The Globe has peculiar claims upon the Southern country, from having first introduced the non-forfeitable feature in all its policies. Its President, Mr. Frank Freeman, was the inventor of the ten-year, non-forfeitable plan, and introduced it in the Company with which he was then connected.

The Globe takes no notes; but receives its premiums in cash, and pays its policies in cash, without deduction.

To those desiring it, the Company will issue policies, registered and certified by the Superintendent of the Insurance Department of New York, as "secured by pledge of public stock."

THE MOST SUCCESSFUL CASH COMPANY IN THE WEST!

The stock of this Company is owned by the Capitalists of Louisville, Ky., and St. Louis, Mo. It is the only one of its kind in the West. The De Soto has no desire to cash its assets over those of other good Companies, and to prosper on the decline of others, laboring in the same fields, and for the same grand object. Consideration of the capital of this Company, of whatever age or standing, is willing to labor for the success of the Company, and to receive the public confidence for its energy, industry, and liberal spirit.

From the Missouri Republican.

The Company has started out with such enviable and glittering prospects of success, and under such favorable auspices. The Company has been extremely fortunate in the selection of its Directors. Its President, James P. Lucas, needs not a word of commendation from us. He enjoys a general reputation as a gentleman of wealth, unquestioned integrity, practical good sense, and sound judgment and splendid business capacity.

The Directors rank among the first class of our merchants, bankers and citizens, as men of capital, financial ability and experience; men of probity and unblemished reputation. In the character of such a Directory, the Company has the best guarantee that the business of the Company will be prudently and judiciously managed.

Policy issued on all the popular p.a.s. and all Non-Fortelling.

Policy-holders may travel by the usual mode of conveyance, either by land, river, lake or ocean, in any portion of the United States and Territories, the settled portions of the two Canadian Provinces and New Brunswick, and in time of peace may cross and recross the Atlantic Ocean by the usual passenger routes, and to travel and reside within any portion of Europe.

No Life Insurance Company in the United States offers superior advantages for investment, than the St. Louis Mutual. It is managed by gentlemen of the highest standing, and it enjoys the largest confidence of those acquainted with American Companies, and its investments are made on the most solid basis, being principally in improved real estate, which yields a steady income, and its profits are distributed in regular quarterly dividends.

All its Policies are non-forfeitable, and all participate in dividends from the beginning. Dividends declared and applied annually to policy holders on the contribution plan. The Company is strictly Mutual, and the profits of the business are paid out in stockholdings to its policy holders.

An equitable surrender value paid to all who through misfortune are unable to keep up their policies.
