CAROLINA PUMP COMPANY.

SOUTHERN INVENTION.

Home Manufacture.

Submerged Glass Cylinder Double-Acting Force Pump.

PATENTED AUGUST 1869, BY A. BALDING

The undersigned, having the exclusive right to manufacture and sell the above Pumps in North and South Carolina, have associated themselves together under the name and style of the "Carolina Pump Company," and having established their Manufactory at Fayetteville, N. C., are now prepared to furnish Pumps at short notice. Science has at last triumped in the production of a Pump admirably adapted for Wells and other purposes, that will force water any depth or height, which, by attaching hose, at once becomes a local Fire Engine of great power, throwing 50 to 150 gallons per minute.

This Pump combines simplicity and durability, in which the water will never freeze or become stale, as the cylinder and valves are submerged, and no water remains in the pipe when the Pump is not in operation. The Pumps works almost incredibly light, always bringing the water fresh and sparkling from the bottom of the well; and there is no friction, the cylinder being glass, the packing cannot wear or rust, the valves being round, made of flint glass, working on gum seats, can neither wear or jam. These Pumps are peculiarly adapted for supplying tanks in upper parts of dwellings, cellars, hotels, bathing saloons and for railroads, streets, gardens, distilleries &c. They can be attached to steam or water power.

Any ordinary mechanic can put them up by printed directions accompanied with the Pumps. We have hundreds of testimonials from persons who have used our Pumps, who express great satisfaction, in fact they are a success and will sustain all we claim for them.

Buy one and save fire insurance. Special attention given to all orders. The entire depth of well must accompany each order.

CERTIFICATES.

PHENIX'S OFFICE,
FAYETTEVILLE, N. C., April 26, 1871.

Wm. C. Troy, Sup't Carolina Pump Company:

The Pump you sold me surpasses my most sanguine expectation. It does all you claimed for it. As a FIRE ENGINE its value is incalculable. With twenty feet of hose I have thrown water entirely over my dwelling, which is a very high two and a half story house. My family would not be without it for any consideration.

E. W. HARDIE,
Sheriff Cumberland County.

SENATE CHAMBER,
RALEIGH, N. C., March 18, 1871.

Having had fifteen to twenty years' experience in gold mining, using various kinds of pumps for forcing water from great depths, I take pleasure in giving preference to those made by the "Carolina Pump Company" over all others for well and other purposes. They combine simplicity and durability.

VALENTINE MAUNEY,
Stanly County

WILSON, N. C., Jan. 25, 1871.

J. L. Kitchin, Esq.

Dear Sir: We have had your Balding's Pump in regular use, beginning at various periods since March, 1870, and we are free to say, that they are in every way satisfactory. There is no indication of wear or early getting out of order. All the water that nature has designed to pass through such a channel can easily be brought up, even by children, for ordinary use, and by attaching hose, and putting two to four men to the lever, the pump at once becomes a local fire engine throwing sufficient water to subdue any ordinary fire. We therefore recommend your pump to the careful examination and use of the public.

WELDON, N. C., Feb. 3, 1871.

I have used for six months past one of Balding's patent submerged pumps, manufactured at Wilson, N. C., by J. L. Kitchin, and take pleasure in recommending it to the public as having given perfect satisfaction, in fact I regard it as one of the best pumps now in use.

NOTICE.

The Commissioners of the City of Raleigh do ordain, as follows:

The city collector of taxes shall cause to be prepared, tin, zinc or copper medals, with the words "tax paid," stamped or engraved thereon, the cost of which is not to exceed— cents each, to be paid by the city.

It shall be the duty of all owners of dogs or sluts in the city to procure from the collector on paying the proper tax, a medal as above described, which shall be attached to said animal.

It shall be the duty of the Chief of Police to capture all dogs or sluts found in the streets or any public place in the city, without the aforesaid medal, and to impound him or her for three days, and if the same shall not be reclaimed and the proper tax and all costs and charges paid within said time, then it shall be his duty to put said animal to death. For his services in carrying out this ordinance the Chief of Police shall be allowed as follows: For capture of the animal 50 cents; for feed of the same per day 10 cents; for killing, the same and transportation of the carcass to such places as is required by law 25 cents; which sums, if not paid by the owner, shall be a charge upon the city.

The Chief of Police shall rent a lot within or without the city limits, and prepare the same to be used as a pound; the expenditures of which shall be, with the advice and consent of the committee of councils, paid by the city.

If the dog or slut belonging to any person not a resident of the city, or within one mile of the city boundaries, shall be secured under the foregoing provisions, the same shall be delivered to the claimant without charge, provided the claim shall be made within twenty-four hours after seizure. But if not made within that time, the claimant shall pay costs and charges.

It shall not be lawful to seize any dog or slut belonging to any person not a resident of the city, if the animal shall be attached to the vehicle of the owner or shall be within his personal presence.

The Chief of Police shall be authorized, at the expense of the city, with the advice and consent of the committee of councils, to have prepared such instruments for capturing the animals liable to seizure as aforesaid, as may be necessary and proper.

This ordinance shall go into operation at the end of twenty days from the date of publication.

The above is a true copy of the proceedings of the City Commissioners at their meeting held September 30th, 1871.

PIANO FORTES.

JAMES PIERSON, respectfully informs the public, that he has just received a new stock of those superior Piano Fortes, of the GREAT UNION COMPANY OF NEW YORK, to which he invites their attention. The immense resources of this company in the shape of capital, machinery and other facilities, enable them to put their Pianos at a much lower rate than any other first class establishment, and persons about to purchase will find it much to their advantage to call and examine these Pianos before purchasing elsewhere.
