LARGE STOCK OF GOODS.—We extended two days ago to call special attention to the advertisement of A. G. Lee & Co., which then appeared for the first time in the SENTINEL. Their stock of leading groceries is large, and they are determined, by prompt and fair dealing to establish a custom in their line. They sell only by the case or package, and similar houses in the country would find it to their advantage to examine the stock and prices.

NINETY DAYS AFTER DATE, or at the first time, D. L. Royster, architect and builder, will have erected, completed and ready for occupancy, a new brick store, house on Wilmington street, between Davie & Morgan, adjoining his other large brick building erected last spring. Mr. Royster puts up the new building for Jordan Woon on Harget street, and an excellent job it is, and was completed in a little more than the time he began about it.

There are several other houses, some of them or unpainted, now being put down, they ought to be in keeping with the edifices, and which we hope to see before many months roll around.

REPORT.—We have on our table the "first Annual Report of the Board of Directors of the Penitentiary of the State, for the year ending 31st December, 1869," addressed to the General Assembly by Messrs. Weeks, Gibson and Bickett. The report is voluminous and contains much information in regard to the number and condition of the Asylums and Orphan and Work houses in the State. The manner of the Report was well devised, and has been arranged by Mr. W. J. Palmer, who acts as Clerk to the Board, and his work is well done. We shall refer to the *matter* of the Report hereafter more particularly.

SOMETHING NEW.—Hutchings, at his Saddle and Harness establishment on Fayetteville Street, is putting up a new style of saddle, something after the pattern of the "McClellan Saddle," and which he can sell five dollars cheaper than the New York retail price. But he is entitled to choose a name for it, and as we have no "Yankee" articles in our market yet, we suggest that he call this new saddle the "Secesh."

MARCH.—Yesterday was a genuine March day, cold, blustering and disagreeable generally, a day in which signs swing creakingly, and lady pedestrians who chanced to be out, wished either were on foot—or then a-bed. Indeed, night—[illegible] alarm, making prospect dismal. Even the bell was loath to the Reformation Together, to deliberate, probably engaged in the Speaker-ship of the House, the Hon. Joseph Williams having resigned that position yesterday, making the election of another Speaker, by the balance of the session necessary.

GONE TO FIDDLETON.—The robins in Orange, having been so much disturbed in their slumbers on Shaw's Creek, have changed their roost to Fiddleton, near the Person line. On Friday last, a son of Mr Berry, at the latter place, caught 404 of these birds with a "deal fall," such as the boys set to catch birds in a snow.

The Salisbury *Examiner* says that 1,500 robins were recently killed near Rowan Mills which beats Fletcher Parks and the Hillsboro boys two to one. A Virginian acquaintance of ours used to say that he never saw but one lawsuit, and then his adversary "find the last sweet" on him. The *Examiner* has had the last say about the robins and has beat us; but we may come back on him with the 404 caught with a "deal fall," and see what he has to say to that—we shall not meddle a single bird.

The crew of clerks just appointed for the city of Raleigh was sworn in by his honor the Mayor, on Thursday last. The people were not called in to witness the ceremony, but it is said that a good deal of work is ready for them to do in the line of registration.

So says the Wilmington *Star* but the *Star* was evidently mistaken, for only the watchful eye of the police was kept upon the premises of the bar-keeper, and he was not arrested.

Gen. Canby has issued an order directing that the Registration Committee of Virginia shall proceed to register the voters of that State, and that the election shall be held on the 29th of June next. Gen. Canby is also directed to appoint a Board of Canvassers, to canvass the votes and declare the result of the election.

Quakeress & Boy.—Quite a novel sight was viewed in the streets of Fayetteville on the occasion of the recent fair. A Quakeress, from Jericho, had her self-driven jumping-out-and-run-away horse and buggy, and a boy, water-bucket on his arm. The boy, after securing the horse, took it to the water-bucket and quenched the thirst of the animal, and then returned the bucket to the boy. The Quakeress, with a pleasant countenance, thanked the boy, and then, with the buggy, left for home. We commend the example of the Quakeress to the drivers of fast horses, and the example of the boy to the owners of water-buckets, hoping that the former will be kept in the stable and the latter will be kept filled with water.
