CIRCULATE THE CAMPAIGN PAPERS
When we speak of campaign papers, we mean every Conservative and Democratic paper in the State. Our North Carolina Daily, Tri-Weekly or Semi-Weekly and Weekly papers are the most reliable and the best campaign papers to be circulated in this State. Be sure to encourage your own local papers, first. Every man, who has a proper estimate of the value of the press, will do this. After this, let every man encourage the *Sentinel*, published at the Capital of the State. Our circulation is now very extensive—reaching every town, village and neighborhood nearly in the State. Let it be extended.

From what we learn, we should not be surprised if there are more Northern papers circulated in North Carolina, than there are of the Southern papers published in the State. We are glad to know that the *North Carolina Democratic and Conservative* papers are circulating among the North. Right. But one paper can hardly do wrong when they do this, to the papers of their own party. If you want letter papers, encourage them, and their proprietors will be able to give them to you.

DOCUMENTS FOR THE CAMPAIGN
The State Executive Committee are contemplating the issue of documents for the Campaign. Brief, clear and truthful statements for the people are imperative and necessary. They are needed now, and must be had.

To be this Campaign, our best writers must go to work and prepare them, and money must be laid out. Do not only be asked, but every one do what he can, both in raising money and getting up his style matter for Tracts, and read them to the Committee.

The Radical Central Committee at Washington, and the Committee also at Raleigh, are flooding the State with documents. As yet the Democratic Central Committee at Washington and New York have done nothing. The Executive Committee at Raleigh cannot supply this lack of service, without money.

HO! FOR THE TRIUMPH OF FREEDOM, THE CONSTITUTION AND THE UNION
Victory in the Northern States is now quite certain. Our friends there are at work, and the elections in favor of our fellow-citizen will insure an overwhelming vote for Seymour and Blair in November.

The election of Seymour and Blair means FREEDOM, the restoration of CONSTITUTIONAL LAW AND CIVIL LIBERTY. There is no doubt that the people of the North will vote for Seymour and Blair, and they will have it, by the election of Seymour and Blair.

North Carolina is rallying to the cause. From Currituck to Cherokee, the efforts are moving. Seymour and Blair Clubs are being formed all over the State. Let them be formed in every neighborhood. Let the Clubs meet often. Let them spread the campaign papers and the documents. Let every man become a canvasser.

REFERENCES—The last Davylin, from Currituck to Cherokee, there are accounts of friends between black and white men in Currituck County, in each of which the negro was the aggressor. In one of the instances, which occurred in Yanceyville, the white man had to be put in jail, and the jail guarded all night to protect him from the violence of a mob of thirty or forty negroes. Will the Northern papers take notice of these facts? They are the only ones that are. They are the only ones that are. They are the only ones that are.

ARREST AND CORRECTION
The Legislature passed on Friday last, a bill for the arrest and correction of vagabonds, which has been passed. That was the object of their passage, and they will amount to nothing. No Conservative or Democrat will bribe or coerce voters, nor will they buy votes. They are in favor of every man's voting for whom he pleases. Are the Radicals so willing? If so, then will be to fight for them.

A large fraction in this county was applied to recently by several migrating men to make a contract with him to labor for the year. His reply was: "I will begin on me to work with me for the next year, will after the election in November is over. I will then hire my farm to work for me. Can you object to this? Will you employ an agency to work in his house or on his farm? Can Democrats and Conservatives be expected to do this?"

CHIEF JUSTICE PARSON AND THE CONSTITUTION
Messrs. Editors:—I presume that there are few reading persons in this State, who have not read the recent letter of Chief Justice Parson, on the recent political campaign. For myself, I am so to say that I have given it an unusually careful and correct attention. The magnitude of the subject, and the high judicial position of its author, and the rather startling character of such a production, have so far surpassed more than a passing interest.

The publication of such a letter is certainly an act in our judicial history. The writer of it does not remember when one of our Judges ever has engaged in public life in the political arena of the day. Of course, I do not embrace, in my remarks, the worthy worthings that have recently been heaped upon him, but he has held a position of high honor. It ought to be a source of surprise that he should have been so far from his place of honor. It ought to be a source of surprise that he should have been so far from his place of honor.

CHIEF JUSTICE PARSON AND THE CONSTITUTION
Several correspondents claim to be heard in our columns, in reference to Judge Parson's letter. This excessive pressure upon us, pending the Legislature, prevented a concise, yet full, editorial criticism; and our correspondents ought to be heard, we would say, by the press.

To day, we present to our readers the first part of an article from the pen of a member of the profession and an admirer of the Judge, who has not heretofore graced our columns. The remainder will appear in our issue of next Friday. It is an excellent, well-written, and in our opinion, a most timely and valuable contribution to the public mind.

The differences of opinion, which is a matter of principle or of policy, which may exist among Conservatives and Democrats on the question of legal rights, may be discussed with propriety, but we must fully appreciate the fact that this is a matter of principle, and not a matter of policy.
