WALTHAM WATCHES.

THE PECULIARITY OF THESE WATCHES for durable time-keeping and general reliability, is the result of the Thirteen years of extensive and thoroughly American character of the Company's business, operating with unlimited capital, and employing the most skilful mechanical talent and artistic genius that can be commanded in the country. The Company has always aimed to produce the best Watch that could be made, and has succeeded in placing upon the market a class of watches unsurpassed for accuracy and durability. It is doubtless the greatest manufacturing establishment in the world, and the only one in which every part of a watch is made under one roof.

Among the many improvements we would particularize:

The improvement and use of a compensation of positive construction, to prevent damage to the train by the breaking of main spring; invented only by the American Watch Company, who, having had the patent of all other horizontal adjustments, adopted Pogg's Patent pivots to bring the best and finished.

Hitherto, and properly too, the Watch was universally admitted by watchmakers to be the best, are used in all grades of Waltham Watches.

All Waltham Watches have the improved, protecting the movement from dust and moisture, thereby the necessity of the frequent cleaning so necessary in other watches.

Our new patent stem-winder, or keyless watch, is already admitted superior and a great improvement on our stem-winding watch in the American market, and as for the cheapest watch of its quality now offered to the public. To those living in portions of the United States where watchmakers desire abroad, watches with the above qualities of improvements which could be procured anywhere, therefore, durability and economy, have proved invaluable.

Every watch guaranteed by the Company.

To prevent imposition, buyers should see that every watch they buy either of the following trade marks.

American Watch Co.,	Waltham, Mass.
Amer. Watch Co.,	Waltham, Mass.
Assorted Watch Co.,	Waltham, Mass.
