SEND YOUR ORDERS IN TIME,

FOR THE IMPROVED

"UTLEY COTTON PRESS."

THE "UTLEY PRESS" so well known, and which gave entire satisfaction last season, can be obtained at once at Raleigh, or any Agency Store. Mitchell, Allen & Co., Newbern, with its improvements.

Price $175.00.

This invention of power, whereby all friction is overcome, its simplicity, economy and durability, astonishes all who see it; and the fact is, that a power so simple should have remained so long unappreciated. The strain is wholly borne by the Bed Plate, Follower Block, and two 1¼ inch square iron bars. Which is capable of sustaining a strain of 190,000 lbs. Thus giving much more strength than is required. WITH THIS PRESS TWO MEN CAN BALE A BALE OF COTTON WITH EASE IN ABOUT MINUTES RUNNING FROM 400 TO 550 lbs.

One man can do the work, only requiring longer time.

It occupies a very small space, and can be so placed as to receive the lint direct from the Gin or Lint Room, as may be desired. Time being saved with feeding, and frequent handling of the lint.

It is light in weight, can be taken down or put up in 30 minutes and transported on a two Horse Wagon.

I believe it unequalled by any Press for power, convenience and durability.

Press complete—Dupin Cotton Box 8 feet. Size Bale 44 feet x26x38x50in; wt. Bale 400 to 550 lbs.

THOS. H. BRIGGS.

Mr. THOMAS H. BRIGGS: Dear Sir:—Yours of 13th instant inquiring as to the merits of the "Utley Cotton Press" is to hand, and in reply I would say that I have tried other Presses and consider the pain upon which the Utley Press works lighter, simpler and more durable than any I have met with.

The above Fluid has been in extensive use for upwards of three years, and has sustained its universal reputation, as a brilliant, non-explosive illuminating agent, being acknowledged to be superior to Kerosene or Coal Oil. It makes a better light and more of it, than any other illuminating compound. Soft, clear, steady and non-injurious to the eyes. All that is asked is, a fair and impartial trial.

Among the numerous testimonials received read the following:

PHILADELPHIA, March 15th, 1869.

The various tests to which the Fluid was subjected, was in the [illegible] satisfactory. We have no hesitation in pronouncing it to be a safe and [illegible] illuminating agent.
