THE LEASE It has been stated on the floor of the Senate that a romor prevails that the giving a portion of an article in the board of directors of the North Carolina Sourmenake last week up in the Legisl the Senate that a rumor prevails that the ad appropriated ten thousand dolrailroad appropriated ten thousaid dol han of the company's funds to sustain the lease. We are not prepried to he lieve it. We know there has been fraud practiced. The State has lost, while cer-tais individuals have made money by the lease. A comparing was us entered into last July to prevent a meeting of the stock holders. The purpose of not holding a meeting was to prevent the state boung represented. The complexcy on the part/of the stockholders is indictable. The state owns three fourths of the road. A few of the swame of the other fourth, to make money for themselves have completed to silence the state, and lease its property for thirty years at a low of a million or more are of the company's funds to sustain

silence the state, and lease its property for thirty years at a loss of a million or more to the state. They pat forward one Stanford, of Baltimore, who through Jodge Bond of the same city, forbid by logiunction the speakers of the senate and house, to per-form a plain doty in appointing directors on the part of the state. The committee appointed to investigate the lease should inquire info Jodge Bond's conduct in the matter.

matter. That a federal judge should torbid and enjoin the execution of a plain statute in North Carolina astonished every men in the state except Phillips,Caldwell and BiBy Bmith and his board of directors. Judge Bond's conduct to sny the least of it was aus-picious. He enjoined and torbid the speak leious. He enjoined and forbid the speakof the two houses to appoint directors to represent the state's littenst in this cor pration about the first of July, Some outhe after tost the injunction is dis plysi, not however, until after the arments have been made for the leave of the road for thirty years.

We would not charge that Judge Bond ande money by the injunction or the lease for we have no proof of it, and he may have acted honestly.

When Judge Watts issued an injunction for Kehne forbidding the public tress urer to issue state bonds' for the Atlantic Cennessee and Ohio milrond, and then molved the injunction, it raised sun nicion in the minds of many that the dge was presidenting his high office. When five thousand of the bonds were aced to his possession, or Tim Lee's possession for him, the suspicion becau proof positive.

We should like to hear Judge Boud's usons for granting the injunction, and then his reasons for dissolving it. He will probably my Judge Brooks dissolved the injunction. But did not Bond concur. We care not who dissolved the injunction we say Judge Bond's conduct in the mat ter is a proper subject for comment an investigation by the committee on th

PENITENTIARY. Will the tax-payers and mechanics of

North Carolina have justice done them by the logislature of North Carolina in regard to this public building ? If so, they will investigate the following charges

which will be fully sustained by reliable and responsible persons : 1st. That the contract for the stone may

soury was not given to the lowest respon-

sonry was not given to the lowest respon-sible bidder. 2d. That the working drawings for the ent stone, which amounts to about \$150, 000 worth of work, was not to be seen here until the day of letting out the builting; and that time was asked by all the builders (except those from Ohio) to to make estimates from those drawings, and was refused. 3d. That the class of work that has been done, is not the class of work that bidders were required to bid for; that the class of work that has been done could be estimated and done for one-third less tham that which the specification calls for, which would be a saving of \$75,000 to the States on this part of the building. 4th. That the amount of cut-stone and fancy work on all the building could be reduced to the assent of \$100,000, and know the building as large and as sub-stantial without it as if would be with it. Here can be word \$175,000 to the tax payers of North Carolina. 7 This is no idje talk, but that which can builted and by maintained by practical methods.
