ANOTHER FRAUD.

So it seems that the negro now in the purlieus of Congress, with hope of admission to the penetralia of the same, is not a representative of the down-treading millions of Africans now lifting up the heel on the Southern whites, but a carpet-bag black, "born free," on his own showing, "in the State of Illinois." What then does he, this free-born Illinois blacksmour, as a representative of the slave born Louisiana blacks? Further, it seems he voted in Ohio for Mr. Lincoln in 1860, and so these so then voting were not, we know, overmuch tempted to rush forthwith into Louisiana, it is but fair to sup ose this gentleman, who carpet bagged from Illinois to Ohio, hardly carpet bagged into Louisiana, until, by such transit, the simple suffrage of the one paled before the chances of successful candidacy in the other. This bears date in 1867, and yet, in the name of ekal rights, the great heart of the nation, and so on, the Northern black pops up in 1868 as a representative of the late emancipated Southern slave, and is, by this little game, to legislate for that North, where, if he ever voted, it was by some trick, quirk, or device. What a game it is!

Knowing perfectly well, these Radical leaders, that the genuine Southern negro is, beyond all description, ignurant, uncouth, and incompetent, it was part of the reconstruction plan to hunt up exceptionally presentable negroes throughout the North and send them South, where, by collusion with the Federal officials, who manufactured majorities to suit, they were installed in the various reconstruction conventions and legislatures, and then held up as fair specimens of the average negro of the South. Thus, in South Carolina, the fellow who was Chairman of the Grant and Colfax State Executive Committee, delegate to Convention, and one of the so called State Senators, was a Massachusetts mulatto. Holding up this fraud's hands were a negro barber from this city of New York and a dusky parson of Philadelphia. In Georgia, also, "a representative Southern negro" was a fluent half-breed, once of the Boston bar, and afterward a Sing Sing convict, with a tawny divine from New Jersey as the inevitable seconder of this emissary's legislative course. So, in Florida, Alabama, and Mississippi, were and are Northern negroes who, by collusion, as stated, were juggled into the several conventions, and now, by undersand support of the Radical leaders, do the piteous, the imploratory, and the representative for the "poor downtrodden freedmen of the South."

So far from carpet-baggism terminating with white vagabonds, its most virulent form—is in the employment of negroes from the loyal States. As Zion missionaries, as colporteurs, as secret-service agents, they have been dotted about in the South to organize, incite, and favorably represent that population with which they have almost nothing in common but egregious vanity and a dusky skin.—*N. Y. World.*

GREECE AND TURKEY.—The announcement that the government of Greece has rejected the demand of the Sultan of Turkey to disband its volunteer corps and forbid Grecial officials from participating in the Cretan insurrection, and the withdrawal of the Turkish minister from Athens, would seem to leave no recourse for the settlement of the questions at issue between the two powers but war. The majority of the inhabitants of Crete are Greek Christians, and there have been repeated insurrections against the Turkish government, which have only served, hitherto, to increase the weight of its yoke. The present insurrection has lasted about two years. The struggle upon which Greece appears to have been embarked would seem to be a desperate one, if she is going unaided into the conflict. The population is only a little over a million. The army numbers not quite ten thousand men, and the navy twenty seven vessels. The Turks proper number about 8,000,000 in European and 10,500,000 in Asiatic Turkey. The Slavic races in European Turkey are about 6,000,000, and are the principal agriculturalists in that region. The effective or permanent force of the army of the empire is 120,000 men, and the reserve at least 160,000. The navy consists of 54 vessels, of which 28 are steamers, and there are 34,000 marines and sailors fit for effective service. The combatants, it will thus be seen, are very unequally matched, and there would appear to be but little chance for Greece in such a contest, even if it be not the fact, as has been reported, that England and France support the demand of Turkey. It is true that in the contest for Grecian independence, which broke out in 1821, the Greeks exhibited the most brilliant courage, fortitude and resolution, and that their cause was finally crowned with success. But all Christendom sympathized with the cause of Grecian nationality and justice, and men, money and provisions were forwarded to them from Europe and America. Our own Webster, Clay and Everett raised their eloquent voices for them in this country, and finally, at the battle of Navarino, October 20, 1827, the combined squadrons of England, France and Russia destroyed the Turco-Egyptian fleet, and compelled the Sultan to come to terms. However hopeless for Greece the contest which now appears imminent may be, the sympathies of every Christian, and of those who love liberty, will be on the side of what remains of classic and heroic Greece, even though it be "living Greece no more."—*Balt. Sun.*

A GRASS WIDOW IN TROUBLE.—A young woman, accompanied by a man named John Howard, reached this city a few days ago from Charlotte, N. C., and stopped at a well-known private boarding house, in a fashionable locality. They represented themselves as man and wife, and so registered as Mr. and Mrs. ——. After a day had elapsed, the so-called husband disappeared. The pretended wife became very much alarmed, and said that she possessed she had been foully dealt with, as he had a large sum of money in his possession. The second proved, however, that he had dealt foully with her, having cheated her out of her money as well as her virtue.—She was the wife of another, whom he had decoyed from home on the pretence of marrying her after she could be divorced. Choice train bidder he managed to swindle her out of two hundred and forty-eight dollars—all she had—and then deserted her as above described. She applied to the detective office for redress, and described Howard so accurately as to lead to his arrest. She has been sent home to arrange her little difficulty with her liege lord as best she may.—*Charleston News.*

George Francis Train has been liberated from his dungeon, and is now on his way to New York. On his arrival here he will immediately declare war with England.—*N. Y. Times.*

It is estimated that 120,000 people daily pass the Astor House, New York, on foot, and 55,000 in carriages.

LIFE INSURANCE.

The Most Vigorous and the Most Liberal Insurance Company in the Country.

BROOKLYN LIFE INSURANCE COMPANY,

141 Broadway, N. Y.

ASSETS OVER

$1,000,000!

CHRISTIAN W. BOUCK, ... President.
ABRAM D POLHEMUS, ... Vice President.
WILLIAM W. COLE, ... Secretary.
D P FACKLER, ... Consulting Actuary.
DANIEL AYRES, M. D., LL.D., Med. Examiner.

POLICIES ISSUED AS GOOD AS UNITED STATES BONDS.

POLICIES VALUABLE IN LIFE AS AT DEATH.

The BROOKLYN LIFE is the only Company in the country which guaranties a definite surrender-value to every Policy on which two or more annual premiums have been paid; this amount, in dollars and cents, is endorsed on every Policy issued. Should any Policy-holder become unable to pay his premiums, he can thus know the cash worth of the Policy at any time after two annual premiums have been paid.

This certainly is the greatest inducement and most tangible advantage ever accorded to parties insuring their lives.

Among the advantages offered by the BROOKLYN, which thoroughly evince the determination of the officers to make it the MOST LIBERAL Life Insurance Company in the United States, are:

1st. TOTAL REMOVAL OF ALL RESTRICTIONS ON TRAVEL AND RESIDENCE. The Assured may travel or reside anywhere they choose, the world over, without extra premium or special permit.

2d A Loan of one-third of the Premium to the Policy-Holder Annually.

3d. All Policies are non-forfeitable after two full annual premiums have been paid.

4th. Rates as low as are consistent with financial soundness, and less than those of almost all Companies which accommodate their assured with loans.

5th. Dividends annually (after second year) in cash. Dividends declared on the CONTRIBUTION PLAN—the only equitable manner of dividing the earnings of a Life Insurance Company. The Contribution Plan was first conceived by Mr. D. P. Fackler, now Actuary of this Company and has been adopted by most of the best managed Life Companies in this country.

The BROOKLYN LIFE has paid and now pays to its Policy-holders LARGER DIVIDENDS than ever before paid by a Life Insurance Company!

6th. Promptitude in paying losses.

7th. No charge for policy or stamp.

The success which the "BROOKLYN" has achieved, fully exemplified in its rapid and healthful growth, is a convincing proof of the confidence reposed by the public in its soundness, integrity and liberality.

A Most Wonderful and Successful Invention!

NEW METHOD OF WASHING CLOTHES WITHOUT LABOR.

THE AUTOMATIC CLOTHES WASHER AND BOILER.

Awarded the highest Testimonial wherever Exhibited.

Rev. M. W. STAPLES, Inventor and Patentee.

THIS BOILER is self-acting, and dispenses entirely with labor and the wear of clothes. The hot suds and steam, by the action of fire, are driven up through tubes, poured upon the clothes, and forced through the fabric with astonishing rapidity, cleansing it perfectly without any rubbing. It has been thoroughly tested and pronounced unequalled as a Clothes Washer, by those who have used it.

All fabrics, from the finest lace to the coarsest blanket can be washed perfectly and with ease and without the aid of the rubbing-board. For Flannels it is invaluable, as the shrinking, rolling and pressing process must necessarily fall them more or less.

It is truly a labor and clothes saving invention. Washing will no longer be a hardship, and washing day no longer a terror and a dread to housekeepers.

The invention can be used in any boiler, and the low price of the article places it within the reach of every family.

The saving in the wear of clothes will soon pay for the outlay.

It is estimated that 300 or 400 gallons of boiled suds pass through the clothes in thirty minutes; this being the longest time required for cleansing a boiler full of clothes.

Hundreds of these Boilers are being sold each week, giving perfect satisfaction.

Every Boiler sold guaranteed to do all we claim, or no sale required.

One in town in full operation at Leggett & Brothers.

We are selling COUNTY RIGHTS rapidly. Address J. B. HUNTER & CO.

What a lucky set of individuals!

Now just let ME tell you that there is more humbug than poetry to all this. Don't every man, woman and child know that it is "unlucky" large enough to be seen even with one eye shut? So let them talk, puff and blow, but stop, LOOK OUT! HANDS OFF! and show your good judgment by
