THE WICKEDEST MAN IN AMERICA

The New Orleans Picayune claims for Tennessee, in a recent issue, to have been the wickedest man in America, in the opinion of its readers. This is a very extraordinary statement, and certainly rivals the most national stories in regard to the famous, or rather infamous, Allen, of Water street notoriety.

The New Orleans Picayune has been somewhat liberal in its character, and has been very interesting in its reports. It has been very liberal in its reports, and has been very interesting in its reports. It has been very liberal in its reports, and has been very interesting in its reports.

It is a very interesting story, and has been very liberal in its reports. It has been very liberal in its reports, and has been very interesting in its reports. It has been very liberal in its reports, and has been very interesting in its reports.

It is a very interesting story, and has been very liberal in its reports. It has been very liberal in its reports, and has been very interesting in its reports. It has been very liberal in its reports, and has been very interesting in its reports.

It is a very interesting story, and has been very liberal in its reports. It has been very liberal in its reports, and has been very interesting in its reports. It has been very liberal in its reports, and has been very interesting in its reports.

their hearts, despite the "carpet-bagger," in consequence of the exhibition they made of themselves, the short time they were upon the floor of Congress, will not be convinced by any man as Democratic and Unionist of Florida, especially when the views of the "carpet-bagger" are the statements of Mr. Boyden and other who know the need of the South. The "carpet-bagger" must therefore advance some better reason than the necessity for a distribution of arms, before they can persuade thinking Republicans that a Southern assignment of Congress is necessary on that ground.

The whole matter of calling Congress together again was committed to Senator Morgan and Gen. Echenek, and unless notice is given by them it is doubtful whether the special of the carpet-bagger will get through members here to constitute a quorum in either House. Furthermore, it was clearly the intention of Congress to provide for the Southern session, and it is not likely that the Southern session will be provided for solely for the purpose of admitting Mr. Johnson in the event of his taking any step not deemed proper in Radical eyes, and as was indicated by Speaker Colfax himself after the adjournment, and as he has clearly shown by his conduct since that time.

It is a very interesting story, and has been very liberal in its reports. It has been very liberal in its reports, and has been very interesting in its reports. It has been very liberal in its reports, and has been very interesting in its reports.
