JOSIAH TURNER, Jr., EDITOR.

THE ALABAMA TRAGEDY.

FURTHER PARTICULARS OF THE KILLING OF THE TWO PILLOWS.

A few days since we gave an account of the shocking assassination of Messrs. Granville and William Pillow near Leighton, in North Alabama. The Nashville *Union and Dispatch* has since received more full details from reliable parties residing in the immediate vicinity who are fully cognizant of the facts, and whose statements substantially corroborate our version of the affair. The details are enough to sicken the heart and curdle the blood of humanity.

On Sunday night, the 9th inst., Capt. Granville H. Pillow, was sitting in his room, about 10 o'clock, reading, when some one knocked at his door. He asked who it was, and the names of two neighboring boys were given. He arose and opened the door, when a shot gun was fired, the load taking effect in his mouth and chin, knocking out several of his teeth, and one shot passing out behind the ear. They were buck shot. He then arose and ran to a window in the rear of the house, jumped out through a window some feet high, and ran to a neighbor's house and told what had happened. Some of the neighbors were sent for. While exhausted and in a dying condition, he lay down and soon became unable to speak, from the wound in his mouth. In about two hours after some of the neighbors had gathered in, the assassins returned in mask and stood around in the room for some time. And supposing he was not dying rapidly enough, they ordered all persons to leave the room, and then went to the bed and shot him in the stomach, with the same gun, after deliberately turning down the cover. They then went out and told the men they could now go back. When shot the last time, he simply groaned and turned over on his face, and the struggle of life was over.

His brother, a young man, who was staying with him, was missing, and could not be found until Tuesday morning, when he was found in a sink hole, about two miles from LaGrange. He had been hung, and then shot six times with a repeater, two of the balls taking effect in the head, and four in the body. Either four of the wounds would have been fatal. He was then cut down, leaving the leather strap still around his neck, and dragged to the sink hole and thrown in.

They were nephews of General Pillow, and were in the Confederate army. They were polite and affable gentlemen.

Of course there are many conjectures as to the murderers and the cause of the foul deed, but nothing definite is known. The community, we learn, seems determined to unravel the mystery.—*Knoxville Press.*

BEAUTIFUL INCIDENT.—In one of the schools there is a young girl who is a cripple. It is the custom of the teacher to allow her, when the scholars are dismissed, always to pass out first, in order that she may escape from the confusion attendant upon dismissal of so many children. On Monday last, when the alarm of fire was sounded, all the school-rooms were at once emptied of their contents. While in all of them they rushed out in dismay and fright, in some cases leaving everything behind, in the one where the lame child was there perfect quietness and order reigned. All the scholars, notwithstanding the noise and the apparent danger, remained quietly in their seats till their lame companion had gotten safely out and was secure from the rush; when they with a bound cleared the room. They thought of her safety before their own; neither fright nor selfishness induced them to provide for themselves until they saw her secure from peril. Such a display of consideration and kindness we have not heard of for many a day, and when we remember that it came from children, it becomes all the more touching and beautiful.—*Easton (Pa.) Free Press.*

KEROSENE LIGHTS PERFECTED!

DANFORD'S

Atmospheric

KEROSENE LAMP.

THE ONLY PERFECTLY SAFE LAMP IN USE.

Artificial light, of some sort, is a universal necessity; a safe, cheap, and brilliant one is not, is a luxury, too, only enjoyed heretofore by those living in large towns or cities where Gas is used. Years of study and thousands of dollars necessarily have been spent by experiments of different kinds, in trying to invent and perfect a Burner or Lamp by which Coal Oil or Kerosene could be burned practically, without the expense and trouble of chimneys; this long looked for and much desired subject has at last been obtained, and is styled the

ATMOSPHERIC KEROSENE LAMP!

It is adaptable to Dwellings, Churches, Halls, Stores, Hotels, Stores, &c., is unsurpassed in effect, this invention brings the newly discovered and brilliant Coal Light within the reach of all, whether in the City or Country. It gives as much light as one dollar candle power, for less than one cent per hour, or double the quantity of light of the ordinary chimney lamp with one third less oil; will burn, when turned down to a taper light ten hours for one cent; is free from smoke or smell; can be carried from room to room; the wind will not blow it out.

This Lamp is destined to supersede all portable artificial light or chimney lamps now in use, and needs only to be seen to be appreciated; every man of means will find many uses for one, and no family that uses this light for one evening will again be annoyed with the chimney lamp. Every such of them will be used to study by this light for one. Half the eye that Coal Gas and with more pleasure to the eyes.

The sole right for the sale of this Lamp can be had for the entire State or the same will be sold by Counties.

Parties purchasing will be supplied, at wholesale, with the lamp and fixtures, at reasonable rates.

Immediate application should be made to secure the choice of Counties.

The Company is now in full operation turning the day and evening at the Yarborough House.

All letters will receive prompt attention and full explanation of the Lamp given.

TO THE WORKING CLASS.—We are now prepared to furnish all classes with constant employment at home, the whole of the time or spare time only. The business is new, light and profitable. Persons of either sex easily earn from 50 cents to $5 per evening and a proportional sum by devoting their whole time to the business. Boys and girls earn nearly as much as men. That all who see this notice may send their address and test the business, we make this unparalleled offer: To all who are not well satisfied we will send $1 to pay for the trouble of writing. Full particulars, a valuable sample which will do to commence work on and a copy of Home and Fireside, one of the largest and best family newspapers published, all sent free by mail. Reader, if you want permanent, profitable work, address G. ALLEN & CO., Augusta, Maine.

SAW MILLS.

I AM PREPARED TO PUT UP DOUBLE GIN-ning Saw Mills in workman-like manner for those desiring them.

There are now 150 of these Mills in operation, and in no case have they failed to give entire satisfaction. One advantage of this Mill is, that the saw-gear, without changing its position, gives the feed-wheel and forward motion to the carriage with a single lever; and setting the log at both ends of the same time; this is a variety of one hand to the mill. This is no humbug. I am responsible for what I say. My residence is 20 miles South of Raleigh, on Neal's Creek. For further particulars address me at Raleigh, N. C.

F. J. WRAY.

I will be at Lynn Adams' Store on the last of the 5th of February, where persons desiring it see me will please call.

F. J. WRAY.

READ THE FOLLOWING.

Mr F. J. Wray, Dear Sir:—I am much pleased with my double Circular Saw Mill both of you. I can cut a fine Stranberry deep, at fast speed, in 25 seconds, with my 32 foot carriage travel. We have landing cut 8,000 feet, without breaking, clearing, and both board in eight hours.

Dec 23rd 1869. ALDRIDGE PARTIN.

Mr. F. J. Wray:—We are well pleased with our new double Circular Saw Mill, that you set up for us. We can say that the amount of lumber that we sawed with the old Mill of 6 inch saw and make water wheel.
