JAMES PIRSSON,

Respectfully informs the public that he has ordered a stock of these superior instruments and expects them in a very short time. Such is the great and increasing demand for these Pianos that the company have erected a new factory of sufficient capacity to manufacture fifty Pianos per week, and are now moving into it, which creats a little delay in the shipping of orders, and with the increased facility of machinery, and of the finest workmen that money can procure, and an unlimited capital, the company are enabled to defy competition and put their Pianos in the market at a lower price than any establishment in the United States. Persons who are about to purchase Pianos will do well to wait the arrival of these Pianos, which will shortly be on exhibition at J. PIRSSON'S Warerooms, corner of Hargett and Salisbury streets, Raleigh.

PROF. CHANDLER, of New York City, in a lecture delivered by him at Cooper Institute, March 29, 1870, said:

"It is hardly necessary to enlarge upon the terrible accidents which have resulted from the use of unsafe kerosene; you have only to read the newspapers from day to day to see them. It is stated by some that these accidents exaggerated; that these accidents never occur, and that you and I never had a friend burned to death—still we do have an enormous number of terrible accidents from petroleum. In the last seven months of 1869 there were fifty-five kerosene accidents in New York, resulting in twenty-three deaths, eighteen serious injuries and fourteen slight ones. The total result for the year 1869, for the city of New York, which I myself have cut from newspapers, is fifty two fatal accidents from dangerous kerosene, fifty seven and six slight; for all, 109 persons to my knowledge, within my own reading, have been injured by kerosene in one year."

There has never been a single accident from the use of

PRATT'S ASTRAL OIL.

It has been before the public for nearly EIGHT YEARS, and is now used by over 300,000 families. For sale by
