The Republic Life Insurance Company has for its two fundamental ideas, safety and home investments; or the investment of funds in localities where the same are secured. Its purpose is, to make the Company so strong in Character and Capital as to secure the confidence of the people and thus while they invest here in it, to have the investments made through its branch organizations in their own midst, and so save the immense drain upon the West and South, amounting to millions annually, for Life Insurance Premiums.

To accomplish this, it has made its capital Five Millions, 20 per cent. paid in; and distributed in the hands of leading influential men in all parts of the country. It secures thereby influence, business, and a supervision of the same, that will make it better and safer than any similar company in the land.

Upwards of Four Millions of the Stock has been taken, over one and a quarter millions of this stock is held by capitalists in New York, Philadelphia, Baltimore, St. Louis, Cincinnati and Atlanta, Georgia, and the remainder of the subscribed stock by Chicago, and other Western towns and cities.

On the first day of July last the DeSoto Mutual Life Insurance Company of St. Louis consolidated with the Republic, and will hereafter be known as the "DeSoto Department" of the Republic. This Union provides for a continuation of the business on the somewhat modelled plans of the Republic; whose simple and correct business principles will commend themselves to all interested, among which, this is prominent. So much Insurance, for so much money.

In order to provide for the Policyholders of the DeSoto Mutual, and give them the additional security of the capital of the Republic, the Policies which they now hold will be exchanged for Policies in the DeSoto Department of the Republic.

At a meeting of the Trustees of the North Carolina State Board held on the last, a committee was appointed to examine into the condition of the Republic since the great fire at Chicago, and the following is their report:

RALEIGH, Nov. 16, 1871.

To the President and Directors of the N. C. Branch of the DeSoto Department of the Republic Life Insurance Company.

The undersigned, a Committee appointed to investigate the financial condition of the Republic Life Insurance Company, respectfully report that they have performed the duty devolved upon them by examining the circulars and reports issued from the office of the Company at Chicago since the great fire on the 9th of October, and other papers submitted by Maj W. J. Anderson, Agent, and they are satisfied by the exhibit made in these papers that the Company is a large and entirely solvent corporation and they are further of the opinion, after their investigation that the interest of the Policy-holders of the DeSoto Mutual Life Insurance Company has been advanced by the union of that Company with the Republic.

Respectfully submitted,

CAROLINA PUMP COMPANY.

SOUTHERN INVENTION.

Home Manufacture.

Submerged Glass Cylinder Double-Acting Force Pump.

PATENTED AUGUST 1869, BY A. BALDING

The undersigned, having the exclusive right to manufacture and sell the above Pumps in North and South Carolina, have associated themselves together under the name and style of the "Carolina Pump Company," and having established their Manufactory at Fayetteville, N. C., are now prepared to furnish Pumps at short notice. Science has at last triumphed in the production of a Pump admirably adapted for Wells and other purposes, that will force water any depth or height, which, by attaching hose, at once becomes a local Fire Engine of great power, throwing 60 to 100 gallons per minute.

This Pump combines simplicity and durability, in which the water will never freeze or become stale, as the cylinder and valves are submerged, and no water remains in the pipe when the Pump is not in operation. The Pumps works almost incredibly light, always bringing the water fresh and sparkling from the bottom of the well; and there is no friction, the cylinder being glass, the packing cannot wear or rust, the valves being round, made of flint glass, working on gum seats, can neither wear or jam. These Pumps are peculiarly adapted for supplying tanks in upper parts of dwellings, colleges, hotels, bathing saloons and for railroads, streets, gardens, distilleries &c. They can be attached to steam or water power.

Any ordinary mechanic can put them up by printed directions always sent with the Pumps. We have hundreds of testimonials from persons who have used our Pumps, who express great satisfaction; in fact they are a success and will sustain all we claim for them.

Buy one and save fire insurance. Special attention given to all orders. The entire depth of well must accompany each order.

Wm. C. Troy, Sup't Carolina Pump Company:

The Pump you sold me surpasses my most sanguine expectation. It does all you claimed for it. As a FIRE ENGINE its value is incalculable. With twenty feet of hose I have thrown water entirely over my dwelling, which is a very high two and a half story house. My family would not be without it for any consideration.

SENATE CHAMBER,
RALEIGH, N. C., March 18, 1871.

Having had efforts to twenty years' experience in gold mining, using various kinds of pumps forcing water from great depths, I take pleasure in giving preference to those made by the "Carolina Pump Company" over all others for well and other purposes. They combine simplicity and durability.

VALENTINE MAUNEY,

WILSON, N. C., Jan. 26, 1871.

J. L. Kitchin, Esq.

Dear Sir: We have had your Balding's Pump in regular use, beginning at various periods since March, 1870, and we are free to say, that they are in every way satisfactory. There is no indication of wear or early getting out of order. All the water that nature has designed to pass through such a channel can easily be brought up, even by children, for ordinary use, and by attaching hose, and putting two to four men to the lever, the pump at once becomes a local fire engine throwing sufficient water to subdue any ordinary fire. We therefore recommend your pump to the careful examination and use of the public.
