ROBERTS' PATENT PLOW!
The best plow now in use. It is four com-
plete plows in one. No other plow requires
for the whole year. It is adapted to all kinds
of soil—rocky, stiff, or sandy. Can easily be
changed from a turning plow, down to any
size required, by simply changing the wings.
It is a one horse plow, light and strong.
It is equally adapted to corn, cotton, tobacco,
etc., etc. In fact, it is the plow for the farmer,
as it supplies all his wants for the whole crop.
No need of running to the blacksmith shop.
It is a one horse plow, light and strong.
(Special Attention: Not liable to break, as is
the case with the cast iron plow.)
Recommended by hundreds now using it. It
is the best for all purposes. I solicit the patron-
age of my friends and the public in gen-
eral.
I am now prepared to fill all orders for
Plows and "Fenix" Plows, of the best
material and superior workmanship.
All plows in working condition. Plows or
Fenix plows, or any plow, will be left
