THE SENTINEL.

CITY AND STATE ITEMS.

Mr. Thos. N. Ramsay, as Business Clerk, is authorized to make contracts and give receipts, &c., &c.

CONSERVATIVE MEETING.

There will be a meeting of the Duly appointed Conservatives of this City, at the Court House, on Saturday evening next, at eight o'clock, for the purpose of appointing delegates to the District Convention, which is to be held at Franklinton.

County Convention.—It is suggested by a number of our friends, that Saturday, the 4th of June, be fixed on as the day for holding our County Convention, especially for the purpose of nominating delegates to the District Convention at Franklinton, on the 8th and 7th of June. We suggest that the Township meeting called at the Court House to-morrow evening, consider the propriety of agreeing on the day named.

Attention Cherokees!—You are requested to meet at your usual place of meeting to night at 9 o'clock. A. L. ADAMS.

Cages.—Passing by Friend Longee's Tin Store to-day, we noticed that he has on hand a good assortment of cages for canary and mocking birds, and also, squirrel cages. This is the season for using these things and we mention them that those in want may know where to find them.

Singular Accident.—We have a rooster—a very fine bird, of the 'Wild Indian' stock, which was presented to us by a friend at the State Fair, last Fall. This rooster, flying down from a slight elevation, a few days ago, and lighting upon a piece of split wood, stuck a splinter in his foot, or rather, through his foot, by which he is rendered unable to walk a step. It is the first time we ever knew a domestic fowl of any kind to meet with such an accident.

Turtle Soup.—Pepper and O'Conner will have some of this excellent soup to-morrow at 11 o'clock. Families, by applying early, can be supplied. Try it.

Club Celebration.—The "Ugly Club" of Davidson College wants us to come to the annual celebration on the 20th inst., but we have no idea of bringing our phiz in competition with the prize mugs and cockeyes of that set, and thus spoil their prospects of medals.

Washington Female College.—The annual commencement exercises of this flourishing institution, after a year of great success, will be held on the 2nd of June, prox., at which time the Concert by the music classes will form one of the attractive features.

We acknowledge the courtesy of an invitation to be present, of which we, the local, will avail, if our engagements at the time will permit.

How to get Flour Cheap.—The Editor and the Local of the Sentinel received, each, a barrel of flour from New York, some time ago, through the General Supply Agency of W. H. Avera of Wake Forest, and having fully tested its quality, are prepared to speak of it as it deserves.

In the first place, then, the flour is of superior quality, being strictly "family," live and white.

In the second place, it being purchased directly on the Flour Exchange in New York, by a dealer who purchases only in large quantities and to fill orders, those ordering through this Agency are always sure to get a *fresh* article, and to get it at the very lowest market price, and, by a special arrangement, the freights on flour thus ordered are extremely moderate.—Flour buyers would be astonished to learn the low price at which such flour as that we received can be bought.

All the necessary information on this subject, as to price, quality, manner of ordering, &c., can be obtained on application to W. H. Avera, Wake Forest, to whom we refer flour dealers and private buyers, with a confidence that they will find it to their advantage to correspond with him on the subject.

Jno. D. Emerson of Williamston writes that we have done him some injustice in some article in the Sentinel; we don't know what he alludes to—don't recollect ever hearing the name to him. What was the article about? when was it published? He says it was on the 1st of May, but that being Sunday, we didn't issue any paper on that day.

Notice—Beneficial to all Whom it may Concern.—Persons indebted to the undersigned, will come forward and settle within 15 days from date, if not their names, amounts (and what for) will be published for 30 days.

Office Supervisor Int. Revenue,
Dist. of North and S. Carolina,
Raleigh, May 20th, 1870.

Hon. Josiah Turner, Editor Sentinel:

Sir:—Herewith I hand you comparison of annual lists in my District for 1869-'70. The increase about 22 per cent., considering the general depression of business the past year, is an indication of the energy and faithfulness of the several Assessors and their Assistants.

Very Respectfully,
P. W. PERRY,
Supervisor.

WARNING TO HUSBANDS.

The great want of women at present is money—money for their personal wants, and money to carry out their plans. I propose that they shall earn, that they shall consider it as honorable to work for money as for board, and I demand for them equal pay for equal work. I demand, that the rearing and rearing of children, the most exacting of employments, and involving the most terrible risks, shall be the best paid work in the world, and husbands shall treat their wives with at least as much consideration, and acknowledge them entitled to as much money, as wet nurses.

The meaning of this is, that wives are about to strike for greenbacks; so much for every baby born. No greenbacks, no more population, no more boys to carry on the great enterprises of the age. The scales of prices for maternal duties are as follows:

Girl babies,	$100
Boy babies,	200
Twin babies,	300
Twins (both boys,)	400
Triplets,	600
Triplets, (all boys,)	1,000

Terms—C. O. D. No credit beyond first child, the motto being, "Pay upper dry up." Husbands who desire to transmit their names to posterity will please notice and take a new departure.—*Revolution.*

Valuable and Reliable.—"Brown's *Bronchial Troches*" will be found invaluable to those exposed to sudden change, affording prompt relief in cases of Coughs, Colds, etc. For Public Speakers and Singers, and those who *over-tax* the voice, they are useful in relieving an irritated Throat, and will render articulation easy. *As there are imitations, be sure to obtain the genuine.*

The Wear and Tear of Business Life.

The cares and labors of business life are apt to fall severely upon the health and constitution of the ardent, energetic business man, and at times he needs some cleansing agent as it is, stimulants that cause only a temporary exhilaration, and leave the system in a state of greater prostration when their first effect has passed off. Such men often resort to. An certainly as there is power behind it a restoration of sober, the use of the differential liquors of commerce produces premature exhaustion and impairs the digestive organs. Tone and regulate the over-taxed vital machinery with Hostetter's Stomach Bitters. In this wholesome elixir, the alcoholic element, which in the purest distillation from any source, is supposed by the eminent chemists, engineers, and mineralogists of the country, to be a valuable agent in relieving nervous and mental exhaustion, fevers, fevers and agues, dyspepsia, biliary and kidney complaints, and rheumatism. It is also a genial promoter of sleep, and a general invigorant. Sold by all Druggists and Dealers generally.

(Thursday Night Dispatches.

WASHINGTON.

Washington, May 19.—Mr. Jacobson, a member of the 42d of this city, appears by Yesterday's Associated Press dispatches, to be Attorney for the Southern District of Mississippi.

The Senate Revenue investigation is about drawing to a close. The chief trouble seems to be about paper. Everybody is under oath.

One of the Judges of Wyoming Territory has reversed the seizure of certain portions of the Pacific Railroad. Several Senators and Representatives demand the removal of the Judge, and the President promises to consider the matter in the Attorney General. The charges are generally believed to be idle, and are pressed by Pollygamists against Judge Field, of the Supreme Court, with a view to his impeachment. The best Californians people say the charges are mere spite.

In the Southern Pacific Railroad bill as reported by the Senate Committee, a provision is made that 50 miles shall be built in the second year of the "Western" end of the road, to connect road at the "Eastern" terminus" the question of usage was carried in the Committee by a vote to [illegible]. It is generally understood that the action provided regarding the gauge, will be struck out of the bill, thus leaving the gauge determined by the Company, or the first the gauge will be established.

Senate.—A memorial was presented representing that unexamined estimates of swamp land caused vote unless [illegible] to the real [illegible] and asking remedy therefor.

Bills to appoint an appraiser of merchandise at Mobile, and to reduce taxation, were favorably reported.

The bill to enforce the 15th amendment was discussed.

Hamilton of Maryland said it would practically repeal all registration laws, and that if passed, no one would be safe in talking to a negro before an election, because he (the negro) was to have the right upon his affidavit to cause the arrest of any man he might charge with a supposed interference with his rights.

Schurz admitted the truth of the democracy charges that his party had revolutionized the Constitution by the 13th and other amendments, and argued that the changes in the governmental policy, caused by the war, was a revolution that secured individual rights in the states.

Pool took the position that Congress could unconstitutionally enter a State and deal directly with the rights of electors. That the prerogatives of citizenship could not safely be left to the caprice of the States.

Howard said that the right of the black man to vote in the South would for half a century yet be the only safeguard for peace and the national authority. If the rebel leaders ever came into power again the war would have to be fought over. The South had lost their property and their boasting party but for the generations yet to come they would not lose their unquenchable hatred of Northern society and Northern government. In case of a foreign war we would see a disposition on the South to join the enemy so as to put down this power, more which they so hate.

Morton said he believed the Republican party had a right to [illegible] and [illegible] and would [illegible] to [illegible] cause. His personal pride would never allow him to see his name on the same [illegible] of yeas and nays with [illegible] traitors and enemies of his country.

The Judiciary Committee presented a report on the investigation as to corrupt means and influences employed to bear on the matter in order to secure the passage of the Georgia bill. The testimony is voluminous.

House.—A very bitter discussion occurred upon the feature in the appropriation bill, which provides for sending a minister to Rome. Sharp passages took place between Bingham and Voorhees, each of being that the other was playing for the Catholic vote.

Banks made a personal explanation, defending the San Domingo treaty, that the ability of this government, combined upon the acquisition of the neighboring islands.

Bonds to-day $678,000.

Governor Geary of Pennsylvania interviewed the President to-day.

The War Department places the army at the disposal of General Sheridan.

The Senate Committee on Foreign Relations discussed "Cuba" this morning, but took no action.

The revenue assessments for North and South Carolina shows an increase of 22 per cent over last year.

PENNSYLVANIA.

Philadelphia, May 19.—The General Assembly of the United Presbyterian Church convened this morning. The proceedings were opened with prayer by Rev. M. W. Leonard, Allegheny, Pennsylvania, Moderator of the last General Assembly, which was followed by a sermon on "One Spirit and one body, the head of the Christian Church," by Rev. T. H. Baxter D. D. of Utica, N. Y., the Moderator of the last New Orleans Assembly.

FOREIGN.

London, May 19.—The Times has a remarkably bitter editorial article on the alleged mismanagement of the Erie Railroad affairs and the course pursued in relation to its shares in the stock market. The writer asserts that the standard of commercial morality is lower in New York than in any other city in the world. What here in England would be deemed crimes, are there regarded as master-pieces of financiering.

It is said in the Alsacian people [illegible] arrest of the French.

The Times says [illegible] "on the yacht question, and says that there is no schooner in England that can sail with the American "dappho," which throughout the match was handled by an English Captain and crew.

The Daily News declares that the telegram published on Tuesday morning by the Central Press Association, announcing the award of the prize to the Dappho, was premature. It was late yesterday afternoon when the Dappho was announced winner. The owners arrived at this conclusion from the U. S. data having disregarded official instructions regulating the race, but which were faithfully obeyed by the Dappho.

The Telegraph has a sensational paragraph giving the strength and plans of the Fenian organization in this country.

The news from Spain today is important though conflicting; dispatches received from Madrid during the night state that the Council of Ministers have determined to confer upon Serrano, Royal Attributes, if no candidate for the throne is found within a reasonably short time. On the other hand, some of the continental news agents have just forwarded telegrams to the effect that the Regency will thrust the crown upon Espartero in default of any other candidate.

It is believed in some quarters that his refusal to decline the crown is but absolute and final.

Paris, May 19.—The police made several more arrests to day of persons believed to be connected with the regicide.

Some Bonaps were searched and more bonds were found.

Toronto, May 19.—The *Globe* and *Telegraph* have strong articles in favor of building a canal on British ground, &c.

Collingwood, May 19.—The steamer Chicora arrived at 7 o'clock this evening having again been refused permission to pass through Sault St. Marie Canal. Col. Boston, commanding the British forces, waited on Gen. Cooke, commanding the District, and asked the intentions of the American government with regard to the Canada. Gen. Cooke replied: "My instructions are simple. Nothing whatever connected with the Red River expedition can pass the Canal. I must, therefore, absolutely refuse to allow the Chicora to pass."
