COUNTY CONVENTION.

At a meeting of the Executive Democratic Conservative Committee of Wake County, held in this city this day, it was ordered, after full and free consultation with our friends, that a County Convention be called to meet at the Court House in this city, of delegates from each Township, on Saturday, the 15th inst. for the purpose of nominating a candidate to fill the vacancy in the next House of Representatives, occasioned by the death of the late H. A. Hodge, deceased. The Committee respectfully advise the people of the several townships, to hold meetings in each on Thursday the 13th inst. to appoint delegates to attend said Convention, in order that there may be a full and fair expression of the wishes of the County.

OPENING OF MILLINERY GOODS.—The ladies of Raleigh and the vicinity, are invited, on Thursday, to an examination of the splendid assortment of millinery goods just received by Mrs. Taylor and Mrs. Young. They can be found over the Book-store of Alfred Williams.

Fall and winter trade. Stock of Dry Goods, carpets, notions, marseilles quilts, &c., Davis, Drake & Co., Petersburg, Va., who do a very large business in their line with N. C. merchants.

Mrs. Taylor and Mrs. Taylor, over the Book store of A. Williams, announce to the ladies of Raleigh and all others, a stock of new millinery goods. We do not conceive it necessary to urge the ladies to give them a call, as we believe they generally go where new millinery is kept without much urging.

See T. H. Briggs' notice of Stoves, &c.

Also, W. C. Stronach & Co.'s new importations.

THE PUBLIC PRINTING.—We call the attention of those interested to the notice of the Public Printer in to-day's paper.

MAYOR'S COURT.—Yesterday morning this tribunal was almost without business. The following were the only cases demanding His Honor's attention:

Eliza Adkins, arrested for being drunk and disorderly on the streets and abusing a policeman. Released.

Bart Allen, lying drunk on the street.—Fined $3.

Dawson Smith, was reported for violating the city ordinance in regard to fast driving in the streets, but up to this writing had not been arrested.

ANOTHER HOTEL IN RALEIGH.—We learn that Maj. Blair, formerly of the Yarborough House in this city, having been disappointed in his contemplated arrangements for a Hotel at another point, has concluded to remain in Raleigh for the present and open the Exchange Hotel on Hillsboro street.—He expects to open the house about the 15th inst. and have everything in readiness for the State Fair, which begins on the 18th.

Everybody who has been in the habit of visiting Raleigh knows Maj. Blair as a hotel keeper, and he says he is going to keep a better hotel than he has ever kept in the [illegible] will be rather limited for a while, but we learn that Mr. Grimes, the proprietor of the Exchange, intends soon to add to the house so as to make it one of the most desirable and fashionable hotels in the State.

Maj. B. is making arrangements by which he can comfortably accommodate all who may favor him with a call.

GOLD AND COPPER IN WAKE.—We were shown yesterday specimens of copper and gold found in this county, which we think indicate rich deposits of both those metals. The specimens were taken from a vein found by Mr. Wm. Broadwell on his place, fourteen miles northwest from Raleigh. In some of the rocks are found iron pyrites mixed with the copper, but these were taken near the surface; the best specimens of both gold and copper were taken from a shaft sunk several feet below the surface. We should not be surprised, if proper investigation be made, that very rich deposits of copper, and perhaps gold, would be found at the place alluded to.

NEW AND PRETTY.—A few days ago we stepped into the new house of the Rescue Fire Engine Company, to look at the fine chandelier just suspended in the central room. The Company are having their hall very neatly and comfortably arranged, and not the least ornamental article of their fixtures is the new chandelier, which is of handsome and brilliant appointments of the craft, artistically attached to the stem and arms.

SUPERIOR COURT.—Judge Watts arrived and opened his Court yesterday. It is due to Judge Watts to state, that his non-arrival yesterday was owing to indisposition.

The grand jury was selected, and charged in the Judge's usual and emphatic style.—We were struck with some points of the charge, and thought he must have had the Ku Klux and the Governor both in his mind's eye at the time. He said that no man should be tried or punished for any crime, except through the intervention of a grand jury. He put much stress on this part of his charge, that our mind involuntarily reverted to the late military arrests by the Governor and his order, (from which he afterwards backed down) for a Court Martial or Military Commission to try the men arrested.

A large number of witnesses were sworn and sent before the Grand Jury, and from all indications the criminal docket will be a heavy one for the term.

The Judge is very particular, in his charges, to adapt his language to the comprehension of the Jury, and his aptitude in the selection of new words to convey his exact meaning to the mind is, at least, unique. For instance, in his charge on the crime of burglary, he used the term "burglarer," to denote the criminal; a term we do not recollect occurring in the old law book hope it has been incorporated in the "Code of Criminal Procedure," which we have not yet had the temerity to examine.

POLITICAL SPECULATIONS.—Information received at Washington City state that the canvass in Indiana, Ohio and Missouri, is more vigorously contested, than in any of the Western States. The division in the ranks of the Radicals in Missouri, determined the Democrats to run no State ticket. They have a prospect of electing five or more members of Congress. The Democrats expect to gain one Congressman in Missouri and two in Arkansas. They look for gains also in Ohio and Pennsylvania.—The tariff enters largely into the canvass.—Alabama, Louisiana and Georgia are expected to go Democratic. The Democrats expect to elect every Congressman in Tennessee, except in Maynard's district. They also expect to gain seven members in New York and one in New Jersey. The Radical Executive Committee does not concede a gain to the Democrats in the House of more than twenty members.

FINE PRINTING.—We think that some young printers of this city, who are "up to a thing or two" in the art, design getting up an ornamental advertising circular for the State Fair, so arranged as to give the programme of each day's proceedings during Fair week; provided they meet with sufficient encouragement to justify them in the undertaking.

DON'T SMOKE.—The American *Advocate*, published at Salem, in his last "revival intelligence," endorses Colfax's speech and Grant's administration but taboos Holden and *his* administration altogether. What does this mean? Don't Walter go with his party—we mean his party in this State, Holden, Ashley, Kirk, military, suspension of *habeas corpus*, Littlefield, State bond frauds, and other party characters and characteristics? We are afraid Walter's stomach is getting too weak for such a strong dose.

WANT TO KNOW, what was the amount of the bill presented by Farriss, keeper of the Capitol against the State for wood, and how much was "docked," after measurement of the wood, before the bill was paid? We ask, because we have heard it intimated that the account was docked *eleven hundred dollars*, because of the fact that the amount of wood *wasn't there* when it came to be measured.

Quere. Has Farris been restored to the confidence of his Excellency?

For the Sentinel.

HON. JOHN E. SANFORD, INSURANCE COMMISSIONER ON THE "TONTINE PLAN" OF INSURANCE.

"One of the expedients of new companies to get business, is the heralding of 'new features' of Insurance, which promise an unheard of advantages to the insured.—Many of these are in fact old features like the Tontine plan, which had their day, and passed into disuse, before its insurance had fairly become established system. Risky and at the same time safe for the company, it is certain that they offer no inducements which any other company could not offer at the same price. Almost any wonderful thing can be done for the policy holder, if he is willing to pay for it; and it is very sure that a new company cannot grant privileges that an established company, with smaller expenses, could not furnish at a less cost. When stripped of the specious covering that is intended to give them currency, it will generally be found that, it the company is not getting decidedly the best of the bargain. The policy-holder would be doing a much better thing for himself if he had chosen some familiar form of policy."

Bear in Mind.

When disease has undermined the health, and the physical system has become overthrown, a stimulant that will not only strengthen, but remove the cause, should be immediately resorted to. Mental distress is also a fruitful source of the breaking down of the constitution, and the ravages of this agency to health are truly alarming. For all such maladies Hostetter's Stomach Bitters have been found unsurpassed. By acting directly upon the digestive organs, they remove the heavy, disagreeable feeling of fullness, so often complained of by persons of a delicate temperament. As soon as digestion is restored, the patient finds his strength increasing, and his general health improved.

The medicine is so pleasant that it may be relied on in all cases of weakness or nervous debility attendant upon sedentary habits. The consistency of invalids are so delicate that they are objectionable to a weak stomach. This is not the case with Hostetter's Bitters, which will be found mild and extremely pleasant. Enhanced appetite, increased vital energy and refreshing sleep, are the results of its exciting and strengthening, its basis is the only pure stimulant which has ever been produced, not excluding so-called medicinal and alcoholic compounds that do not deserve, and cannot receive the confidence of thinking men. There is scientific testimony; but the testimony of thousands of invalids who have experienced the preventive and curative effects of this genuine vegetable tonic and alterative of sedentary habits still more conclusive. In Fever and Ague, Dyspepsia, Biliousness, Nervous Complaints, Chronic Complaints and general debility, it is an acknowledged specific, as nothing in the shape of medicine can be.

The Celebrated Concave Convex Crystal Spectacles, and Eye Glasses manufactured by the PHILADELPHIA OPTICAL INSTITUTE,

HAVE now been a long time before the public, and the rapid and increasing demand for them, combined with the universal commendation of those who have used them, is the best evidence that they are superior to any other glasses in the market.

The advertisement for the Concave Convex Crystal Glasses contains the following:

The Lenses are manufactured of the best material pure and hard, and ground only for optical purposes, they are therefore not liable to get scratched or dim.

They confer a brilliancy and distinctness of vision not found in any other glass.

They can be used equally well by day or candle light without the trifling of refocusing the eyes.

They are ground mathematically true to the concave convex curve, according to the philosophy of nature, and shape of center of the eye, therefore assisting nature only instead of forcing it.

That the lenses are centered correct into the frames.

They can be used longer than any other glasses without changing to a higher power.

WASHINGTON.

WASHINGTON, Oct. 4.—The increase sale of postage stamps of this, over last year, will exceed five million and a half.

The Cabinet met to-day; nothing important [illegible]

[illegible] has been [illegible] Mrs. A. Pendleton at Lynchburg.

The Southern Commercial Convention assembled. Pendleton delivered the [illegible] address. A Committee, one from each State, was appointed upon permanent organization.

FOREIGN.

FRANKFORT, Oct. 4.—Via Berlin. Nothing is [illegible] around Metz save the [illegible] dispatch sent from there to Bismarck, was [illegible] by Gen. Bourbaki, with many lies in the French.

PARIS, Oct. 4.—The American government [illegible] Minister Washburne, which must make a gap in the Republican ministry.

PARIS, Oct. 4.—An officer of the late Pontifical army is here organizing a corps of from [illegible] men. Gambetta will [illegible] all south corps [illegible] now operating between Orleans.

The Garde Mobile [illegible] six thousand chassepots, lately [illegible] the Rhone, have [illegible] arrived at Chalonon. A Prussian detachment was driven out of Arteaux yesterday. A movement is evidently on foot to attack Tours.

It is thought the army are taking active measures for national defence. The same is the case throughout Southern France. The Government is thus greatly strengthened.

Accounts from the forts of France show that the [illegible] are seriously annoying the gunners. The Fenian [illegible] still continues to be very irregular and uncertain.

Many corps of Mobiles and sharp-shooters are arriving here to be armed with chassepots; the Government having a large supply.

Reports received here state that the Prussians are concentrating at Toul for a movement on Lyons. Energetic measures are progressing to defend Lyons. The employees of the Postoffice Department are absolved from military duty.

BERLIN, Oct. 4.—A later synopsis of Bismarck's circular says, that though Favre's representations of what passed at the interview may not be to some strong intent, yet its construct on was wrong. Many questions were discussed. Bismarck did say that the new Metzville district would be certainly protected.—The surrenderments of Strasbourg, Chateau Salines, Saargemund, Metz and Thionville would be demanded by Prussia, but he took pains to say that this might not be all the territory exacted. Favre said that Strasburg was the key to the house," not explicit, a member to the Germans of French [illegible]

PARIS, Oct. 4.—The [illegible] Favre said he was willing to pay, as a price of peace, all that money France had, but refused to cede to any territorial surrender. He added, that though a cession was an indispensable requirement of the Prussian negotiation, it was useless, as it involved [illegible]

Bismarck [illegible] Favre that after were terms such as France had forced on Italy, and exacted from Germany, even without a previous war, and that the honor of France was not keener than that of other people. Favre declined to recognize such precedents or see how little the [illegible] of France were concerned with the preservation of the territorial threats of Louis the 14th, or of the first Emperor.

The proposal of an armistice was only discussed as [illegible] The statement, therefore, that I had refused an armistice at a proceeding in terview is false. It was agreed as Ferriere that an armistice would be possible, if France would give Prussia guarantees against a delay and against [illegible] the advantages of position she had earned in the war. These guarantees included the retention of the fortresses on the lines of communication and the handing over of the fortifications of Paris, pending the negotiations, or else the commanding forts near Paris. It would have been impossible for Prussia to allow Paris free intercourse with the country as it might thus have received supplies and reinforcements. Favre refused the terms, but promised to consult his colleagues in Paris.

The programme which he carried back, included an armistice of fifteen or twenty days, to permit the formation of the Constituent Assembly; for the maintenance of the military status before Paris; the continuance of hostilities under certain limitations and the surrender of Strasburg, Toul and Bitsche.

The refusal of these terms must convince [illegible] that the French Government believed their acceptance would produce peace, which was not desired by them.

LONDON, Oct. 4.—An American writer in the *Standard* says that the news of Prussian victories now falls dead in the United States, and even at Berlin the people are indifferent.

A Rail Road collision occurred at Crewe; several were hurt.

The North China Herald mentions a treaty between China and Japan for the exclusion of foreigners.

Jules Favre is waiting to send a letter to King William before deciding how to act.

Calais is filled with National Guards. Reconnoitering parties are sent out towards Arron.

ROUEN, Oct. 4.—The Prussians are intrenched at Metanq and have also approached Rollebon.

MARINES.
