAL CAMPAIGN.

THE DEMOCRACY EXHIBITS NO VICTORY.

From the Detroit Free Press.

The signs of the times are auspicious. Men in the highest of political positions have the indications that the cause of Democracy is on the increase to-day. In whatever direction we may turn, we find the same spirit of hope and words of encouragement.

The people already begin to look forward for the future. Democratic meetings are held every day, and where there are large and enthusiastic audiences, Radical ones are split.

Radical ones are split.

Party seems smitten with the weight of guilt which is upon its leaders.

INDIANS AND ILLINOIS.

In Indians and Illinois, our friends are at work very hard, energetically, to keep the Republic of these States from the influence of Radicalism. Hendricks and others are on the stump, and are enthusiastically received in every part of the former State; while Edgecomb and his colleagues are working with determination in Illinois, and are by no means without a hope of carrying the State, notwithstanding the large majority against us two years ago.

OHIO.

In Ohio, Pendleton, Ward, Thurman, and others, are making strenuous efforts to keep the Radical front, with every prospect of success. It is claimed that the change in the German vote goes, in that State, will secure the electoral vote for Seymour and Blair.

THE SOUTHERN REPUBLIC.

In Iowa, Minnesota, and Wisconsin, the battles are being fought, and our friends are very enthusiastic in their efforts to place these States in the Democratic column. It is not to be denied that the condition of the country from the present standpoint, that we can secure the victory in all these States, except Iowa—and even in that our friends are not without hope? The popular changes have been惊天动地, and will continue to be so up to the election, but whether sufficient to overcome the enormous Radical majority of the past, the result alone will tell.

PENNSYLVANIA.

From Pennsylvania, the key-state in the old Democratic area, the news is now only good, but cheering. Our friends are sanguine of success. They are pressing the engine back over ground along the whole line, and intend that their front shall be disengaged from the chief of November.

NEW YORK.

On the 1st of August, we considered as beyond Radical hope. The "Democrats" were to be beaten in the State of New York, with a vengeance. In neither of these was it thought that the main candidate would secure a respectable number for attendance at their public meetings—the tide of enthusiasm and popular feeling on the Democratic side.

ENGLAND.

In all England our friends are doing battle most gallantly. The Northern State (and where will be Southern State?) is going to try to maintain its position in the Democratic fold; while in New Hampshire the hardy Democracy are laboring ardently for the success of the faith that is in them. That they may succeed is by no means improbable.

DELaware AND MARYLAND.

—Delaware, as usual, is sure for a Democratic majority. Maryland stands side by side with her sister State, and will roll up a large Democratic majority.

Through the South the Union sentiments of the people are gaining strength, and their representatives are daily organizing meetings to sustain them. These are to be connected with those now existing in the Congressmen, Quirk, Gammon, and Sease in behalf of the Tie-Harders, who are determined to sustain the manner in which the battle of the Union and the Constitution has been waged in that portion of the country.

THE WESTERN STATES.

From the far Western States come the words of cheer and the indications of success. Our friends in California and Oregon promise to be in at the "death" of Radicalism, and make their share of victory heard east of the mountains.

MICHIGAN.

In Michigan State "the work goes bravely on." We have cheering accounts from all sections. Our friends are active and determined, and if the State is not separated from the wings of Radicalism, which has so long been open to it, it will not be from the want of energy and want of action on the part of our noble Democracy. They are making excellent local combinations, and looking forward for their success. Let them "fall no, suffer not, weep not in well."

THE INTERNAL REVENUE TAX.

—The Internal Revenue Tax, composed of the counties of North Carolina, Tennessee, Mississippi, Georgia, and South Carolina, has paid over \$1,000,000 to the General Government from October, 1867, to June 1, 1868. The expense of collecting this sum was a little over \$200,000, being a moderate sum compared with the expense in many other Districts. Although the Revenue Office (with H. H. Helper and R. H. Wiley as principals) have collected a large sum from the people of the District, we think they have been slow in discharging their duties with as much forbearance and liberality as the law permits. Mr. Helper and Mr. Wiley are kind as well as zealous officers.

The following correspondence between the Revenue Office and the Collector of the Revenue, is interesting to distillers of fruit:

U. S. DIST. ATTORNEY'S OFFICE, Raleigh, July 29, 1868.

Mr. J. W. DODD, Collector,

Dear Sir:—In view of the fact that

the Revenue Office has received

from (100) distillers a
