The above Fluid has been in constant use for upwards of three years, and has sustained its warranted reputation, as a brilliant, non-explosive illuminating agent, though subjected to the severest tests. Being universally conceded to be superior to Kerosene or Coal Oil. It makes a better light and more of it, than any other illuminating material. Safe, clean, handy and inexpensive. All that is asked is, a fair and impartial trial.

Among the numerous testimonials received read One following:

PHILADELPHIA, March 15th, 1869.

The undersigned, having examined the experiments of Messrs. Hall & Co., with their Combination burning Fluid, take pleasure in commending it to the public. The various tests to which the Fluid was subjected, was in the highest degree satisfactory. We have no hesitation in pronouncing it to be a safe and brilliant illuminating agent. Its cheapness added to its other good qualities, should insure its introduction into every family in the country, where Kerosene Oil is used.
