A NEW COMPASS.

Since the introduction of iron vessels, a great difficulty has been experienced by navigators in avoiding the local attractions which have made the compass to some extent uncertain and insecure, and the interest of the public has been awakened to the necessity of providing some remedies against the evil. Among others who have turned their attention to the subject is Mr. Samuel Custer, of Roanoke county, Virginia, who is the inventor of a compass which is styled an automatic registering marine compass, and which he claims to fulfil the grand desideratum of navigation, in furnishing a needle which does not deviate from the magnetic meridian under the influence of local attraction, whether that attraction results from iron in the construction of the ship, or iron in the cargo, of any other source of local attraction. It professes to do four things; 1. To show the presence of a local attraction, (which no other compass does;) 2. To show the direction of the local attraction; 3. To show the extent of the local attraction; 4. To indicate, under all circumstances, the magnetic meridian as truly as does any other compass when under no local influence. This compass is entirely different in construction from any other compass ever made. It is patented, and therefore a slight description of its construction can be given, viz:

It consists of three systems of magnetized needles, arranged in different horizontal planes. The upper system is composed of two magnetized bars, connected with a graduated card, like an ordinary compass. The card needles are attached to an axle.—The two lower systems of magnetized needles are attached also to an axle—both to the same axle. The lowest system consists of about a dozen magnetized bars, arranged (with similar poles) in the same direction, and attached to a perpendicular (graduated) rod. The middle system of needles consists of two magnetized bars attached also to this perpendicular rod, and slides up and down this rod. When placed on board of an iron ship, for example, the middle system of needles is adjusted at a point on the rod which repels the upper needle back to the magnetic meridian. It is only necessary to adjust this middle system of needles with reference to the local attraction existing on board of that particular ship. No change in the direction of the ship makes any difference in the pointing of the upper needle, whilst the lower systems—which have a graduated card attached to the upper end of the axle to which they are attached, which card indicates the movements of the two lower systems of needles—traverse like an ordinary compass.

The compass and its operations were exhibited yesterday in an excursion of a number of gentlemen down the river in the United States revenue cutter James Guthrie, Capt. Hunter. The compass was subjected to tests which seemed to those present to establish what has been claimed for it. It is said to be the intention of the inventor to seek a trial of it by the United States naval authorities at Annapolis, which would seem to be the most satisfactory manner of demonstrating its merits. The object which it claims to have accomplished is a great desideratum, second only in importance to the invention of the compass itself.

An important truth has seldom been stated more tersely than Mr. Bowles hit the real error of the press, and the precise character of the average libel suit, in his letter in reply to their tender of a public dinner. "My own observation," says Mr. Bowles, "is that *the press rarely does injustice to a thoroughly honest man or cause.* It may be deceived with regard to a private individual, and misrepresent him for a time; but, with reference to public men and measures, its knowledge is more intimate and complete than that of any other agency possibly can be, *and I know that it withholds unjustly to the public one hundred times where it speaks wrongly once of the individual. Certainly, nine out of ten of all libel suits against the press, are brought by adventurers, and speculators, and scoundrels,* whose contrivances to rob the public have been exposed." There never was a truer saying. We have our own share of libel suits, which we endure like the other discomforts that the discharge of duty brings; but we are conscious of having done wrong when we have failed to expose an evil-doer far oftener than when, because of an exposure, we have been held to answer in the courts, at the suit of some characterless adventurer who claims that we have done his character a hundred thousand dollars worth of damage by telling the truth about him. Newspapers are of course liable to many mistakes, but we speak from a wide experience in saying that the mistakes as to persons are quite as likely to be those of suppression as of utterance.—*N. Y. Tribune.*

LEE'S MISERABLES.—In a clever article on the reported joke that Grant would not appoint Mr. Davis as Secretary of War, the Chicago *Times* says:

"Jeff. Davis is, to-day, the superior in brains, and the peer in genuine loyalty, of three-fourths of the politicans of the dominant party. His main superiority consists in the fact that, while he labored four years to dismember the Union, the same thing was done in two years by the Radical loyalists who controlled federal legislation. In truth, Grant might select a good many Southern men who would be more unflinching in their devotion to the Union, more economical in the management of the national expenditures, more to be trusted in council, braver in action, than a majority of the fanatics, who, to day, legislate only for party, who are filled with a ceaseless hatred against the South, and who are monthly plunging the nation deeper in debt and in financial difficulty. Who is there of good, sound sense, and possessed by a sincere desire for the interests of the whole country, who will doubt, even for a moment, that Robert E. Lee, as a gentleman, a man of brains, and of loyal devotion to the Union, is immeasurably the superior of three fourths of the blatant demagogues, in Congress and out of it, who hate the South with a vindictiveness unparalleled in civilization? General Grant himself will, we doubt not, with at the slightest hesitation, make an S to the assertion that Lee is a better man, in every respect, than Butler, Phillips, Chandler or any dozen of the leading spirits of his own party."

EDUCATIONAL.

Kittrell's Springs Female College.

GRANVILLE CO., N. C.

THE EXERCISES OF THIS INSTITUTION will be resumed the second Wednesday in February.

The Annual Commencement will occur the last Wednesday in June.

REV. T. M. JONES, the former popular and accomplished President of Greensboro and Louisburg Female Colleges, has accepted the Presidency of this school, and will enter upon his duties in February. His long and successful experience in this contest scholarship, and his devotion to the educational interests of the South, forbid any word of commendation.

REV. C. B. RIDDICK, formerly President, is still identified with the operations of the Institution, and retires from the care of the Literary Department, only to devote himself more exclusively to its other interests.

LOCATION not to be surpassed. The celebrated MINERAL WATER an unfailing fountain of health. EDUCATIONAL FACILITIES equal to. An extensive APPARATUS and LIBRARY. MUSICAL INSTRUMENTS few and of the best style.

Terms moderate as at any other school of similar grade.

Persons wishing to send their daughters will remember that we are on the great line of railroad leading North and South, within less than half-mile of Kittrell's Depot, Raleigh and Gaston Railroad.

For other particulars, apply to

LIFE INSURANCE.

The Most Vigorous and the Most Liberal Insurance Company in the Country.

BROOKLYN LIFE INSURANCE COMPANY,

ASSETS OVER

$1,000,000!

CHRISTIAN W. BRUCE, ... President.
ABRAM D. POLHEMUS, ... Vice President.
WILLIAM M. COLE, ... Secretary.
D. P. FACKLER, ... Consulting Actuary.
DANIEL AYRES, M. D., LL.D. *Med. Examiner.*

POLICIES ISSUED AS GOOD AS UNITED STATES BONDS.

POLICIES VALUABLE IN LIFE AS AT DEATH!

The BROOKLYN LIFE is the only Company in the country which guaranties a definite surrender-value to *every* Policy on which two or more annual premiums have been paid; this amount, in dollars and cents, is endorsed on every Policy issued. Should any Policy-holder become unable to pay his premiums, he can thus know the cash worth of the Policy, at any time after two annual premiums have been paid.

This certainly is the greatest inducement and most tangible advantage ever accorded to parties insuring their lives.

Among the advantages offered by the BROOKLYN, which thoroughly evince the determination of the officers to make it the most LIBERAL Life Insurance Company in the United States, are:

1st TOTAL REMOVAL OF ALL RESTRICTIONS ON TRAVEL AND RESIDENCE. The Assured may travel or reside anywhere they choose, the world over, without extra premium or special permit.

2d A Loan of one-third of the Premium to the Policy-Holder Annually.

3d. All Policies are non-forfeitable after two full annual premiums have been paid.

4th. Rates as low as are consistent with financial soundness, and less than those of almost all Companies which accommodate their assured with loans.

5th. Dividends annually (after second year) in cash. Dividends are divided on the CONTRIBUTION PLAN—the only equitable manner of dividing the earnings of a Life Insurance Company. The Contribution Plan was first conceived by Mr. D. P. Fackler, now Actuary of this Company and has been adopted by most of the best managed Life Companies in this country.

The BROOKLYN LIFE has paid and now pays to its Policy-holders LARGER DIVIDENDS than ever before paid by a Life Insurance Company!

6th. Promptitude in paying losses.

7th. No charge for policy or stamp.

The success which the "BROOKLYN" has achieved, fully exemplified in its rapid and healthful growth, is a convincing proof of the confidence reposed by the public in its soundness, integrity and liberality.

LIFE INSURANCE.

ÆTNA

LIFE INSURANCE COMPANY,

HON. E. A. BULKELEY, President.
AUSTIN DENHAM, V. P.
T. O. ENDERS, Secretary.
H. W. STJOHN, Actuary.

SUMMARY OF BUSINESS FOR 1867

Total Assets, over	$10,000,000
Polices Insured in '67,	15,251
Am'nt Insured, nearly	$35,000,000
Policies Average	3,000
Receipts for 1867,	5,129,447
Surplus for Dividends,	2,000,000

Dividend Fifty per cent.

Receipts for Interest Nearly Paid Its Losses.

It has $130 Assets for every $100 Liabilities.

Its premium receipts at the present time are nearly HALF A MILLION DOLLARS per month and are rapidly increasing.

The growth of the Ætna has never been equaled by any other Company whatsoever, in Europe or America.

Particular attention is called to the fact that while its business is increasing unprecedentedly, its ratio of expenses is comparatively small.

ECONOMY of management, CARE in the selection of risks, *promptness* in the payment of death claims, and *security* in the investment of its immense Trust Funds, are rigidly adhered to, and have ever characterized this Company.

The ÆTNA issues all the favorite kinds of Policies at the most favorable rates.

The ÆTNA issued last year more Endowment Insurances than any other Company.

The ÆTNA'S ratio of expenses, or cost of new business is less than any other Company whatsoever, and less than *two-thirds* of the average.

The ÆTNA is as liberal in permits to travel, in all parts of the world, as a sound discretion will warrant, and is much more liberal than any other prominent Company.

ANNUAL INCOME over $6,000,000

The only Company that has the Low Participating Non-forfeitable Term Insurance with privilege of renewal. Ex. of rate at age 30 $14 07, which is nearly 40 per cent. lower than any other leading Company. Also

Non-forfeiting cash rates with dividends on contribution plan and payable at the end of the first year.

Description of Policies.

First—Whole Life Policies.

Second—Endowment Policies, for terms of fifteen, twenty, twenty-five, thirty, and thirty-five years.

AGES.

Insurance will be granted at all ages from fifteen to sixty years.

PREMIUMS.

Premiums are payable annually during the continuance of the insurance, or annually during a period of five, ten, fifteen, or twenty years within the insurance term, or by single payment.

DIVIDENDS.

All Whole Life and Endowment Policies, issued at the rates published herewith, will participate in the surplus from the date of issue.

The dividends will be declared and paid annually upon the contribution plan and may be applied as the assured shall elect, either to reduce future premiums, or to increase the Cash Value of the Policy.

If no election be made the dividends will be added to the Cash Values.

When, by adding the dividends to the Cash Value, the accumulations on any Policy shall have become sufficient to keep the same in force for its *full amount*, without further payments, the assured may, at his option, either continue payment of premiums—and enlarge thereby the annual additions to its Cash Values—or discontinue them; and in either case, when the accumulations shall have become equal to the sum insured, the annual dividends on the Policy will be declared as a per centage of said sum, and paid in cash, and upon termination of said Policy the sum insured thereby will be paid in *full*, without regard to the time fixed therein for its payment.

The system of applying the dividends is peculiarly advantageous to the assured, securing, as an increased age, not only relief from further payment of premiums, but, at the same time, an annual increase until death, unless he shall have previously received full payment of the Policy.

Dividends on paid-up Policies—that is, Policies which require no further payment of premium to continue them in force for the original amount of insurance—will be paid in cash upon demand.

NON-FORFEITURE RULES.

No whole Life or Endowment Policy, on which two or more annual cash premiums have been paid, shall be forfeited by failure to make further payment as stipulated therein, but will continue in force for the full amount which the Cash Value and dividends, then accumulated, will purchase, taken as a single net premium, upon the "Actuaries" rate of mortality and four per cent. interest; and the amount continued in force will generally exceed the aggregate of the payments actually made, extra charges excepted.

RAILROADS.

TO SHIPPERS.

NORTH CAROLINA

ALL STATE

RAILWAY LINES, (THAT USED TO BE!)

THE OLD RALEIGH & GASTON RAIL ROAD, THE SHORTEST, QUICKEST, SAFEST AND BEST LINE, NORTH AND SOUTH, TO BE LEFT OUT IN THE COLD, UNLESS SHIPPERS SPECIALLY SAY VIA R. & G. R. R!

WE inaugurated and are the *Great through Inland Air Line Route* to all the Northern Markets, and have successfully worked the Line to the entire satisfaction of shippers. North and South, for the last ten years, as over ten Thousand Shippers in North and South Carolina will testify. We paid the State near Seven Hundred Thousand Dollars for her interest in this Road—thereby saving the people from Taxation for all time to come $40,000 per year; and we unhesitatingly declare that we can and will give more dispatch to all points, North and South, than any other Line.

NOTICE!

The Great Inland Air Line Freight

R O U T E,

Via THE RALEIGH & GASTON RAIL ROAD,

is the Short Line for Shippers, and you are required so to direct your Freights, or they will be taken by another Route!

To insure your Freight being carried over this *Great* Inland Air Line safely, direct your consignees to mark your Freight, Care of Rail Road Agent, Portsmouth, Va., or City Point, Va., *via Raleigh & Gaston Rail Road,* and to ship as follows:

FROM BOSTON:
Merchants' & Miner's Line, end of Central Wharf, E. Sampson, Agent.

FROM NEW YORK:
Old Dominion Steamship Co., Shipping Point, Pier 37, North River, Foot Beach St., Office 187, Greenwich St. Cor. Dey; N. L. McCready, President.

FROM PHILADELPHIA:
(Via Annamessex,) Philadelphia, Wilmington and Baltimore Depot, or Clyde's Line of Steamers, 14 N. Delaware Avenue, W. P. Clyde, Agent.

FROM BALTIMORE:
Baltimore Steam Packet Co., Bay Line Steamers, Pier Union Dock, L. B. Parks, Agent; or Powhatan Steam Boat Co., 97 Light Street Wharf.
