Did he write a check at Graham's, as it was his duty to do, to contribute and maintain the machinery of the government...

This fellow Graham is the same villain whose deposition the Governor had taken to implicate several of the best men in Moore County with the Ka Klux...

We have put these names to show how these grave sinners are treated by the Governor and his co-workers...

But there is another view of the subject: These alleged outrages of the Ka Klux were perpetrated months and months ago...

These horrid misdeeds make known to us as well as to you, that the whole military movement is the result of a horrid and murderous conspiracy...

Dear Mr. Turner:—Your leading topic for the promotion of my family and your telegram asking for the participation of the members of my family...

The annual meeting of Stockholders to be held in this month, may be considered, by some, the most appropriate time and place for such views to be presented...

As a general rule that community will be most prosperous which is most industrious and enterprising, and whose capital and labor are most judiciously expended...

It is a great mistake to suppose that the interests of the farmer, the merchant and the manufacturer are antagonistic...

All classes of citizens are equally interested in the all important question of easy, rapid, cheap transportation...

The large and the manufacturer want a good market for the products of their toil. How do they get it? By cheap transportation...

What can we, the Stockholders of one of the most important roads in the State of North Carolina, do to aid in developing the resources of this State...

The following opinions were delivered on yesterday, to-wit:

Chief Justice Branson—L. H. Tate, from Burke County, Error.

Justice Jones—L. H. Tate, from Burke County, Error.

Dear Mr. Turner:—I wish to have brought before the minds of all, who have the management of our Railroads, the importance of cheap transportation...
