JOSIAH TURNER, Jr., EDITOR.

From the New York Sun.

THE NEW ATTORNEY GENERAL.

Amos T. Akerman was born in Portsmouth, N. H., in 1823, and graduated at Dartmouth College, and went South in 1843, and took up his residence in Abbeville, the county seat of Elbert county, about 70 miles north of Augusta, where he studied law under Judge Bryan, and joined the Whig party, with whom he acted until 1860, when he at first opposed the secession of his adopted State, but finally he succumbed to the pressure and enlisted

IN THE REBEL ARMY,

and was given a place upon the staff of the rebel General Toombs, with whom he was a great favorite. He did not, however, win any special distinction upon the field of battle, and never rose even to the rank of General, when the bubble burst,

and urged upon the people that they try to make the best of what was left, and recuperate as soon as possible. In 1868, though not professing Republicanism, he saw Grant was the coming power and announced himself in his favor for the Presidency, and his name was finally placed at the head of Grant's electoral ticket in Georgia. When Grant came into power his disabilities were removed, and he was made District Attorney for Georgia, which position he now holds, having been confirmed by the Senate because he was the best of all the material there. He was a member of the Constitutional Convention which made the present Constitution of Georgia, and in that body tried to get a clause in which would allow colored men to hold office. He was opposed to Bullock being made Provisional Governor. Did not support him then, and does not now.

Last winter, when the South was being hunted over for a Supreme Judge, the President found him, and told several Senators if Bradley was not confirmed, he would nominate Mr. Akerman for that office. The little danger that Bradley was in then of being rejected quickly vanished, and he was promptly confirmed, as the Senate had dread of going upon the Supreme Bench a man who had worn the rebel uniform, and they disliked to have any quarrel with the President.

Mr. Akerman was not a candidate for this position, and is not acquainted with a member of the Cabinet, and has no experience whatever in national politics, or in that line of opinions in which an Attorney General is called upon to decide. He is now in Elberton or Augusta, Ga., and the first intelligence he will receive of the prize he has drawn in the grand national lottery will be the telegram he sees in the newspapers, or the arrival of the letter from the President tendering him the place.

ANTIQUITY OF MAN IN THE UNITED STATES.—Col. Charles Whittlesey has obtained evidence of the existence of two races of men, and possibly of a third intermediate race, as having held possession of the northern portion of the American continent—the more recent of them being the North American Indian or red man; the earlier race he terms the mound builders. The antiquaries of Europe regard the people who used flint instruments as being prior to those who had implements of stone; and the latter, again, as older than the races using bronze or other metals. In the United States the race next prior to the white man had very few implements of stone; their knives and arrowheads, their war implements, and their agricultural tools were almost entirely of flint; they had very few and rude instruments of native copper. The mound builders, on the contrary, who preceded the red men, produced and used tools in the reverse order; their axes, adzes, mauls were very numerous, and sometimes of stone; their copper tools abundant; but those of flint very rare. Hence, in this instance, the most ancient people were the most industrious; they cultivated the soil; they possessed more mechanical ingenuity, and left more prominent and permanent monuments. On the Atlantic coast, from Nova Scotia to Florida, are numerous shell heaps, identical with those of Sweden, Norway and Denmark, and known as Kjokken moddings. The examination of several of these heaps of the wolf, deer, bear, rabbit, etc., mixed with skulls of the red race, and not dating back apparently more than 2000 years. Col. Whittlesey estimates 5000 years as the period also of occupation by the mound building race, which does not take us back as far as the beginning of the historical period in Asia and Africa.

BARGAIN, INTRIGUE AND CORRUPTION.—It is publicly charged in the papers and on the stump and elsewhere, and is, the presence of the parties, that Judge Thomas Bidden Scott's desires to leave the Supreme Court Bench, and put thereon in his place Samuel F. Phillips, Esq. To effect this change Samuel has been nominated for Attorney General, and is now engaged in canvassing the State. It is hoped that he will be able to give such aid as will enable the Radicals to certainly elect a majority of the next Legislature. If this end is effected, then Thomas Bridge Settle is to be elected to the Senate of the United States instead of Joseph C. Abbott; and S. F. Phillips, the great calculator, is to be elected to the Supreme Court bench to fill the vacancy occasioned by the timely resignation of Thomas Bridge Settle, and my son, Louis Olds, will be re-appointed by his Excellency, William Woods Holden, Attorney General.

In other days such corrupt, scheming politicians would be put out, denounced by every honest man in the State, but in disgraceful disregard draws from every stand the multitudes plaudits of delusory. But the people have become so indifferent to these things that the office holders promise upon their ignorance or indifference to do as they please. No wonder the country mourns.—Greensboro' Patriot.

An enterprising female physician having opened to the public and proprietors a medical lecture to the working women of London, in which, amongst much good advice, she inculcated as admonition to the poor women to stand to the "wine rule" of the bordering the household with more cleanliness than is usual, but which, she said, could be answered by attending to certain "physiological laws" which could be explained by Dr. G. T. Shepherd was applied to by a London physician to say what the physiological laws the young female refused to learn. He suggested that they should not exist, but having the same opportunity of learning them as an ordinary spinster.

TO THE MERCHANTS OF NORTH CAROLINA.

WYCHE, PARKER & CO.

No. 60, SYCAMORE STREET,

Petersburg, Va.

IN calling your attention to our Stock of Goods and Shoes, for the Spring of 1870, We desire to return our thanks for the liberal manner in which our efforts to establish a first class wholesale shoe House in Petersburg, have been met and to assure you that no exertion on our part, will be spared to merit your favors in the future.

Possessed of long experience in our business and a determination to extend our trade, we are confident in asserting that we can and will offer inducements to purchasers superior to any heretofore made.

Our stock, which has been carefully selected in the Eastern markets during the time when manufacturers were compelled to have the greater part of our Stock ready to order, thereby giving the consumers the advantage over accepted and cancelled orders, which are generally of an inferior quality.

WE SOLICIT AN EXAMINATION OF OUR STOCK.

Yours Truly,

WYCHE, PARKER & CO.

MISCELLANEOUS.

WALTHAM

WATCHES.

THE EXTENSIVE USE OF THESE WATCHES for the last fifteen years, by Railway Conductors, Engineers, and Expressmen, the most exacting of watch-wearers, has thoroughly demonstrated the strength, excellence, durability and accuracy of the Waltham Watch. To satisfy that class in all these respects, is to decide the question as to the real value of these timekeepers.

More than 450 000 of these watches are now speaking for themselves in the pockets of the people—a proof and a guarantee of their superiority over all others.

The superior organization and great extent of the Company's Works at Waltham, enable them to produce watches at a price which renders competition futile, and those who buy any other watch, merely pay from 25 to 50 per Cent. more for their watches than is necessary.

We are now selling Waltham Watches at less prices to greenbacks, than the gold prices before the war. There is no other manufacture of any kind in the United States of which this can be said.

These time-pieces combine every improvement that a long experience has proved of real practical use. Having had the record of nearly every invention in watchmaking originating in this country or in Europe, only those were finally adopted which, several testing by the most skillful artizans in our works, and long use on the part of the public demonstrated to be essential to correct and enduring time-keeping.

Among the many improvements we would particularize:

The invention and use of a center-piece of peculiar construction, to prevent damage to the train by the breakage of main springs, is original with the American Watch Company, who, having had the refusal of all other contrivances, adopted Dent & Fogg's Patent pinion as being the best and fruitless.

Hardened and tempered hair springs, also universally admired by watchmakers to be the best, are used in all grades of Waltham Watches.

All Waltham Watches have dust-proof caps, protecting the personnel from dust and insuring the necessity of the frequent cleaning necessary in other watches.

Our new patent stem-winder, or keyless watch, is already a decided success and a great improvement on any stem-winding watch in the American market, and by far the cheapest watch of its quality now offered to the public. To those living in portions of the United States where watchmakers do not abound, watches with the above decided improvements which tend to insure accuracy, steadiness, durability and convenience, must prove invaluable.

Every watch guaranteed by the Company.

To prevent imposition, buyers should see that every watch should bear either of the following trade marks:

American Watch Co., Waltham, Mass.
Amn. Watch Co. " Waltham, Mass.
American Watch Co.,
Crescent St., " Waltham, Mass.
Appleton, Tracy & Co., " Waltham, Mass.
Waltham Watch Co., " Waltham, Mass.
P. S. Bartlett, " Waltham, Mass.
Wm. Ellery, " Waltham, Mass.
Home Watch Co., " Boston, Mass.

For sale at retail by all responsible dealers.

A descriptive circular giving much useful information sent to any address on application.

No watches retailed by the Company.

Address,

ROBBINS & APPLETON,

Gen'l Agents.

182 Broadway, New York.

Ask to see the new FULL-PLATE WATCH bearing the trade mark "AMERICAN WATCH Co. Crescent st., Waltham, Mass." It is by far the best Full-plate Watch made in the United States, and surpasses anything heretofore made in this country for Railway Engineers, Conductors, &c.

STRAW GOODS! STRAW GOODS!

Ladies' and Misses' Hats and Bonnets, trimmed and untrimmed, from cheap to elegant. By which the entire hats and bonnets, from cheap to elegant. By which the entire hats and bonnets, from cheap to elegant.

HATS! HATS! HATS!

For Men and Boys. Just received a fine assortment. Hear in mind you can get suited to your taste in hats, and at prices to suit the times. Will you do me the favor to call and see us.

Umbrellas and Parasols.

A very useful article. Rain is more than you need them in supplies as well as in rain. We have you must not buy some and look at GOODS!

A few words more, my friends and customers. I told you many times that I sell goods as cheap as any house in the city, large or small. I have pledged my reputation to be true to the thousands and thousands of persons now, that I intend to do a straight-forward, fair business. I represent goods as they are, and sell them at small figures in the cash basis. Where shall I see you at A. FREEDLE'S.
