PIANO FORTES,

From the GREAT UNION CO., of New York

JAMES PIRSSON,

Respectfully informs the public that he has ordered a stock of these superior instruments and expects them in a very short time. Such is the great and increasing demand for these Pianos that the company have erected a new factory of sufficient capacity to manufacture sixty Pianos per week, and are now moving into it, which creats a little delay in the supplying of orders, and with the increased facility of machinery, and the finest workmen that money can procure, and an unlimited capital, the company are enabled to defy competition and put their Pianos in the market at a lower price than any establishment in the United States. Persons who are about to purchase Pianos will do well to wait the arrival of these Pianos, which will shortly be on exhibition at J. PROF. CHANDLER, of New York City, in a lecture delivered by him at Cooper Institute, March 19, 1870, said:

"It is hardly necessary to enlarge upon the terrible accidents which have resulted from the use of unsafe kerosene; you have only to read the newspapers from day to day to see them. It is stated by some that these are exaggerated; that these accidents never occur, and that you and I never had a friend burned to death; still we do have an enormous number of terrible accidents from petroleum. In the last seven months of 1869 there were fifty five kerosene accidents in New York, resulting in twenty-three deaths, eighteen serious injuries and fourteen trifling ones. The total result for the year 1869, for the city of New York, which I myself have cut from newspapers, is fifty two fatal accidents from danger ous kerosene, fifty severe and six slight; in all, 108 persons to my knowledge, from my own reading, have been injured by kerosene in one year."

There has never been a single accident from the use of

PRATTS ASTRAL OIL.

It has been before the public for nearly EIGHT YEARS, and is now used by over 200,000 families. For sale by
