VOL. IV. TERM OF SEVENTH

The Daily Sentinel.

WM. E. PELL, PROPRIETOR.

RESOLUTIONS OF THE SEYMOUR AND BLAIR CLUB AT HARLOWTHURSTON CREEK.

WHEREAS, It has been officially declared to be the policy of the Radical party, now in power in the State, to give no places of trust or profit to any except those who favor its views and work in its interest, we the members of Democratic Club No. 8, Harlowthurston Creek, maintaining that "self-preservation is the first law of nature," do adopt, and ask them the earnest co-operation of our brethren of other clubs, the following resolutions:

Resolved, That while we deplore so ill will towards the colored races, and stand ready to do all that we can, to promote their moral, social and political welfare, we see much regret that they are used by a corrupt, unscrupulous party, to secure tools to secure its own ascendancy, and our

Resolved, That we recognize the growing tension, as the legitimate result of Radical rule, oppression, and plunder, and feel no longer warranted in the physical course of employing and supporting a class of laborers, who have no concern for us, but vote with party whose unkind dispositions have beggared both them and us.

Resolved, That as the owners of the soil, we have a perfect right to make such contracts, and employ such labor, irrespective of color, as we deem convenient, with our men, and best suited to secure our general interests.

Resolved, That while we pledge ourselves to fulfill in letter and spirit every contract we have already made, we mutually agree that, at this election, we will stand our hand and shoulder to shoulder, only to those who, while filling our land for a just compensation, will not jeopardize our interests by their political predilections.

Resolved, That if we could consistently, we would prefer the employment of the colored men in our midst; but if driven so to do, we will associate ourselves together for the introduction of foreign laborers.

Resolved, That our Corresponding Secretary be instructed to communicate with the Immigrating Society, especially that at Lynchburg, Va., and report to the Club, their terms, etc.

Resolved, That a copy of these resolutions be transmitted to each club in the county, and forwarded to the Northern Journal of Commerce and Raleigh Sentinel for publication.

(Adopted Saturday Aug. 29th, 1868.)

THE COLORED PEOPLE OF THE NATION.

It is but simple justice to the colored population of the State to acknowledge a good behavior, peaceful disposition, and respectful reverence for law on the part of that class of the community at large, which, it will be confessed, has been extraordinary, under the peculiar circumstances surrounding them during and since the war.

To this general good behavior there have been some exceptions. It is true, and many characters and lawless black men, as there have been characters and lawless white men, have committed outrages against the peace of society, which, in certain instances, have been summary and condign retribution. But these exceptions do not all be accounted as such, because a few of them, more ignorant, and degraded of that class, have, by their vicious, drawn upon themselves retroactive justice, meted out to them by outraged communities.

That the behavior of the late colored slaves population during the war, upon the issue of which depended their emancipation from bondage, was extraordinary and unexampled, all intelligent men will readily admit. There are great many good people amongst them, a great many decent Christians, a great many who are intelligent and law-abiding, and a very large proportion who are kindly disposed, benevolent, industrious, and respectable. Against this harmless class no one, friend or enemy, of the South entertains any degree of hostility.

The prejudices supposed to exist to the minds of many whites are wilfully exaggerated.

Of course, it is not in the nature of our Anglo Saxon blood, nor would it be in that of any civilized Caucasian country upon the earth, to recognize the heresy of mischievous political adventurers from New England, that there is perfect, or must be perfect, social equality between the white and black races; but there is not, nevertheless, a disposition on the part of the native, white, to denigrate the native blacks of their just rights under existing laws. No colored man or woman, with an ounce of brains, is such an idiot as to believe there exists in the hearts of their masters a secret wish to re-enslave them. It is not in the interests of the whites to re-enslave others. It is the interest of the colored race to be free.

We have been informed that some "freed" men, recently reported to have been freed, declare that they are United States Marshals deputized. This statement is positively false. I am not qualified to hold such a position.

THE PETERBURG INDEX.

THE OFFICE OF THE "INDEX" was recently destroyed by fire. Its publication has been suspended.

Its proprietors are Democrats. It is policy, the organization and control Union of equalities, a great many who are intelligent and law-abiding, and a very large proportion who are kindly disposed, benevolent, industrious, and respectable. Against this harmless class no one, friend or enemy, of the South entertains any degree of hostility.

The matter and means by which their emancipation was brought about in Petersburg, we do not propose how to speak. That is was right to deprive the citizens of this State of many of their property, whether purchased or purchased under the laws of the National Government, we shall never admit. It is enough to recognize the fact that those who were once slaves, not by their own instrumentality, nor by ours, are now free. We neither rejoice at nor deplore the result. We are no white citizens, in this sense, who desire to re-enslave the colored race, nor would we be justified in doing so; of that they may be assured.

Justice to the colored race also requires that we expose the evils which we long entertained. Now, however, his attitude toward the whiteness, that if the colored man was allowed among the whites, a minority of the white race would not desire him to intermarry, and to deprive them of their inheritance, and of their educational opportunities, as did the mischievous politicians of the South, who sought to make the colored man a slave, must be exposed. That is now, we believe, the colored people of the South, and we hope to do so.

With the above, we will conclude the subject of the year, a large comfortable residence, well situated, and having a fine view, between the city of Raleigh and the Southern Woods, and a fine view of the Southern Country and Southern River.
