

THE SENTINEL.

CITY AND STATE ITEMS.

SUNDAY, JUNE 11, 1865.

Mr. T. H. RANSAY, the Auditor Clerk, is authorized to make contracts and give receipts, &c., &c.

In a Show.—If we should fall below the usual mark, for the next few days, in giving the various columns of the following news, it will be attributed to the fact that the Editor left on a speech-making expedition, and has taken advantage of his absence to do something in the way of renovating, repairing and rearranging the office. Every thing is piled up in the middle of the room, and the world goes round the walls, while dust is as thick (nearly) as the mud on Fayetteville street. In short, we are in a considerable state of a shew.

MERCHANTS FIRE COMPANY, No. 2.—This Company is now fully organized, with about forty active, reliable members. We have had a hard time in getting it well organized, and the expense is very heavy and they have so funds at present. A Committee was appointed to visit our citizens, and solicit subscriptions, to purchase the caps and belts each member agreeing to furnish the balance of his uniform. As this is the only Company in the city that is not uniformed, we hope our citizens will respond liberally when called on by the Committee and give them the help they ask.

RADICAL COUNTY CONVENTION.—The Radical Convention for Wake County is in session in the Court House here to-day. Dr. Banks Chairman. A committee to propose candidates for county offices and for the Legislature has been appointed, and at the time of this writing (6 o'clock, P. M.) have not made their post.

There have been a large number of new buildings erected recently, more we suppose, than were already standing at the close of the war. Among the rest was one the Judge himself had put up just far enough outside the corporate limits to escape the noise of the town, on one of the most beautiful sites in the vicinity, and is capable of being made one of the handsomest residences in the State.

Of course we visited the Judge's, where we found everything in that neat and quiet order in which a printing office should always be kept, with his new power places and everything necessary to a complete establishment; the very kind of office, a short, simple, bright, and neat starting-paper of the *Newspaper* might be supposed to emanate from.

We visited the Ladies' Fair, gotten up, and very successfully, we judge, to raise funds for building an Episcopal Church in Weldon, where we met a number of our lady acquaintances and spent a most pleasant hour.

The Agricultural meeting, which was the feature of the occasion, was a decided success. We deem it unnecessary, after this lapse of time, to give particulars of the proceedings. An Agricultural Society was formed, officers elected and funds raised or pledged for the holding of a Fair at Weldon some time this Fall. We have no doubt the Fair will be a grand one, for they have the right men hold of it, and every facility in regard to location and otherwise, to make it such. So mote it be.

HANOVER.—On some of the farms in this and adjoining counties, where the lands are of such a character as not to be unfavorably affected by the wet weather we have had, the wheat harvest has commenced. We have heard of several who have commenced cutting their early wheat, and by next week the harvest will have opened in earnest.

Owing to the continued rains for the last two or three weeks, farmers have had a bad chance to put their corn and cotton crops in a proper condition to give them a chance to cut their grain, and consequently, there will be a tremendous strain on the labor of the country for the next four or five weeks. Every body disposed to work will be able to find enough of it to do.

GOMEZ TO TAMPA.—**TAMPA HALL.**—Templin's Company gave another of their graceful and pleasant entertainments at Tampa Hall last evening and were patronized by a large audience. Although Mr. Templin and the Misses Vans fully sustained their reputations as artists of the first distinction, yet little Mr. Templin, by her exquisite condition her role, was the centre of attraction. This charming girl, not quite, only nine or six years, exhibited extraordinary talents, and will doubtless some day be the brightest star of her profession.

To-night, Fashion, the Cricket, will be rendered, and we hope, greeted with a full house.

We have received on the streets but a letter from our friend from "W. W." Joe. T. Moore, our late Representative in Congress, stating that he intends to send the written receipt for his last nomination.

We tell you James Harris, you had better close with the \$5,000 offer or you may be chucked into the stocks, and out again.

Now we do not set up for a prophet, but we venture the prediction that James comes to be a candidate within the next six weeks.

We tell the country people to see James closely for he will certainly tell them all.

FOOTBALL FIELD.—We learn that this will make the most important to its operations for the past two weeks, owing to the washing away of about one hundred yards of the hill will render operations in full force next week. The government however, has consequently to keep a full stock of all grades of news paper, bookbinder and wrapping paper.

ROBERT'S FURNITURE.—Your furniture are well and thoroughly known to real connoisseurs.

"*Robert's Furniture*" is the name given to the furniture which may always be seen in your parlor, that makes it the most comfortable and convenient.

It is said that Andrew Jackson Jones, writer of "John Brown," you & I, are instrumental in securing his nomination.

If this is true, Jones is good for the nomination, unless Dickey is able to get 20,000 and raise him slightly.

So the reason, No.—Gentlemen and ladies, who have their beds constructed with padding and the like, may inquire of Robert's Furniture, Yards, on the corner of the Main Street of the City.
